NOTES

July 1, 1912

We have to acknowledge receipt of your letter of May 25th, which we have read with a great deal of interest. We fully appreciate your position, and realize that you have had lots of trouble regarding the delivery of these notes.

Asyou suggested some time ago, we have wired and sealed the boxes, using lead instead of wax, as you advised, feeling that there will be no chance of the lead breaking or chipping off; and we trust that with this additional security, we shall have no further trouble with the tampering of the boxes.

We agree with you that the Government has the whip hand in this matter, and that bringing suit would be but little satisfaction. We have very carefully studied what you consider to be the best course to be adopted for settling with the Government for the stolen notes, and think your suggestion of making a present to the Caixa de Amortizaçao a very excellent one; we leave it to your good judgment as to how much you think we should present them with.

Regarding our paying forthe notes stolen, we think this unjust and unfair, and feel that you are in the hands of dishonest officials. We consider that to pay for this robbery would be to acknowledge our guilt, and this would only hurt our standing with the Government. At the same time we want them to feel that we have been fair in the matter, and are willing to do whatever is right, and satisfy them in every way.

In connection with this subject, we have to acknowledge receipt of Mr. Claudet's cables of June 20th and 26th; and confirm ours of June 21st, 25th and 26th, addressed to Mr. Claudet in care of your goodself, - all as per copies herewith.

Yours very truly,

5 MILREIS NOTES

July 2nd, 1912.

We beg to acknowledge receipt of Mr. Claudet's cable of June 29th, addressed to Mr. Green, asking us to prepare new models for the 5 Milreis Notes. This we are doing and will send same forward at the earliest possible moment. (Copy of cable herewith).

We will try to furnish something very handsome , with one steel printing on face, one on back and multicolor tint on face. We also intend using one of our handsome allegorical vignettes on back, and trust they will be pleased with the same.

We are very sorry to hear that our competitors are making a strong effort to take this business, but feel sure that you and our Mr. Claudet will be successful in retaining the same.

Yours very truly,

Manuel J. Ferreira da Cunha,

Consul General of Brazil,

17 State Street, New York.

Dear Sir:-

I have the hnor to acknowledge your letter of the 29th ult.

Our Vice-President, Mr. Claudet, happened to be in Rio de Janeiro, at the moment, and I cabled him of the attemped robbery in our factory and requested him to otify the Brazilian Government.

There is ve little information to give;it simply being the case of a trusted employee of long standing going wrong. As our system is such as to render it mpossible to abstract any sheets, in the process of manufacture,he resorted the plan of stealing from the drying-room.

At first iwas thought that these sheets, in taking work out of tissues, had become xed with some other order, but investigation proved that this was not the cas and when the count was short coming from the drying-room, our secret service s at once called into play. Unfortunately, just as we were about to make e arrest the police, having been informed of it, made the arrest themselves. The sheets of partly cimpleted notes were recovered and no loss has been irred.

It is ind unfortunate that, at times, an old employee should be unfaithful to his ast, but it only emphasises the necessity of entrusting work of this charer into strong, reliable and experienced hands.

Yours very truly,

President.

My dear Mr. Green,

(Re: 5$ note, Estampa 14ª)

I beg to confirm you my cable of the 29th, June and receipt of yours of the same date, both as per copies herewith.

In accordance with your instructions I shall await the receipt of your letter of July 1st.

I desire, however, to place before you the latest situation with regard to the 5$ note which is anything but pleasant.

On the receipt of your cable authorization of last week to settle, if necessary, by paying out the face value of the notes, £ 1,000, accompanied by Mr. Irvine I went to call on the Minister of Finance, and after several arguments with the latter, I regret to state that it has been impossible to bring him out with a positive statement as to what he would agree to do. The main troubles in this case are that this new design of note had never been in circulation outside of the stolen ones and that the Minister came out with a statement that he would refuse to recognize these notes stolen. The public and the Banks were naturally very indignant at the stand taken by the Minister--who at that time proposed to go on with the issue, but refusing to recognize the notes which had been stolen--and various articles were published in the press against him. So that the Minister, taking advantage of the situation that these notes had never been in circulation, made the state-

ment that he would cancel the issue in view of the fact that many irregularities had been found in the numbering and all this appeared in the press.

In the course of the various conversations we had with him that afternoon, the Minister verbally stated, however, that the Government would pay for all the notes already received, 700,000 in all, and would cancel them. I naturally called attention to the order having been for 3,000,000 of these notes which were all partially printed and that it would be most unfair to expect the Company to stand such a heavy loss (£ 6,325), if all were completed, and that it would only be just on his part to pay for whatever printing had been done on these.

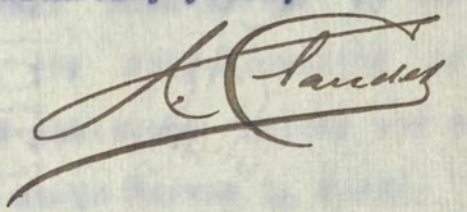

After trying our patience for five hours, during which time we had three conversations with the Minister, we came out without any decision and he did not even make any counter proposition and which we certainly had a right to expect. We learned however from his Secretary (very confidentially) that some one had taken advantage of the various articles that had appeared in the press to try and get in. Understanding that the Minister's intention is probably to bring out another model of the 5$ note to take the place of the one we are now making, we promptly decided that the best course to follow was to cable you for a new model in case of need and I trust, although the time was very short, that you will be able to send it by the steamer of July 3d. We will try in the meantime to devise some means to come to a happy understanding in which case we will cable you the news. You can be assured in the meantime that I will remain here until this question has been settled. This whole situation has been brought about especially

through the many errors that have been found in the numbering of the notes and our Finishing Department has shown some gross carelessness in probably giving this examination to some inexperienced girls. This order has also been with us for over 18 months and all we have been able to complete so far is 700,000 notes.

I might state, in answer to your cable suggestion, that perhaps it might be well to use the press to force the Minister's hand, Mr. Irvine and I feel that it would be most unwise to go to the extreme, for the present at least, as it would antagonize the whole Department and might jeopardize our present and future relations. Our opinion is that we should be patient to the extreme and we shall eventually come out all right, we hope.

Hoping that we shall bring this to a happy solution,

I remain, faithfully yours,

To
W. L. Green, Esqre.,
President of the American Bank Note Company.

July 3, 1912.

Mr. Joseph Claudet,

Rio de Janeiro,

Brazil.

Dear Sir:-

I cabled you on July 1st regarding the attempted robbery but of course could only give you the bare outlines.

One of our men who had been with us for over nine years and proved himself absolutely trustworthy in every respect, having a splendid reputation, not only at the plant, but at home, suddenly went wrong. The discrepancy naturally showed at once through our perfect system and the alarm was automatically given. As this shortage appeared in the drying-room it was thought at first that the sheets had been lost by sticking to the tissues, and quite a little time was consumed by the going over of the tissues and checking back. The sheets failing to appear our Secret Service was notified and while we continued the search to see if, by any chance, a few sheets had been accidently mixed with other work, our Secret Service proceeded along the lines that a robbery had been committed . Throughprocess of elimination we finally worked down to this man Mues, who was a printer, and caught him. He at once confessed, copy of which I enclose. The sheets were recovered and the account balanced, so that no loss of any nature has been sustained.

I also enclose you copy of my letter to the Brazilian Consul in New York.

J. C. #2

While it is not pleasant to have to face an attempted robbery, we must not be blind to the fact that we have no heaven born gift that will enable us to determine the exact moment an honest man changes into a thief. All we can do is to provide such a perfect system as will, at once, show any discrepancy, and it then becomes a mere matter of elimination and police work to locate the exact trouble. In fact, had it not been for our moving into our new plant in the Bronx this could never have occurred. It was made possible by the fact that the heating apparatus in the drying-room was new and not working properly and the necessity of our engineers going into that room, and although they went in with a guard, this man apparently sneaked in in some unseen manner behind them and accomplished his purpose.

Since this time we have added an iron cage in front of our drying room so as to make a vestibule with two doors behind the drying room and tissue room so as to prevent a similar occurrence.

As explained to the Consul General, this attempted robbery only emphasizes the importance to the financial world of the American Bank Note Company, for we certainly leave nothing undone that leads in any way directly, or indirectly to the safe-guarding of our product.

Yours very truly,

President.

My dear Mr. Green, (re:Brazilian Bank Notes)

I have your telegram of the 1st. inst. which I confirm as per enclosed copy.

As per your instructions we immediately confirmed in writing to the Minister the contents of your cable, which we handed over to his Secretary, the Minister being absent. He stated that the robbery committed having been discovered and the notes all recovered, he did not see the necessity of informing the Minister of what had happened. But owing to the fact that the Brazilian Consul in New York had been officially advised and would no doubt inform his Government, we told him it was better that we put ourselves officially on record, which has been done. It further shows that with our system of checking that there is no chance for any one in our employ to go too far without being discovered, which I consider a strong point for the Company, although it is most unfortunate that at this critical moment we should have to give out such an unpleasant piece of news. I do not know how the Minister will take it until we have a chance to interview him, but as soon as something of any interest has been decided we shall keep you fully informed.

100$ Counterfeit. This note was the only one of the last issue that was not counterfeited and in the last three months it came out and as you may judge yourself is a very dangerous one. I send it to you so that you may have the same studied out.

Faithfully yours,

J. Landes

SUBJECT Sealing boxes.

FROM RIO DE JANEIRO TO NEW YORK DATE July 12,1912.

On the 10th,inst. the Agents of the "Voltaire" sent me word that the officers sent off to get the three boxes of notes had refused to receive them as one of the iron straps had been broken in one corner and they thought that some irregularity had taken place. It was too late to effect anything that day,beyond arranging for the following morning. Yesterday I went off early with some officers and they agreed to receive the boxes,passing the necessary clean receipt. Later on Mr. Claudet and I went to the formal ceremony of opening the boxes and everything was found to be in perfect order. There is a great deal of care exercised now in handling all boxes of value because of the many robberies that have been committed in one way or another and we must be exceedingly careful to have everything in perfect order both inside and out. Any little imperfection in the appearance of the cases is noted and every indication of this kind is considered suspicious. The strap which called for attention and gave so much trouble had evidently suffered a knock or a jolt which had broken off the head of two nails which secured one of the ends and for a matter of two or three inches the strap was loose.Such mishaps are inevitable from time to time but our part is to avoid all appearances which may be considered suspicious,inasfar as we can. None of the seals (lead)on any of the boxes so far received have been perfectly made and,in fact,the impression has been so imperfect that,in my opinion,no real security has been secured on this score. Strangely enough,no one made any question on this point,but I must confess that,had I been in any position of responsibility in receiving the cases, I should have protested on this ground. So we

sent you a telegram to insure greater care in this respect in future. A copy of my cable is enclosed. At the same time I mentioned the fact that some boxes of bonds had been tampered with, evidently in the belief that they contained money. When the thieves discovered that only bonds were to be had, they gave up the attempt and nothing was disturbed. The evidence of attempted robbery was only found when the boxes were opened in the Treasury. A more careful examination of the outside then revealed the fact that some of the clamps had been taken off the boxes, some being replaced and several not put back. These robberies take place in the Custom House, beyond all question, and I can only hope that something will happen--not with any of our stuff, however--which will demonstrate the real situation. In view of the bonds being tampered with Mr. Claudet and I both think that it will be safer to seal those boxes, too.

SUBJECT Suggestion to use detectives.

FROM RIO DE JANEIRO TO NEW YORK DATE July 15,1912.

I received, on the 13th, inst., your telegram as per enclosed copy.

There is no detective agency in this country and if theye were it is more than likely that the detectives would be morally undermined by the almost universal corruption existing here and so would be more likely to employ the knowledge of a robbery to stand in with the thieves and exact a share of the spoils.

The only secret police here is that of the Government and, of course, would not be accessible to us. It is not of much account anyway.

If you wish to do any work of this kind the only plan possible is to engage Pinkerton, who has, doubtless, some men who speak Portuguese.

The expense would be considerable, but it might be well to make some effort along these lines, for the result might be of great help to us in our business.

SUBJECT Settlement with the Government concerning the question about the new 5$ notes.

FROM RIO DE JANEIRO TO NEW YORK DATE July 15,1912.

Mr. Claudet and I have made constant and,up to now ,unavailing efforts to get a satisfactory solution of this matter. We have certainly had a good many unexpected complications to deal with and the whole situation has been as about as hard to deal with as can well be imagined. In the first place the character of the Minister is such that it is almost impossible to get him to understand the matter in all its bearings. He is a man of extremely limited capacity,very suspicious and,to all appearances,very well satisfied with himself.As he is also disposed to give himself an exaggerated importance by virtue of his exalted position,he is not very amenable to appeals. Having decided the question to his own satisfaction he is disposed to treat his own opinion as final.We are not the only ones who have had difficulties in this respect. In these circumstances the only thing left to us is to employ the offices of some friend who has his confidence and can point out to him the true bearings of the various points involved and persuade him to meet our views. Such a friend is available and I hope to have an interview with him to-day and make the necessary arrangements. We were advised to submit the matter to his Chief of the Office and this we did,but so far,he has not been able to accomplish anything. As a metter of fact he is afraid to urge the solution of the difficulty too much as he is afraid that the Minister will think that he has some improper motive if he shows too much solicitude on our behalf.

The case of the robbery in the Company's factory has not exactly helped matters along,but at the same time we may congratulate ourselves that the Minister,with his peculiar mental equipment,did not

make capital out of it to our detriment.When we broached the affair to his Chefe de Gabinete he said "I do not think that I would mention this to the Minister.It is all over now". We pointed out that the Company had instructed us to report the case and that,moreover,had immediately laid it all before the Brazilian Consul in New York. We further stated that we considered it right,anyhow,to state everything without any concealment and also called attention to its being a proof of the efficacy of the care used by the Company in protecting the inter-ests of its clients.

The breaking open of the boxes containing bonds and the suspicion attaching to one of the boxes of notes by the "Voltaire",concerning which I have already written you ,are also of a nature to retard the prompt solution of our difficulties.

The Minister has also had to deal with an important robbery of two boxes of notes shipped to the Treasury Agents in Rio Grande do Sul and Matto Grosso by one of the steamers of the Lloyd Brazileiro.

These boxes contained Rs.1,400,000$000 (about $ 465,000.)and when the first box was received it was found that all the notes had been stolen. The Captain of the steamer,in view of this,brought the other box back to Rio and it,too,was found to have been completely rifled. The police are at work to discover whether the robbery took place in the Treasury,on the way to the ship,in the Steamship Company's office,or on board the steamer. From what is known,it looks as if the robbery had been perpetrated in the S.S. Company's office.

With all these things happening the Minister feels that all the world is trying to rob the Government and you can easily understand that our position is made harder. Yours very truly,

QUADRO TRISTE E HISTORIA TRISTE

A' saida da 'matinée' de hontem no Municipal, uma pobre mulher com duas creanças, implorava a caridade

Abandonada pelo seductor vê-se agora na miseria

Maria Luiza foi, ao tempo das suas vinte primaveras, uma rapariga encantadora; meiga e cuidadosa, como poucas outra havia na escola onde ensinava o A. B. C. ás creancinhas. Hoje, Maria Luiza é apenas uma triste recordação de factos dolorosos que encerram episodios do mais puro realismo, tendo vivido na miseria para a miseria, explorada pelo seductor: está mais para a morte do que para a vida. Uma desgraçada, emfim.

A' saida da *matinée* do Municipal, descia o publico a grande escadaria do theatro. Uns alegres, fatigados outros, pela audição da mefistofelica partitura do maestro Boito, quando a attenção de um cavalheiro se voltou para uma maltrapilha mulher que abraçava duas creancinhas.

—Uma esmola.

O cavalheiro parou, e tirando do bolso uma prata, deixou-a cair na mão da pedinte, emquanto a senhora, que levava pelo braço, acariciava, ternamente, as duas innocentes creaturinhas, uma das quaes, difficilmente, procurava partir um pão. E a esse par carinhoso outros vieram que souberam comprehender a miseria daquelle quadro, não recusando esmola e caricia.

Ha scenas que se não descrevem! Um grupo de quatro menores desce a escadaria e, ao ver as duas creanças, deixa a pessoa que o seguia e põe-se a brincar, tirando um dos meninos o pão com que estava ás voltas a pobre creancinha. Esta começa a chorar. Havendo intervenção de pessoas, acabaram os quatro meninos por pedir ao papae dois mil réis para dar de esmola.

—Obrigada, disse a maltrapilha.

Um menino ao pobrezinho:

—Está zangado? Não fiz por querer; tirei o pão por brincadeira.

A creancinha abandonou a cabeça negativamente e continuou a torcer o pão, sem conseguir partil-o.

Esvasiára a escadaria e as portas estavam sendo fechadas. Sómente, a maltrapilha e as duas creaturas continuavam ali, no mesmo logar: ella sentada, de cabeça baixa; ellas, brincando sempre, innocentes, fazendo rir aos transeuntes e aos passageiros dos bondes que passavam pela rua Treze de Maio.

Para o reporter, uma scena dessas é sempre um assumpto curioso, attráe-lhe a attenção de um modo bem diverso do publico que elle informa. O reporter dirigiu-se á mulher e indagou se queria ser recolhida a um asylo. Foi a primeira idéa que lhe veiu á cabeça, fazer-se passar por agente de policia, que tem obrigação de olhar por essas coisas.

—Tinha muita vontade de ir para um asylo, mas não posso.

—Por que?

—Não posso. E os meninos? Coitadinhos. São meus filhos.

—Então?

—Tudo isto que o senhor vê, por causa do pae, do meu marido...

—Que fez elle?

—E' um desgraçado.

—Está doente?

—Não, não... O senhor é mesmo da policia?

—Sim, sou da policia.

—Não quer que eu fique aqui com meus filhos, não é?

—Não. Póde ficar.

—Si o senhor garante que não me fará mal algum, direi quem elle é. Chama-se Alberto Gonzalez Cain. E' um miseravel, que me raptou ha dezenove annos, na cidade de Piracicaba, onde eu era professora, obrigando-me a partir com elle para a Hespanha, onde começou a explorar-me. Na Hespanha estive tres annos e dois mezes separada delle. Voltando ao Brasil fui para a Bahia, onde me empreguei como governante em casa de uma familia hespanhola e dahi vim para o Rio de Janeiro. Nunca mais soube de meu raptor. Mandei pedir perdão á minha familia. Veiu procurar-me [illegible] pae, que se suicidou, numa pensão que já não existe, na rua do Lavradio, quando lhe contei que fui atirada áquella vida.

—E depois?

—Depois? Adoeci e fui para a Santa Casa, e dahi para o Hospicio, ficando os meninos aos cuidados de uma rapariga minha conhecida. Saindo do Hospicio, soube que meu marido chegára da Hespanha e que lirára os dois filhos da casa da minha companheira, e que os entregára a um amigo.

— Mas elle é mesmo seu marido?

— Sim, senhor. Casou-se commigo, logo que chegámos á Hespanha; depois de casada, então, é que elle começou a explorar-me.

— E hoje?

— Vivo como o senhor está vendo, com estas duas creanças, vivendo da caridade, passando dias de fome, sem poder educar os filhos.

— E o marido?

— Até hoje não sei se está vivo ou morto. Quando tirou os filhos da casa da minha amiga nem siquer me procurou no hospicio; e depois, uma vez que tive alta, não o vi mais, por ter elle partido para Buenos Aires.

— E os meninos?

— O miseravel acabou por entregal-os á policia, de cujas mãos, a muito custo, consegui recal-os. Fiquei só. Doente, nada mais podia fazer; queria trabalhar, não tinha forças. Sempre [illegible]

Medida absurda e injusta

Ha quem pretenda que o sr. ministro da Fazenda dê ordens absolutamente absurdas e injustas, a proposito do roubo dos 1.400 contos, de que todos os jornaes se têm occupado. Segundo informação que temos, os srs. Jovita Eloy, secretario do sr. Francisco Salles e funccionario do Thesouro, e dr. Maximo Nogueira Penido, presidente da commissão de inquerito que está sendo feito naquella repartição publica são de opinião que sejam apprehendidas as notas roubadas que forem levadas ás repartições federaes, sendo inutilizadas sem indemnização para os portadores.

Parece que, hontem, chegaram ao Thesouro duas dessas notas, uma de 200$ e outra de 100$000, e pensa-se em proceder pela fórma que acima dizemos: as notas serão inutilizadas com um carimbo especial, com a palavra *roubada*, e os portadores perderão essas importancias.

Este facto, seja-nos permittida a rude franqueza, equivale a um roubo que o Thesouro Publico fará a toda a gente, indistinctamente, em represalia de ter sido roubado por um ou mais audaciosos e habilidosos gatunos!

Allega-se que o governo fez publicar, no *Diario Official*, a numeração das notas roubadas, e que isso equivale a ser condemnada a circulação desses papeis. Este argumento é tão absurdo quanto o é a ordem definitiva que se pretende arrancar ao ministro da Fazenda.

O *Diario Official* é folha que só é lida por quem tem obrigação de fazel-o. Mas, ainda que toda a gente o pudesse ler, não bastaria a publicação dos numeros das notas roubadas para dahi se inferir que ellas não podem circular. Toda moeda retirada da circulação, o é depois de publicados annuncios prévios e com prazo largo para o recolhimento. Depois, as notas que foram roubadas não são falsas; foi o proprio Thesouro Publico que as lançou em circulação, fazendo-as sair para pagamentos. Em viagem, desappareceram. E' isso razão para que deixem de circular? Evidentemente não.

Exigir que quem recebe dinheiro ou effectue pagamentos, esteja com o *Diario Official* nas mãos, para fazer o confronto dos numeros das notas, é tão absurdo como tudo o mais que se pretende fazer ou começou já sendo feito. Que culpa têm os homens do commercio ou os simples particulares, de que o Thesouro fosse roubado? Por que impôr a esses commerciantes ou a esses particulares que sejam elles restituir o Thesouro a importancia do roubo?

Infelizmente, as medidas disparatadas não são coisa rara no nosso paiz, e esta que nos referimos é o tanto quanto [illegible] medidas que o dr. Francisco Salles pôr em execução por causa do rou[illegible] e 15 contos, em notas de uma es[illegible] inteiramente nova.

[illegible]unte caso dos 15 contos o governo [illegible] deixar de lançar em circulação a [illegible] estampa, e isso fez acertadamente. [illegible] recusar-se o Thesouro a receber [illegible] de facto valem, notas de es[illegible]mittida, porque certa quantia foi [illegible], é, permitta-se-nos o termo, [illegible]um disparate, mas até uma fla[illegible]ajustiça.

[illegible]uando qualquer dessas notas [illegible], se procure saber de onde foi [illegible] para se apurar quem foi o [illegible] roubo, será um bom serviço; [illegible]izal-a e recusar a devida in[illegible], é um ataque a legitimos di[illegible]reerceiros, é castigar os inno[illegible]s erros dos peccadores.

[illegible]sas em que o sr. ministro da [illegible]arará lucidamente esta que[illegible] se deixará dominar por uma [illegible]absurda.

SUBJECT Newspaper clipping in ré robbery of notes shipped to the south by the Treasury.

FROM RIO DE JANEIRO TO NEW YORK DATE July 15,1912.

In another letter under this cover I have referred to the above matter and I now enclose a newspaper clipping referring to it. From what is said by this paper (the 'Correio da Manhã of today)it would seem that the Government has some idea of refusing to recoghize the notes stolen. All the nimbers had been taken at the time of shipment. If the Government tries to do this it will cause a good deal of trouble and a great deal of opposition. This paper takes the view that such a proceeding by the Government will be most unjust and I think so too. It will be impossible for the people to take careful note of all the money passing through its hands and many innocent people would be the losers if such a measure were carried into operation.

SEALING OF BOXES

July 16th, 1912.

We beg to acknowledge receipt of your cable of July 11th reading as follows:-

"Utmost care must be used all boxes. Make impress seals clear. Two boxes bonds Vasari broken into. Nothing taken."

---

and confirm our reply of July 12th reading:-

"Refer to your telegram of July 11th. Would suggest that use detectives to ascertain where boxes were opened.

We have given our Works instructions to be particularly careful to have the impression of the seals clear and distinct. The opening of these cases, we feel, only goes to prove that there is some one in authority or who has access to wherever these boxes are stored, who is dishonest , and that it would help our case materially to find out who this party is. For this reason we suggested your hiring detectives to look into this matter.

We dare say that if these cases had contained Bank Notes or Postage Stamps part of the contents would have been stolen. Do you think the way we are now wiring and sealing our cases is satisfactory protection against future robberies? We have looked into the matter of using iron cases but find that this would be very expensive.

Cabling Note and Bond Shipments

I have asked you to cable me both the shipments of notes and bonds and you can do this by using the regular code words. For instance, if you wish to advise 4 boxes of notes you can simply cable "ARBIN" and I shall understand. If you wish to cable four boxes of notes and six boxes of bonds, you can cable "ARBINARBAL". If you are shipping bonds and no notes, you can say "ARBALBONDS" and I shall understand, six boxes of bonds.

As you always ship by the Lamport & Holt steamers, it is not necessary to give the name, as I always know here what steamer it is.

By this system you can always give the desired information in one word.

Warren L. Green, Esqre.,
President,

Dear Sir,--

I have to acknowledge the receipt of your letter of July 3d. giving statement of the robbery committed in the Factory of the Brazilian notes. I have read the same with much interest and am pleased to see that every stolen note was recovered. Together with your letter I have also received copies of your letter to the Brazilian Consul in New York and of Louis Mues' letter to you.

As instructed by your former cable, I advised in an official way the Minister of Fihance and was greatly pleased to see him take the stand he took in this regard, as I was very much afraid that this news might have brought some further trouble. As his Secretary stated, as long as the Company has recovered all the stolen notes, there is nothing further to say. It was most fortunate that this matter ended in such a pleasant way.

Up to the present time, it has been impossible to get the Minister to give a final decision in regard to the 5 milreis note robbery. I am, however, hopeful that this question will be definitely settled in the course of this week or early next and to the satisfaction of all concerned.

10 milreis gold note.

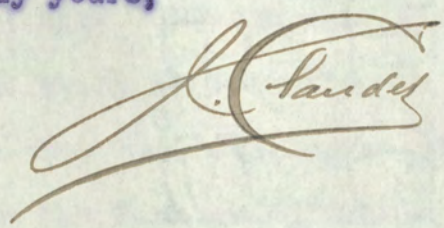

I enclose you herewith 2 of these notes on Miliani's paper.

They have just been put into circulation.

It is quite useless for me to express any opinion, as the note speaks for itself. Our only hope, now that the Government has experimented once more with another concern for their notes, is that the order for the other denominations of this issue will be placed with us, as I understand that the Caixa de Conversão has suffered great disappointment with the Italian notes.

Without anything further of interest, I remain

Very truly yours,

We fully appreciate the fact that you are up against it, and will have to await the pleasure of the Brazilian Government in the settlement of this unpleasant affair ; we hope this may be very soon.

FROM RIO DE JANEIRO TO NEW YORK DATE Aug. 8, 1912.

Part of my telegram today, as per copy enclosed, was devoted to this subject.

This came about through a visit I made to the Caixa de Amortização where they were just examining some of the 5$ notes of the 13th. Estampa and they called my attention to the irregularity in the impressions of the numbers. As this matter was especially treated of in Mr. Claudet's letter to you under date of June 15th. I will make no further comment. As these notes were shipped before you had received that letter it is only natural that the irregularity should still exist in these notes I saw today, but please use the utmost care in this particular for they are exceedingly captious and it is useless to argue with them at this moment. We are obliged to be very scrupulous just now for all depends upon their good will in settling the question we still have pending with the Treasury. The other day they called my attention to some 20$ notes and said that in a number of packages the numbers had run 19, 18, instead of 18, 19. The notes were all right but they evidently thought that you should have detected the error. That the mistake was repeated indicated to them that something was wrong with one of the machines. I enclose a 5$ note which I noticed today in circulation (serie 37, nº. 42816, in which you will notice that the upper number has the two last figures a little bit higher than they should be. These are the things they are kicking against, with or without reason.

Unfortunately we cannot report that we have brought this matter to a finish. However,we now have every reason,after patience having been well nigh exhausted,to believe that all will be settled within several days. We were informed in the Minister's Cabinet that all the documents had gone to the Caixa de Amortização for them to report,before the Minister decided. We went to the Caixa and explained the situation, gave them copies of the papers in the case in order to help matters along and we have all reason to believe that the report will be in our favour. After what we have offered it is difficult to see how they could do anything but accept. We offered to reprint the whole First and Second series,free of charge,and besides this to deduct from our accounts the sum of £ 1,000 stg (equal to the Rs.15,000$000 stolen).This we explicitly stated was not to establish any precedent for the future.

At the Caixa they stated that the first 200,000 notes had all been signed and this costs 6$ per thousand,the employees getting that extra for this service and we had to offer to pay for that,too,so that the Govt. should have no loss in the affair. Mr. Claudet thought it best to offer to reprint the 200,000 notes,when he received the list of possible errors from the Factory,as he felt that it would be better not to expose ourselves to the loss of prestige which would almost certainly ensue if they saw so many mistakes.At the Caixa they told us that the other 500,000 notes have not been examined and were afraid to give a report in our favour,until they could verify and this would take some time. We told them that we would undertake to replace all defective notes and do the right thing by them all through and I think we have practically reached an understanding now. It is bad enough,but might have been worse and at one time looked very black,indeed.

IN RE:- ROBBERY OF BRAZIL 5 MILREIS BANK NOTES.
Shipped per steamer "BYRON" March 5th,1912.

On March 4th we delivered to Messrs. Busk & Daniels, Agents for the Lampolt & Holt Steamship Company, at Pier , Brooklyn, six (6) cases of Bank Notes, Nos.3449 to 3454, marked:-

Thesouro Federal ao Ministerio de Fazenda,
Rio de Janeiro,
Brazil.

On April 11th we had a cable from our Agent in Brazil stating that Bank Note case 3450 had a hole cut in the bottom of tin box and 3000 Notes were stolen. The wood case showed no signs whatever of suspision. The missing numbers of the Notes are 86001 to 87000 and 96001 to 98000 inclusive. Asked how many 5 Milreis Notes we had ready as they contemplated stopping issue.

We immediately took the matter up with Messrs. Busk & Daniels, the Agents of the Steamship Company, suggesting to them that we thought it would be a good idea to put detectives on the case and give us a full report. This they said they would do.

On April 12th we had a cable from our Agent in Brazil saying that later developments showed signs of violation to the outer or wooden case, and that the details were very similar to the previous trouble we had some years ago, and that he was of the impression that it had been done on board the steamer and suggested that we have detectives look into the matter on the Byron's arrival in New York.

On April 12th our Agent wrote us that he was called to the Treasury Department and shown a box of Notes just received from the Custom House, from which 3000 - 5 Milreis Notes had been stolen. The case was numbered 3450 and came by the Steamship Byron which arrived about March 22nd.

The missing Notes were numbered 86001 to 87000 and from 96001 to 98000 inclusive. He explains that the wooden case was apparently all right on casual examination and that the pattent clam ps showed nothing which would invite suspicion. The case had been opened from the top as is usual and after a number of the Notes had been removed from the tin box they saw that a hole had been cut in the bottom. The vacant space in the box had been filled in with paper (sample herewith) also part of a newspaper, which was"The Daily States" of February 10thp1912. This newspaper we looked up and found that there is such a paper in New Orleans.

Our Agent reports that on careful examination of the wooden case they found that the patent clamps had been carefully removed from one end of the bottom and the board lifted up after removing the iron strap far enough to insert a hand, cutting a round jagged hole in the tin and pulling out the notes. This had been noticed at the custom house as the box was marked "Repregada "(renailed), but this was not discovered at first.

To remove the rivet of the patent clamp they had to employ a nail puller or small instrument that left a hole or put a mark over the rivet.

Our Agent says that he thinks everything is all right at the Treasury and that the trouble must have happened on Board the steamer, in the lighter, or in the custom house. He thinks the fact that the American newspaper having been used to fill in the box is an indication that the theft was committed on board the steamer.

He thinks it strange that the thief should have gone to this trouble, as it would have been sufficient for his purpose to have covered up the external evidence. This extra care, he feels, is additional evidence that the affair was done on board the steamer. He says the thieves have not had time to put any of them in circulation as yet and that this issue of Notes has as yet not been put into circulation. He suggests our looking around in New York to see if any of the money brokers had been offered any of these Notes.

He also reminds us that the previous robbery - about two years ago was in a case which went down on the Steamer Tennyson, and thinks that if any of the crew or officers are now on the Byron that it might give a clue.

At that time, however, the box from which notes were taken did not go to the Custom House in the regular way but was sent to a separate warehouse. He also believes that this robbery was done by the same party who committed the other one. He calls our attention to the small amount

taken in both cases, the stuffing up of the vacant space and the careful evidence to cover up any outward signs of the box having been tampered with. He calls our attention to the fact that the patent clamps as used by us cannot be relied upon and suggests that we run wire around the box both ways, sealing the ends. He tells us that he will make another effort to have the Government receive the Notes directly on board the steamer.

(Some time ago they had promised to send out Government officials and receipt for these notes on board the steamer. Apparently this has never been done.)

Our Agent's custom house despatcher who he asked to look into this matter for him, finds that the box was discharged into the custom house on April 6th and went into warehouse No.11. This made it look as if the boxes had been kept on the lighters for about 14 days, but when our agent mentioned this to the Treasury Department they told him that the steamer had discharged the Notes on her return trip from Santos. This, our Agent says, would give them a very short time in the lighters, and he thinks that they may have been deposited in the custom house on the same day they left the steamer. Exact dates regarding all these points could only be found out by consulting with the agents of the steamer and he thought it best not to do anything until we had taken some steps in New York. Our Agent feels that everything points to the robbery having been committed on board the steamer.

On April 16th we wrote Mr. D. Cook of Busk & Daniels giving all of the above details that had already been taken up with him verbally.

Our Mr. Gullett , accompanied by Mr. Wheeler of the Lampolt & Holt Line , with his assistant and two Pinkerton men, went down the bay in a tug and met the steamer Byron. The ship's officers were immediately called to the Captain's room and questioned by the detectives,- the result of which is fully given in their reports,- copies of which are attached hereto.

On April 15th our Agent writes that a manufacturer of paper in Rio had informed him that the wrapping paper used by the thief to fill up the box is made in a factory near Rio , in Tijuca. This, he thinks is a further indication that the robbery was committed after the steamer left New York, and that the paper may have found its way on board with some of the purchases made at Rio by the steamer on her down trip.

On April 30th our agent writes us that the Government authorities naturally insisted that this robbery must have occurred before the box got to the custom house, owing to the fact that these custom house authorities noticed signs of mutilation directly upon their receipt and stamped them with the word "Repregada" (renailed). He says that there is only one other place it could have happened and that was on the lighters, but owing to the fact that they did not remain on these lighters but a very short time it does not seem as though they would have had time to have done a job so thoroughly.

On May 2nd we wrote to our agent in Brazil informing him that we had given a letter of introduction to Captain W. E. Norman of the Byron, who had consented to go with him , if necessary, to the Treasury Department and tell his story in person. We also sent copies of the reports of the Pinkerton men.

On May 6th our agent writes that the Minister had not decided just what he was going to do regarding the matter and that they spoke of making proper arrangements to receive these Notes hereafter. He also informs us that the thieves have put some of the notes into circulation, although the Treasury had not as yet issued any of them.

On May 13th our Agent writes us that when the Verdi arrived on May 8th one of the employes of the Lampolt & Holt Line accompanied the boxes to the custom house. As it was a little late they refused to receive the notes and the cases were left in the care of one of the custom house departments for the night. The following day they were again sent into the custom house and the authorities refused to receive the boxes unless they were marked "Repregada" (renailed), as one or two of the iron straps around the end of the boxes were sprung.

The steamship agents refused to allow this,and they were taken into the custom house under protest and suspicion. After a great deal of trouble our agent got the authorities to accept the cases but they insisted on marking on the boxes the word "Repregada" (renailed), stating that they could not take the responsibility of receiving such packages.

After a great deal of trouble our agent got the authorities to accept the cases but they insisted on marking on the boxes the word "Repregada" (renailed), stating that they could not take the responsibility of receiving such packages.

Our agent then sealed the boxes with his own seal and was called to the Treasury to be present at the opening of the cases, at which time an official record of the proceedings was taken. Everything was then found all right,- the inside boxes being in tact and the seals in prefect order. #

On May 13 th our agent writes that he has arranged with the Ministry so that the next cases of notes arriving shall have special attention,- to be received directly from on board the steamer.

On May 18th our agent writes that the Government has never sent anyone to receive the notes directly from on board the steamer, although after the previous robbery they had promised to do something regarding the receiving of the notes.

He also informs us that the Notes are sent under special care by the steamship company to the custom house to a certain Department where all packages of special value are sent, where they are supposed to have particular vigilance. As our agent had suggested on two or three occasions our wiring and sealing all Brazil boxes, we have given orders to the shipping department to see that this is done.

#On May 25th, our agent writes us that on the 22nd he with two men of the Treasury Department went aboard the Byron to receive the three boxes of notes shipped by this steamer. They went out in one of the Custom House launches and everything was brought ashore in good order. He stated that he had a great deal of difficulty in arranging all this as the Treasury Department wants the notes delivered to them without a ny bother and the custom house also wishes to avoid all trouble in the matter.

He suggests that the most practical method would be to get the steamship company to deliver the boxes to the Department of the customs which does all the police duty connected with the Customs and then have the Treasury Department arrange about taking them away. In this way much time will be spared and a great deal of risk avoided.

On May 25th our agent wrote informing us that he had changed his opinion regarding the robbery having occurred on board the Byron and that he was fully persuaded that the notes had been delivered in good condition by the steamship agents , as they had sent them to the custom house under special care, as is their custom.

The custom house does not give receipts , but a person making a delivery signs a "TERMO" which is a document stating what has been delivered, and in the present case the employe of the steamer's Agents says there was no question raised as to the condition of these boxes. All the same, the box which was robbed appeared on the custom house books as "Repregada" (renailed).

It would be a very easy matter for any one to add this word in the"termo." This he thinks happened, and he feels that this is good evidence that a robbery was apparently planed and carried out in the custom house.

When our Agent asked the steamship Company's agent if the man could go with him to the Minister they said:- "What's the use, we know that this has been as we have told you, but the custom house will simply deny it all. "

The custom house seems to have the whole thing in its own hands and if we tackle the question with all our might and use all arguments we have, we may insult the powers that be. He acknowledges receipt of the Pinkerton men's reports sent him, and says that there seems to be one weak point in the ship's case and that is the fact that the key of the strong room is left hanging in the officers room and not kept locked up.

He also states that the boxes robbed was in the same warehouse of the custom house where the other robbery presumably occurred. He informs us that Captain Norman of the Byron called and offered his services to help straighten matters out.

NOTE:- # These two cases are given to show the method we have been using to guard against any further trouble with our shipments to Brazil, and also gives a good idea of the amount of formalities and red tape which must be gone through with our shipments to be absolutely sure they reach their destination in tact.

At the Caixa de Amortização they have just received the 9 boxes of notes which arrived by the "VERDI" and they were all in good condition except that you did not line the tin boxes inside, with the result that some of the solder ran through and dried on the inside of the tins. From this resulted some scratching of the notes but no particular damage was done. At the same time they strongly recommend that you invariably line the inside of the tin boxes with pasteboard so that the movement of the steamer may not cause any scratching or cutting by the sharp edges of the solder as it is very possible that this may at times cause serious damage to the notes.

Unfortunately we have been again called to the Caixa de Amortização to verify the following mistakes, in the notes of the 9th.Estampa,

Package Nos.	30,001	to	30,500	contained note	No.	35,477
" "	31,001	"	31,500	"	" "	36,477
" "	32,001	"	32,500	"	" "	37,477
" "	33,001	"	33,500	"	" "	38,477
" "	34,001	"	34,500	"	" "	39,477
" "	35,001	"	35,500	"	" "	30,477
" "	36,001	"	36,500	"	" "	31,477
" "	37,001	"	37,500	"	" "	32,477
" "	38,001	"	38,500	"	" "	33,477
" "	39,001	"	39,500	"	" "	34,477

It is worthy of remark that the interchanges are always just 5,000 apart and every one of the misplaced notes was turned down, so that its back and face ran just opposite to the other notes. The matter really ought not to be very serious but it is just one more fault they have to find with us and it has caused them trouble too, in that the misplaced notes are signed out of their place and this makes it necessary for the employees of the Caixa to make explanatory entries on their books. The notes are signed by a number of people and are handed out in the original packages and the books of the Caixa show who signed such and such notes. In the above, for instance, one man signed package 30,001 and another man signed 35,001, so that, before the mistake was noticed, note 35,477 was signed by the first when it ought to have been signed by the second man and vice versa.

They also called our attention to the fact that, in the 8th.series of the same notes they had found several notes interchanged and a number of others misplaced.

Yours very truly,

R. C. Morse

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

No employé of this Company is authorized to vary the foregoing.

SEALING BOXES

August 16, 1912

We beg to acknowledge receipt of yours of July 12th, informing us of the great care now being exercised by the officials in regard to receiving boxes not in perfect condition.

We are very glad to hear this, as we feel this will greatly help matters, and keep down the many robberies that are occurring.

We have asked our Shipping Department to be particularly careful in doing up the Brazil boxes, and in future to see thatall boxes going to Brazil, bear seals, and to make sure these seals are perfect.

Yours very truly,

Asst. Manager Foreign Dept.

Suggestion to use Detectives

August 16, 1912

We have to acknowledge receipt of your letter of, July 15th, informing us that the only secret police in Brazil, are those of the Government, who of course would not be available for our purpose - and as you say, would be of no account if they were.

We have taken this matter up with the Detective Agency in New York, but as yet have not decided just how far we will go into it. We shall let you know as soon as we coms to some decision.

Yours very truly,

Asst. Manager Foreign Dept.

Bank Note Uniform Numbering

August 16, 1912

We have to acknowledge receipt of that part of your cable of August 3rd, reading:

"Refer to letter of J.Claudet June 15th, be very careful as to bank note uniform number."

and have to assure you that we have asked our factory to be very careful in this respect.

Settlement with Government concerning the question about the new 5$ notes

August 16, 1912

We have to acknowledge receipt of your letter of July 15th, on this subject, all of which we have read with a great deal of interest, and fully appreciate your position/

There seems to be nothing further for us to do except to await the pleasure of the Government.

We note what you say regarding the position they take in the matter of the attempt at robbery at our factory, and agree with you that it has not helped things along, but are very glad to hear they did not take it as seriously as we thought they would.

It would seem to us that the robbery you speak of, of the two boxes of notes shipped to the Treasury's Agents in Rio Grande do Sul and Matto Grosso, would help our case, and go a long way to prove that the Five Milreis notes were stolen by some one down there.

With all these things happening, we can easily understand why the Minister should feel rather out of sorts and hard to deal with.

In this connection we have to acknowledge receipt of your letter of July 15th, under heading "robbery of notes shipped to the South by the Treasury", enclosing newspaper clipping.

Yours very truly,

FGH

FROM RIO DE JANEIRO TO NEW YORK DATE Aug.16,1912.

On the 3d. inst. I wrote you recounting what had taken place in this affair and we were confidently awaiting a favourable decision ,when, to our amazement,late in the afternoon of the 14th,inst.,the Chefe de Gabinete of the Ministry of the Treasury informed us that the report from the Caixa de Amortização had been received and had recommended the settlement which we had offered to make but that the Minister had decided not to act on the recommendations made. He was willing to pay for the 200,000 notes which had been signed by the Caixa de Amortização and throw all the rest back on us.None of the notes would be issued and he would then give us an order for 5$ notes on the Rio Branco models,which,by the way,have given great satisfaction,the Minister having shown them to the President. Once more the whole question was gone over with the Chefe de Gabinete,the Minister not being present, and it was pointed out to him that the stand taken by the Minister was most arbitrary and unjust and would throw a very heavy loss on the Company and without any sufficient reason as far as the Government was concerned. We have offered to give the Chefe a note of the cost of the notes still with the Company in an unfinished state,as he said that it would be better to have all the details in hand before saying anything more to the Minister about it. It was for this reason that we sent the telegram as per enclosed copy and when your reply is received will lay the matter before the Minister. At the same time the question of our responsibility for the notes in course of shipment does not seem to be quite clear in their minds and for this reason we asked for copies of the agreement made by Mr. Claudet when he treated with Mr. Campista in 1907. Everything will date back to that inasmuch as subsequent business

took that arrangement as a basis. A concession in price was made when we got the last order, we then agreeing to pay the freight which, up to that time, had been paid by the Brazilian Government. The Govt. now pays the price of the notes as per the Campista agreement with insurance and boxing. The fact that the Govt. pays insurance makes it plain that the risks during shipment are for Brazil's account.

What we have done and offered to do are so pre-eminently fair that no unbiased person could for a moment uphold what the Govt. is now handing out to us. It is a most disreputable stand on the Ministers part and it opens a difficult situation for us, if he persists in being so unreasonable. In the case of a deadlock we shall probably offer to submit the matter to arbitration and I do not think we have anything to fear if the Minister consents to adopt such a course. He is such an extraordinary creature, however, that there is no calculating what he may do next.

SUBJECT Errors in shipments of 5$ notes.

FROM RIO DE JANEIRO TO NEW YORK DATE Aug.16, 1912.

At the Caixa de Amortização they called my attention to some instances of notes misplaced in the 68th. series in which nearly all the packages from 89,000 to 100,000 had 24 and 25 inverted in order and the same was the case with 91 and 92. I do not think they ought to have made so much question about it as they did, but they are very exacting indeed. As the trouble runs on these special figures it may be the result of some slight derangement of some machine and I ask you to correct it if possible, or else they will be after me again.

NUMBERING OF NOTES

August 30, 1912

We have to acknowledge receipt of your letter of August 3rd, calling our attention to the irregularity of the numbers, and as stated to you in our letter answering Mr. Claudet's, we have taken this matter up with the Works and asked them to be more than careful in all future orders.

We note what you say regarding the last two figures not being in line in the number appearing on the $5 specimen that you sent us; and although it does not look good, it is one of those things which it is impossible to correct, owing to the fact that the numbering is done automatically, and if they are going to be so critical on all of our work in the future, it will make it very hard for us. However, we are doing the best we can to avoid all of these irregularities.

This also applies to the numbers to which you refer, in the packages of the $20 notes.

Yours very truly,

Asst.Manager Foreign Dept.

We have to acknowledge receipt of your letterof 3rd August, and note that although this matter has not been settled as yet, you expect it will be very shortly.

We see what you have offered them, and feel there is absolutely nothing more that we can do. In our opinion, they are taking unfair advantage of us, but at the same time we see no way out of it.

We trust we shall soon hear that the matter has been entirely settled.

Yours very truly,

TERMS AND CONDITIONS

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

No employé of this Company is authorized to vary the foregoing.

D. E. Woodhull, Esqre.,

Dear Sir,--

Enclosed I hand you copies of some correspondence concerning the robbery in the Factory, of Brazilian notes. The Brazilian Consul General in New York advised his Government of the occurrence in a way which has caused fresh trouble. The Consul's report arrived at rather a critical moment and his representations are not quite in accord with the facts as supplied to us by the Company. However, I suppose he was misled by the newspaper reports, but all the same, it revived a matter which had been virtually laid to rest.

Yours very truly,

R. C. Irvine

The Director of the Cabinet of the Ministry of Fazenda has to-day loaned us the following communication from the Foreign Department to ask our explanations in the matter.---

Ministerio das Relações exteriores,

19 de Agosto de 1912.

" Tenho a honra de passar ás ~~suas~~ mãos de V. Ex. as copias, inclusas,
" de um officio do Consul Geral do Brazil em Nova York, e seus annexos.
" Por ellas V. Ex. verá, que a 28 de Junho proximo passado foi
" preso pela policia daquella cidade, um empregado impressor da
" American Bank Note Company, por ter furtado cedulas de vinte, cincoenta
" e duzentos mil reis, no valor de 71;160$000, e varios utensilios, para
" a fabricação de notas brazileiras. Essas cedulas como verificou a
" policia da referida cidade, não estavam numeradas nem assignadas.

Ministro de Estado dos Negocios da Fazenda.

Translation.

I have the honour of passing to the hands of Your Excellency the copy of a communication , herewith, from the Brazilian Consul General in New York with his enclosures.

From this Your Excellency will see that the police of that city had arrested a printer of the American Bank Note Company for having stolen notes of various denominations to the value of 71:160$000 and divers uhensils for the manufacture of Brazilian notes. The said notes, as was verified by the police, were not numbered and signed.

Copy of the Brazilian Consul's communication.

New York, 3 de Julho de 1912.

Senhor Ministro

" Tenho a honra de confirmar o telegramma que dirigi a V. Ex.
" no dia 29 de Junho proximo findo, cujo teor é o seguinte :
" " Foi hontem preso um empregado impressor da American Bank
" " Note Company, por ter furtado notas de vinte, de cincoenta e
" " duzentos mil reis, no valor de 71:160$000, e varios uten-
" " silios para fabricar notas brazileiras."
" Incluso remetto a V. Ex. os retalhos do jornal "Evening Sun" desta

"cidade de 28 de Junho, que traz a noticia da descoberta daquella tenta-
" tiva criminosa.
" Logo que tive conhecimento do facto dirigi-me ao Presidente da American
" Bank Note Company, pedindo-lhe esclarecimentos a respeito afim de leval-
" as ao conhecimento de V. E.
" O Presidente da Companhia enviou a este Consulado o Snr. Frank W. Gul-
" lett, Director da Secção Estrangeira daquella Companhia, afim de prestar
" -me as informações pedidas, as quaes são mais ou menos, as mesmas con-
" stantes dos retalhos annexos, accrescendo que além das rigorosas medidas
" da policia interna empregadas naquelle estabelecimento, d'ora em diante
" os operarios seriam obrigados a entrar e a trabalhar nús nas officinas
" de impressão de notas ou moeda papel, e concluio promettendo mandar-me
" dentro de 2 ou 3 dias, informações mais completas por escripto e que con-
" stam da carta que me dirigiu hoje o Presidente da Companhia e cujo
" original tambem remetto com o presente officio.

Ao Exmo. Sr. Dr. Lauro Severiano Muller,
Ministro das Relações Exteriores.

" O Sr. Gullett disse-me que já havia telegraphado ao Vice-Presidente da
" Companhia, que se acha no Rio de Janeiro, explicando-lhe o occorrido para
" que elle o fizesse saber ao nosso Governo, julgando por isso que com
" V. Ex. ou com o Sr. Ministro da Fazenda aquelle Senhor tenha conferido.
" A pergunta que fiz ao Sr. Gullett sobre si já não se teriam dado outros
" roubos semelhantes que não tenham sido descobertos, respondeu-me não
" acreditar que tal se tenha dado porque se teria notado logo a falta das
" folhas furtadas.
"
Circumstancia muito grave para a qual invoco a attenção de V. Ex. é o
" facto de só ter chegado ao conhecimento da direcção daquelle estab-

" policia interna daquelle estabelecimento a quem é confiada a confecção
" da moeda papèl para o Governo do Brazil e para os de muitos outros
" paizes.
" E' facil a numeração das notas e não é difficil a falsificação das as-
" signaturas das mesmas. Isto posto ninguem pode affirmar com absoluta

" certeza que não haja em circulação no Brazil notas falsas das fabricadas
" pela American Bank Note Company.

Translation of the Consul's letter.

" I have the honour of confirming the telegram which I directed to
" Your Excellency on the 29th. of June, as follows,
"Yesterday a printer employed by the A.B.N. Co. was arrested
"for having stolen notes, etc. etc.
" Enclosed I send to Y. E. cuttings from the "Evening Sun" of June 28
" which give the account of that criminal attempt. As soon as I knew
" of this I asked the President of the Company to give me explana-
" tions which I could transmit to Y. E.
" The President of the Company sent to this Consulate Mr. F. W. Gullett
" for that purpose and what he told me is more or less in accordance
" with the clippings herewith and he added that, besides the rigorous
" measures in use by the Company's private police, from now on the
" workmen would be obliged hereafter to enter the shops and do their
" work naked--that is in the shops where the notes are printed and con-
" concluded promising to send me more complete information in a day or
" two and this was done in the letter (enclosed) from the President of
" the Company.
" Mr. Gullett told me that he had already telegraphed to the Vice-Pres-
" ident of the Company, at present in Rio de Janeiro, explaining to him
" the occurrence in order that he might make the facts known to Y.E. or

to the Minister of Fazenda..

" To my question as to whether other robberies may not have been committed
" without yet having been discovered,he replied that he did not think
" that it could have happened because the shortage in the sheets stolen
" would have been noticed at once.
" A very grave circumstance to which I call your attention is the fact
" that the robbery should only have been known to the management of the
" Company after the man had been arrested and the stolen notes recovered
" ahd this speaks very badly for the Company's private police and to this
" Company is confided the manufacture of our paper money and that of
" many other countries. It is very easy to number the notes and forge
" signatures. This being the state of the case no one can affirm with
" absolute certainty that false notes made by the American Bank Note Co.
" are not in circulation in Brazil

Exmo. Sr.

Dr. Francisco Salles,

M. D. Ministro da Fazenda,---

Em referencia ao relatorio do Consul Geral em Nova York sobre o roubo de notas nas officinas da American Bank Note Company e que foi me mostrado, tenho a honra de submetter a V. E. as seguintes considerações ;

Em primeiro lugar, a Companhia nunca fez o menor mysterio em connexão ao caso mas mandou por telegramma ordenando-me informar a V. E. officialmente do occorrido o que fiz em carta datada de 2 de Julho, p.p.

Seria facil esconder todos os factos, mas nesse caso o culpado escaparia sem o castigo que o delicto merece e além disso e' sempre o costume da Companhia proceder leal e francamente para os Governos e particulares a quem serve. Os factos são muito simples.

O empregado impressor que fez o roubo tinha trabalhado nas officinas da Companhia durante uns nove annos e nunca deu provas de máo caracter. E' homem sem grande intelligencia, um simples operario, e o procedimento delle parece mais uma aberração das faculdades mentaes do que qualquer outra coisa, visto que a descoberta era fatal, como elle mesmo reconheceu na confissão por escripto agora nas mãos da Companhia.

De facto o systema de contagem de todas as folhas de papel empregadas no fabrico das notas e' tão rigoroso que e' infallivelmente notada a falta de uma só folha, e no caso actual isto se deu immediatamente e a unica difficuldade foi encontrar-se em acertar qual o empregado culpado, visto que as notas passam por muitas mãos no processo de manufactura.

Tambem foi necessario verificar si quaesquer folhas tinham se desviado com o papel fino que serve para separar as folhas de que as notas são feitas. Tudo isso levou certo tempo mas dentro de poucos dias da occasião do furto tudo foi esclarecido e o criminoso apanhado.

Preciso, porém, chamar a attenção de V. E. a um ponto no relatorio do Sr. Consul-Geral que não e' exacto mas o erro delle e' aliás bastante natural visto que os jornaes, sempre avidos de noticias sensacionaes, allegaram que a Companhia não soube do roubo até que o mesmo foi revelado pela acção da policia. Pela natureza das coisas seria impossivel que a policia soubesse do facto porque o homem nunca tinha offendido contra as leis e não foi suspeito nem observado pelos policiaes. O criminoso não tinha acabado as notas, que ainda precisavam de numeração e assignatura, e não tinha procurado passal-as a terceiros. Nestas circumstancias a policia positivamente não podia descobrir o delicto, ou só no caso de possuir dons de intelligencia verdadeiramente sobre-humanos. O que a policia sabia foi inteiramente por meio de informações emanadas da Companhia.

Emquanto á possibilidade de se acharem em circulação outras notas roubadas, fabricadas pela Companhia, posso assegurar a V. E. que não ha receio disso. Si houvesse taes notas abstrahidas das officinas da Com-

panhia o facto já teria repercutido aqui na Caixa de Amortização e nunca ouvir fallar em uma só nota de se ter apresentado nessas condições.

Todas as notas falsas até agora encontradas foram feitas por processos photographicos e a quem conhece as notas não ha difficuldade em distinguir entre as nossas notas gravadas sobre aço e as imitições dellas

Esse crime vem demonstrar que a vigilancia exercida pela Companhia e' efficaz e o systema de segurança garante os interesses confiados ao seu cuidado. Porém o serviço foi ampliado e outras precauções adoptadas afim de dar ainda mais protecção e tenho toda a certeza que não existe no mundo um estabelecimento congenere que tem alcançado o mesmo gráu de perfeição. O Governo Norte Americano, que mantem relações importantes comnosco, de certo não nos confiava esses negocios si não estivesse certo que o serviço e' conduzido com o maior escrupulo e isso constitue mais uma prova da nossa fidelidade.

Agradecendo a V. E. o ensejo de esclarecer estes pontos,

Subscrevo-me, com toda a estima e consideração,

de V. E.

Crdo. Obrgdo.,

Vice-Presidente da American Bank Note Company.

Translation of a letter to the Minister of Fazenda.

Rio, August 26th., 1912.

In reference to the report made by the Consul General in New York concerning the robbery of notes in the Factory of the American Bank Note Company and which has been shown to me, I have the honour of submitting to Your Excellency the following considerations :--

In the first place, the Company has never made the least mystery in connection with the case but sent me a telegram directing me to inform Your Excellency of the occurrence, which I did in a letter dated July 2nd.

It would be easy to conceal the facts but in that case the culprit would escape without the punishment which the offense merits and besides this it is always the custom of the Company to proceed loyally and frankly towards the Governments and private customers which it serves.

The facts are very simple. The printer who committed the robbery had worked in the Factory for some nine years and had never given proofs of bad character. He is a man without great intelligence, a simple workman, and his proceeding seems more like an aberration of the mental faculties than anything else, seeing that the discovery was certain, as he himself admits in the written confession now in the Company's hands.

In fact, the system of counting all the sheets of paper employed in making the notes is so rigoutous that the shortage of one sheet is infallibly noted and in the present instance this was immediately done, the only difficulty being in encountering the one employee guilty, for the notes pass through many hands in the process of manufacture.

Also it was necessary to verify whether any sheets had gone astra with the tissue paper used to separate the sheets of paper from which the notes are made. All this took some time, but within a few days of the occasion of the robbery everything was cleared up and the criminal caught.

I find it necessary, however, to call Your Excellency's attention to one point in the Consul's report which is not correct, but the error is quite natural in view of the fact that the newspapers, always eager for sensational news, alleged that the Company only knew of the robbery when the same was revealed by the action of the police. In the very nature of things this could not be so as the man had never committed any crime and

was not suspected nor even observed by the police. The criminal had not completed the notes, which still lacked numbering and signing, and he had not attempted to pass them on to other parties. In these circumstances the police positively could not discover the crime, or only in the event of possessing gifts of intelligence verily superhuman. What the police knew was entirely by means of information emanating from the Company.

As to the possibility of there being any other stolen notes, made by the Company, in circulation, I can assure Your Excellency that there is no fear of this. If such a thing had happened it would have made itself felt here in the Caixa de Amortização by this time and I have never heard of as much as one note having been presented here in such circumstances.

All the counterfeit notes which have been met with so far have been made by photographic processes and to anyone who knows anything about notes it is not at all difficult to distinguish between our steel-engraved notes and the imitations.

This crime only goes to show that the vigilance exercised by the Company is efficacious and the system of security guarantees the interests committed to its care. However, the service has been amplified and other precautions adopted in order to give still more protection and I have every certainty that there does not exist in the world a similar establishment which has reached the same degree of perfection. The American Government, which maintains important relations with us would certainly not confide to us such business if it were not certain that the service is conducted with the greatest scruple and this constitutes a still further proof of our fidelity.

Thanking Your Excellency for the opportunity to clear up these points, I am, etc., etc.

COPY

Our controversy with the Minister of Fazenda is in connection with part of an order given to the American Bank Note Company when Dr.Leopoldo Bulhões was Minister. The trouble is with the 5$ notes for which the order was for 3,000,000 at the price of 55 shillings a thousand, the Government also paying for boxing and marine insurance. The Company began shipping the 5$ notes in February and all went well until the arrival of a shipment by the "Byron" which had sailed from New York on the 5th.of March.

When the box numbered 3,450 reached the Caixa de Amortização, in the Secção de Papel Moeda which handles all of this business for the Government, it was discovered that the box had been opened, the inside tin box cut and 3,000 notes stolen. The box had been carefully re-nailed and all signs of the robbery covered up. Whilst I, the Company's Agent, was at once notified of what had taken place and directed to ask the Company, by cable, to suspend the work on the balance of the order--which I at once did--there was no question made at first as to the Company's being in any way responsible for the loss caused by the theft. And in fact the Company could not possibly be held responsible under the contract which it had made. A similar robbery occurred about two years before and the then-Minister never made the least question, and this also establishes a precedent in our favour in the present instance.

After some little delay the Minister decided and published that the numbers of the stolen notes had been noted and that the Government would not recognize them. This raised a storm in the newspapers and some of the Banks also took up the matter and claimed that this procedure on the part of the Government was most unjust as it would be impossible for the public under the system in use in Brazil to watch the numbers on every 5$ note.

The Minister perceived that he had made a false step and was in a quandary when, most unfortunately for us, some mistakes were discovered in the numbering of the first 200,000 notes which were just being gotten ready to put in circulation. The mistakes were really not a serious matter at all and I at once wrote to the Minister and said that the Company would at once reprint any defective notes, my letter being dated April 29th. and on the 14th.of May the Minister replied and said that "inasmuch as, in addition to the errors in the notes, there had been a robbery and it had not been possible to verify where it had taken place" the Government had

decided not to accept the notes, ordering the suspension of the work.

This was the first declaration that he would hold the Company responsible and his attitude has been divided between the defects and the robbery. In his reply you will note that he says that it has been impossible to determine where the robbery occurred and yet, making this admission he puts the whole thing on us. The fact is that he seized upon the pretext which offered itself when the defects were found, to get out of the dilemma which his false step in the stolen notes had put him into before the public.

As Mr. J. Claudet, Vice-President of the Company, was about to set out for Brazil especially to treat of this question, I wrote to the Minister asking him to wait for Mr. Claudet's arrival before a detailed reply should be made. Mr. Claudet arrived on the 8th. of June and ever since that time we have been trying to come to an understanding. After various negotiations we wrote to the Minister on the 26th. of July re-stating our offer and asking for a definite reply. Our offer was to re-print the first 200,000 notes in which the errors had occurred, to allow £ 1,000 stg. to cover the loss by the robbery and moreover to allow £ 80, which represented the expense the Government had incurred in signing the 200,000 notes. In doing this disavowed all responsibility for the robbery and it was doing a good deal more than was really necessary to make anew the 200,000 notes but we did all this in order to cause a feeling of relief in the Treasury departments affected and to avoid all possible friction and irritation. Our offer was really a very generous one and the Government could have gone on and issued the notes without any loss to itself or the public. It was therefore with great surprise that we received word from the Minister that he would not consider the issue of these notes. We then submitted a statement showing that, in that case the Government ought to pay for the work done by the Company on the order and amounting to £ 3,965-12-7 stg. To this he replied that he would pay for the notes already here (700,000) but would not pay for the rest of the notes, in various stages of readiness, in the Company's shops. If we would accept his offer he would give us an order for a new issue, but if we do not, he will not give us any other order and I understand will resist payment of our just claim. The amount he

would pay under the arrangement proposed by him would be £ 1,945-12-7, leaving a loss to the Company of £ 3,100 stg. We wrote again, on the 23d. of August and after pointing out the strength of our case and the heavy sacrifices we had already made, offered to accept his offer if he would give us an order for 15,000,000 notes of 5$ according to the new designs we had submitted, to be supplied during five years. Only to-day we were informally notified of his answer to this to the effect that "he maintained the proposal he had last made." This leaves us apparently at the end of our resources and we do not feel that we can make any further concessions. We have been extremely patient and reasonable in all we have done. Mr. Claudet has been here for three months and the Minister has taken a most arbitrary and unjust stand with us. The only thing left would seem to be to offer to submit the matter to arbitration, but in that case the Minister might cherish a grudge against us and hurt our future business relations with the Brazilian Government. We have served Brazil for a great many years and have never had any such questions as those now forced upon us and we feel, indeed, that our record ought to count for something in our favour. I may say that our first offer, of July 26th. was referred by the Minister to the Section of Papel Moeda of the Caixa de Amortização for a report and it was entirely in our favour. But when the Minister received it he said that he would not act in accordance with its recommendations.

A streak of ill luck has followed this business all the way through and a further complication appeared about the end of June when one of the printers employed by the Company stole a number of unfinished notes of the Brazilian issues. Owing to the Company's perfect system of checking, the matter was immediately detected, the man caught and all the notes recovered. The New York papers distorted the facts and incorrect versions misled the Brazilian Consul, who communicated the affair to the Brazilian Government. In his report he gave the impression that the Company had only known of the robbery when it was discovered by the police. As a matter of fact the police could not possibly have known anything about it except through information proceeding from the Company. The Company communicated with the Consul at the time and cabled to us to re-

port the case officially to the Government, which we did. The Minister did not raise any question at the time, but now, on the Consul's report, he has used the incident to make some pressure in the settlement of our claim.

I enclose a translation of the Consul's letter, which was shown to us, and also a translation of our letter to the Minister of Fazenda in reference to it.

I also enclose statements of the accounts which we presented to the Minister of Fazenda concerning the notes.

SUBJECT 5$ notes of the 14th. Estampa.

FROM RIO DE JANEIRO TO NEW YORK DATE Sept.3,1912.

D. E. Woodhull, Esqre.,

Dear Sir,---

Mr. Claudet cabled in reference to this matter as per copy enclosed and we had been expecting to write you by the "Tennyson" which was to have sailed in a few days,but all at once the arrangement was altered so that there will be no direct steamer until the 16th,inst. We are therefore obliged to send this hurriedly by the English boat to leave to-morrow morning. The telegram and the enclosed copy of a letter prepared in case we resolved to sonsult the American Ambassador in the affair contain about all that is to be said up to the present moment.

Yours very truly,

R. Thorne

COPY

Our controversy with the Minister of Fazenda is in connection with part of an order given to the American Bank Note Company when Dr.Leopoldo Bulhões was Minister. The trouble is with the 5$ notes for which the orde was for 3,000,000 at the price of 55 shillings a thousand, the Government also paying for boxing and marine insurance. The Company began shipping the 5$ notes in February and all went well until the arrival of a shipmen by the "Byron" which had sailed from New York on the 5th.of March.

When the box numbered 3,450 reached the Caixa de Amortização, in the Secção de Papel Moeda which handles all of this business for the Government, it was discovered that the box had been opened, the inside tin box cut and 3,000 notes stolen. The box had been carefully re-nailed and all signs of the robbery covered up. Whilst I, the Company's Agent, was at once notified of what had taken place and directed to ask the Company, by cable, to suspend the work on the balance of the order--which I at once did--there was no question made at first as to the Company's being in any way responsible for the loss caused by the theft. And in fact the Company could not possibly be held responsible under the contract which it had made. A similar robbery occurred about two years before and the then-Minister never made the least question, and this also establishes a precedent in our favour in the present instance.

After some little delay the Minister decided and published that the numbers of the stolen notes had been noted and that the Government would not recognize them. This raised a storm in the newspapers and some of the Banks also took up the matter and claimed that this procedure on the part of the Government was most unjust as it would be impossible for the public under the system in use in Brazil to watch the numbers on every 5$ note.

The Minister perceived that he had made a false step and was in a quandary when, most unfortunately for us, some mistakes were discovered in the numbering of the first 200,000 notes which were just being gotten ready to put in circulation. The mistakes were really not a serious matter at all and I at once wrote to the Minister and said that the Company would at once reprint any defective notes, my letter being dated April 29th. and on the 14th.of May the Minister replied and said that "inasmuch as, in addition to the errors in the notes, there had been a robbery and it had not been possible to verify where it had taken place" the Government had

decided not to accept the notes, ordering the suspension of the work.

This was the first declaration that he would hold the Company responsible and his attitude has been divided between the defects and the robbery. In his reply you will note that he says that it has been impossible to determine where the robbery occurred and yet, making this admission he puts the whole thing on us. The fact is that he seized upon the pretext which offered itself when the defects were found, to get out of the dilemma which his false step in the stolen notes had put him into before the public.

As Mr. J. Claudet, Vice-President of the Company, was about to set out for Brazil especially to treat of this question, I wrote to the Minister asking him to wait for Mr. Claudet's arrival before a detailed reply should be made. Mr. Claudet arrived on the 8th. of June and ever since that time we have been trying to come to an understanding. After various negotiations we wrote to the Minister on the 26th. of July re-stating our offer and asking for a definite reply. Our offer was to re-print the first 200,000 notes in which the errors had occurred, to allow £ 1,000 stg. to cover the loss by the robbery and moreover to allow £ 80, which represented the expense the Government had incurred in signing the 200,000 notes. In doing this disavowed all responsibility for the robbery and it was doing a good deal more than was really necessary to make anew the 200,000 notes but we did all this in order to cause a feeling of relief in the Treasury departments affected and to ~~cause~~ avoid all possible friction and irritation. Our offer was really a very generous one and the Government could have gone on and issued the notes without any loss to itself or the public. It was therefore with great surprise that we received word from the Minister that he would not consider the issue of these notes. We then submitted a statement showing that, in that case the Government ought to pay for the work done by the Company on the order and amounting to £ 3,965-12-7 stg. To this he replied that he would pay for the notes already here (700,000) but would not pay for the rest of the notes, in various stages of readiness, in the Company's shops. If we would accept his offer he would give us an order for a new issue, but if we do not, he will not give us any other orders and I understand will resist payment of our just claim. The amount he ~~is~~

would pay under the arrangement proposed by him would be £ 1,945-12-7, leaving a loss to the Company of £ 3,100 stg. We wrote again, on the 23d. of August and after pointing out the strength of our case and the heavy sacrifices we had already made, offered to accept his offer if he would give us an order for 15,000,000 notes of 5$ according to the new designs we had submitted, to be supplied during five years. Only to-day we were informally notified of his answer to this to the effect that "he maintained the proposal he had last made." 5 MILREIS NOTES.

Sept.5th,1912.

We have to acknowledge receipt of Mr. Claudet's cable of September 2nd and confirm ours of Sept. 3rd, as per copies herewith.

In talking this matter over with our Mr. Woodhull we find that he does not like the idea of our paying for this robbery and he feels it is particularly unfair to us to have to do so if they have decided not to issue these Notes.

We feel that if they are not going to issue these Notes they will accept our proposition as made to you in our cable of September 3rd, that is, to cancel the entire order for these 5 milreis notes, making no charge either for the work done on the notes completed and delivered or on those we still have in our Works unfinished.

We hope you may be able to arrange this matter in this way.

Yours very truly,

GENERAL SALES MANAGER

Rio de Janeiro, Sept. 7. 1912

My dear Mr. Woodhull:-

Only a few personal lines to give you a general outline of the situation which is anything, but pleasant.

Last Monday, Sept. 2d, I telegraphed the Company putting before them, the only settlement that the Minister would agree to and that is:

to pay for the 700 000 notes already delivered, cancel the balance of the order or 2.300000. notes, and place a new order for the Rio Branco model.

The sending of this cable was after my letter of Aug. 23. to the Minister in which I placed before him a proposition that I understood would be final and acceptable to him, the only thing to be finally decided upon being the quantity of the notes he should order of the new model.

To my cable, I duly received your answer which gave me the full latitude to settle on that basis and to even go further, if necessary, by cancelling the whole original order providing that we could proceed with the engravings and the printing off the new order at once.

The same day that your cable came, Sept. 4., I received a final written offer of the minister as follows:

1st That he would pay for the 700000 notes delivered and cancel the balance of the order, 2.300000. notes

2d Or that he would not pay for notes already received, nor recognize any part of the original order and would place a new order for 3.000.000. of the Rio Branco model.

Although I have your authority to close on that basis, this proposition of the minister being so totally in disaccord with the verbal agreement he made at our interview, I decided that I would not answer his communication for a few days, until I had tried a new tactic in order to better the Company's position in the future, as under the present administration, which will last another two years

I do not consider very bright. In case however I should fail in this, I will have recourse and accept the Govt. proposition against my will and great disgust.

I must state however that the treatment we have received from the P. O. officials has been very different. As you may have noticed by the various orders, all the pending business in that dept. has been closed including the new stock list of postal supplies that we have to carry on hand.

As I have been requested, as soon as I am finished here, I will proceed to Uruguay and Argentina, spending about three weeks all told in the two countries.

With kindest regards and regrets that I could not secure a better settlement, I remain,

Very sincerely yours

J. Sandel

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

D. E. Woodhull, Esqre.,

Vice-President of the American Bank Note Company,

Dear Sir,---

I confirm receipt of the Company's cable of Sept.3 as per copy herewith and also my answer of the 13th.inst.

Although I have your full authority to settle if necessary, on the basis of cancelling the total order of 3,000,000 notes, providing a new order for the Rio Branco model is decided upon at once, I feel that the arbitrary position taken by the Minister is so unjust that I will try once more if it is possible to better this settlement. Since I have already spent over three months on this matter it is not a question of a week or so more that will make any difference, especially if I succeed in bettering our position.

Without anything further of interest,

Believe me sincerely yours,

The
American Bank Note Company,

Dear Sirs,---

(MISCELLANEOUS)

I have your favours of the 12th., 16th, 19th. and 20th.ulto. signed by Mr. Gullett.

I duly received after some delay your cable advising me of the price of £ 3,100 for the balance of the 5$ notes, in process of manufacture. I can easily understand that it was quite a job for the cost Department to figure out and hence the reason for the delay in cabling.

With your letter of Aug.12th. I received copy of Hale & Co's report to you on the Uruguay business. I will look into this matter as soon as I get there, which I hope will not be very long now.

Together with your letter of the 19th. came copies of all the correspondence exchanged between myself, the Company and the Brazilian Government for the year 1907 on the bank note business.

Yours very truly,

ERRORS IN NOTES - PACKAGES OF 5$ and 10$ NOTES.

Sept.20th,1912.

We have to acknowledge receipt of your two letters of August 10th and 16th on this subject, and can only explain it by saying that it was an error of our employees in handling these notes and getting them ready for cutting.

We have gone into the matter very carefully and do not think that it will occur again. We are very sorry that under the present conditions there are so many causes for complaint, and can assure you that we are doing everything possible to overcome these errors.

Yours very truly,

5$ NOTES.

Sept. 20th, 1912.

We have to acknowledge receipt of yours of August 16th, and have ready very carefully what you have to say regarding the matter of trying to settle this affair.

With reference to the question as to who was responsible for the Notes in the course of shipment, would say that we have taken this matter up with the Insurance Company and they state that since we insure the goods for the account of our customer it would seem that they would be the parties responsible.

The matter of our paying the freight , as you know, was only a reduction in the price and in making this reduction we did not mean to assume the responsibility of the safe delivery of these shipments.

We trust we may soon hear that you have at last settled this affair.

Yours very truly,

BANK NOTES

Oct. 2nd, 1912.

I am in receipt of your letters of September 3rd, enclosing copies of correspondence concerning the robbery of the Brazil Notes which occurred in our Plant.

Your letter to the Minister of Fazenda puts the matter very fairly and justly, and as this gentleman was immediately advised of the theft I do not see how he can make any capital out of this affair.

I am sorry that you think it may be advisable to consult the American Ambassador on this matter, as I am afraid this resort to diplomacy might injure our future business with the Government, but know of course you would not do this except as a last resource, and leave the matter in your hands.

Yours very truly,

CABLEGRAMS FOR TRANSMISSION BY COMMERCIAL, COMMERCIAL PACIFIC, GERMAN ATLANTIC, HALIFAX & BERMUDAS, DIRECT WEST INDIA, NEWFOUNDLAND AND COMMERCIAL OF CUBA CABLES ARE ACCEPTED AT ALL POSTAL TELEGRAPH AND CANADIAN PACIFIC RAILWAY TELEGRAPH OFFICES.

TERMS AND CONDITIONS

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

My dear Mr. Woodhull,

I confirm receipt of your cable of Oct.2 and my two cables of the 2nd.and 10th.inst.,as per copies herewith.

I had expected long before this to have this matter settled but as I see that it might drag along for two or three more weeks in order to save time,I thought best to decide to go to Buenos Aires October 14th.,where I expect to remain two or three weeks.

I might say,however,that the matter is in pretty good hands and Mr. Irvine will watch it and keep me informed,by cable in case something should happen during my absence. We might have settled it on the basis of cancelling the old order and take a 3,000,000 note order for the new models,but considering the great sacrifice that we have to make and desirous of taking care of the future, which does not look very bright at present,I want to see if it is not possible to better the conditions.

I expect to return to New York on the "Voltaire",leaving Rio the 16th.of November unless something unexpected should turn up in the meantime,in which case I will cable you. It has been the most trying situation and I hope we shall never have to face the like again.

Yours faithfully,

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

No employé of this Company is authorized to vary the foregoing.

FROM RIO DE JANEIRO TO NEW YORK DATE Oct.16,1912.

I was ~~m~~alled to the Caixa de Amortização to-day to see the last notes which arrived.

In the following packages the numbers were interchanged,

Note No.	38,088	was	in	the	packet,	33,001-500
	39,088	"	"	"	"	34,001-500
	36,088	"	"	"	"	31,001-500
	37,088	"	"	"	"	32,001-500

These were the notes which came by the "Voltaire" and I have just noticed that the letter of advice is dated April 19, instead of Sept.19.

They also showed me a note out of one of the packages on the back of which was an ugly purple stain and they said that there are others. I am trying to get one of these notes to send you but it is hardly likely that I can get it off by this mail.

All of the interchanged notes were turned face down in the packages, as was the case once before, when I reported a similar series of errors.

FROM Rio de Janeiro TO New York

SUBJECT Interchanged Notes.

FROM RIO DE JANEIRO TO NEW YORK DATE Oct.29,1912.

Referring to my previous letters of Oct.16 & 25th, in this connection I would say that the Caixa dde Amortização has given me the following data in regard to the last irregularities,--

10$ notes, serie 12a.

Note nº 154 was in package nº 501-1000 and vice versa.
" "3154 " " " " 6001-6500 " " "
" "6154 " " " " 6500-7000 " " "

20$ notes,--serie 11a.

Note Nº55842 was in package 52501-53000 and vice versa.

In every case it was an interchange with a corresponding note of the other package and the notes wrong were always turned face down in the package. This seems to be some vagary of the machines and they are very much annoyed at the Caixa de Amortização as it generally happens that the respective parcels are signed by different people before the error is discovered and this causes much confusion and many explanatory entries on the books of the Department.

Yours very truly,

Robbery in the Company's Factory

Nov. 7, 1912

We have to acknowledge receipt of your letter of 27th September, and note carefully what you say.

We do not feel there is anything further to be said on this matter, than has already been said in Mr. Green's letters to Mr. Claudet, and the Brazil Consul in New York.

It would seem to us that Brazil officials are more ready to believe the reports of the newspapers, than our own. As you know, the first report sent by the New York Consul was taken from the newspapers.

We hope that you may be able to convince the Government that their work is in most reliable and experienced hands, and that their interests are ours.

$10 Notes Interchanged in packages

Nov. 7, 1912

We have to acknowledge receipt of your letter of Oct. 16th, giving us numbers that were interchanged in the different packages of these notes.

Although we have tried very hard to eliminate this error, we do not seem to have had much success. For some time past, however, we have been keeping records, so that we are now able to tell just which one of our employees handled these particular notes; and as soon as we find more than one mistake on any em - ployee, he is immediately dismissed from our service.

By this you will see that we are taking every possible precaution to prevent just such errors as this.

The purple stain which you speak of, appearing on the back of some of these notes, we are unable to explain, and should very much like to see one of the notes.

We trust that with this explanation you may be able to pacify the Brazil officials. We are confident that with this close scrutiny, we shall soon succeed in eliminating these errors.

Yours very truly,

TERMS AND CONDITIONS

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

No employé of this Company is authorized to vary the foregoing.

FROM RIO DE JANEIRO TO NEW YORK DATE Nov.9,1912.

I am glad to confirm my cable of this date in reference to this business, which has been at last settled. We had hoped to obtain a goodsized order by way of compensation but this has not yet been realized, although we still have hopes of something by the end of the year. The Government pays for the 700,000 notes of the 14th. Estampa which you shipped and we have to lose the 2,300,000 notes remaining. The need for the new notes is rather pressing and for that reason we cabled you to begin work on the vignette of Rio Branco. We have the Government's official order in this affair and Mr. Claudet will take it, the models which were approved and the rejected ones also when he sails, which he expects to do by the S. S. "Voltaire" to sail for New York on the 16th. inst. He will also understand with you about several matters of detail, such as the proper placing of the numbers, Estampa, etc. I enclose you copies of Mr. Claudet's letter to the Minister and his reply.

Five Milreis Notes

Nov. 12, 1912

We have to acknowledge receipt of your cable of November 8th' and we are indeed glad to know that this matter has at last been settled; also that you have succeeded in gaining their confidence to the extent of getting a new order for these notes. We appreciate the fact that you have been up against it, and it is very gratifying to us to know that this disagreeable affair has been so satis - factorily settled; and that we are to continue to be favored with their valuable patronage.

As we did not know which model you referred to, and there being two sizes of the vignette of Rio Branco on our models, we cabled you on Nov. 9th, and are in receipt of Mr. Claudet's cable of Nov. 11th, informing us that the portrait was to be engraved of the size as appeared on the models with one vignette on face. We have now started the engraving of this portrait, and expect to be well along by the time Mr. Claudet arrives.

We enclose copies of cables referred to, herewith.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting Telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the sending of the message.

TERMS AND CONDITIONS

The Commercial Cable Company may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

No employé of this Company is authorized to vary the foregoing.

CABLEGRAMS FOR TRANSMISSION BY COMMERCIAL, COMMERCIAL PACIFIC, GERMAN ATLANTIC, HALIFAX & BERMUDAS, DIRECT WEST INDIA, NEWFOUNDLAND AND COMMERCIAL OF CUBA CABLES ARE ACCEPTED AT ALL POSTAL TELEGRAPH AND CANADIAN PACIFIC RAILWAY TELEGRAPH OFFICES.

TERMS AND CONDITIONS.

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this Company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or deliverv, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or of acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is delivered by request of the sender under the conditions named above.

Miscellaneous

Jan. 7, 1913

We have to acknowledge receipt of your letter of Nov. 28th, and have noted very carefully all you have to say regarding these different mat - ters.

As to continuing our Advertisement in the Brazilian Review, we have to say that Mr. Claudet will write you direct.

We see that you have been working on the matter of additional notes, but without any definite result. In this connection we also acknowledge re - ceipt of your ~~cable~~ letter of Dec. 16th, telling us that you have not been able to get the Caixa to, ask the Minister for a new order, and that you are keeping after them. We sincerely hope that you will be successful, and that we shall soon hear that you have obtained an order for additional notes.

Dear Sir:-

While in Brazil I arranged to present to some of the officials framed engravings of the portrait of Rio Branco, which we are now engraving for the new five milreis Note.

Will you therefore have six proofs made on India paper, leaving plenty of margin, and have them put in suitable frames.

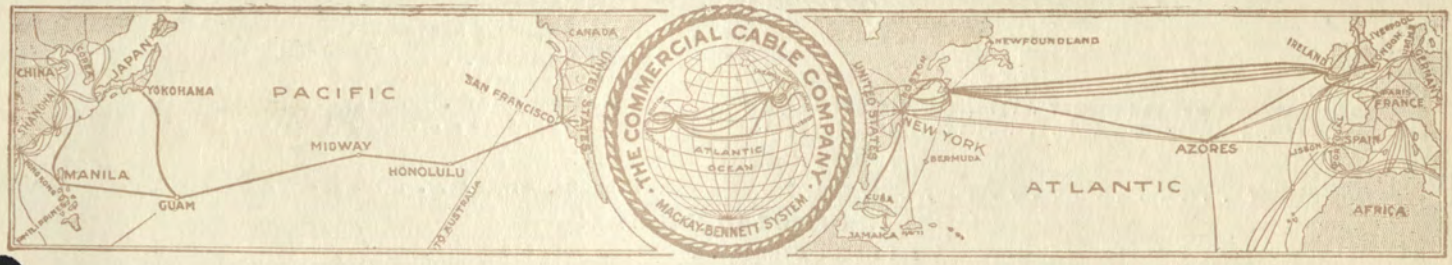

As I would like to have the name of the American Bank Note Company appear, I would suggest, if you agree with me, that these be put in a mat,- printing at the bottom:- "Engraved by the American Bank Note Company, New York." This is only a suggestion on my part.

SUBJECT Defaced 10$ Notes.

FROM RIO DE JANEIRO TO NEW YORK DATE Jany.30,1913.

FROM
Rio de Janeiro
TO
New York

I confirm my cable of today as per enclosed copy.
In the notes of the 20th.Series, they found five notes, numbered 68,145,9062,9551 and9746, all of which had been crossed on the face with a heavy lead pencil mark. The notes were marked as per slip herewith and the pencilling was quite as thick as that I have made with a blue pencil.The marks were with a black, or nearly black pencil--it looked to me like the marks made by indelible pencils. I am at a complete loss to explain how this could have happened. I thought it might be due to the persons' checking the notes making a mark to call attention to the fact that there was a defect and that the notes ought to be thrown out, but I could see no reason for this as I noted no defects in the notes I saw--three of them.

It may be that some malicious employee of the Company wishes to cause trouble somewhere.

Ten Milreis Notes marked with pencil

Feb. 7, 1913

We have to acknowledge receipt of your cable of Jan.30th, (copy enclosed) informing us that some 10 Milreis notes had been received, marked across the face with a heavy pencil.

On taking this up with our Works, we find that on sheets of notes where there are some spoiled, they are in the habit of marking the sheet in such a way that the good notes can be taken off and finished up. There seems to have been some mishap in marking these sheets and through carelessness of some one in the Finishing Department, they were overlooked. We trust there have not been many of them delivered in this way.

We might suggest that it would not be a difficult matter to erase these pencil marks without in any way affecting the appearance of the note.

We are anxiously awaiting your letter giving us the full details.

Yours very truly,

Asst.Manager Foreign Dept.

Dear Sir:-

DEFACED 10 MILREIS NOTES

Supplementing the complaint made by cable from our Agent in Brazil, we are this day in receipt of a letter from him dated January 30th, reading:-

In connection with this I beg to enclose herewith a piece of paper on which our Agent shows a pencil mark as theysame appeared on the defaced notes.

As you will noteit is hard for him to see how such Notes should have escaped examination, and I feel the same about it. Kindly look into this matter, and oblige,

FIVE MILREIS RIO BRANCO VIGNETTE.

February 21st, 1913.

We are sending you to-day by registered mail, in two packages, six framed vignettes of Rio Branco, which is to appear on the five milreis Bank Note that we are preparing at present for the Treasury Department. I think it would be well to distribute these framed vignettes as follows:-

one for your office
one for the Director Geral dos Correios
one for the Minister of Public Works
one for the Caixa de Amortizacão
one for the Minister of Finance
one for the Minister of Foreign Affairs.

You will recollect this is one of the suggestions that I made to you while I was in Rio and you thought well of it. As you will note it certainly makes a very handsome picture.

Trusting they will reach you in good order, I remain,

Dear Sir:-

BRAZIL 10 MILREIS NOTES

I beg to acknowledge receipt of your letter of the 20th inst. together with copy of cable from Mr.Irvine.

This has happened by our trying to save some of the notes on sheets that are partly spoiled, the spoiled notes on the sheet or strip having been marked with a "X". These should have been taken out and good notes substituted, but some of the spoiled notes have gone through. I trust there are not many of them.

I have decided that in the future we shall not try to save single notes on sheets but only use strips containing good notes. By this we should prevent the re-occurrence of such carelessness.

Very truly yours,

CABLEGRAMS FOR TRANSMISSION BY COMMERCIAL, COMMERCIAL PACIFIC, GERMAN ATLANTIC, HALIFAX & BERMUDAS, DIRECT WEST INDIA, NEWFOUNDLAND AND COMMERCIAL OF CUBA CABLES ARE ACCEPTED AT ALL POSTAL TELEGRAPH AND CANADIAN PACIFIC RAILWAY TELEGRAPH OFFICES.

TERMS AND CONDITIONS

The Commercial Cable Company may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is transmitted and delivered by request of the sender under the conditions named above.

No employé of this Company is authorized to vary the foregoing.

SUBJECT Order for 3,200,000 Notes.

FROM Rio de Janeiro TO New York

FROM RIO DE JANEIRO TO NEW YORK DATE Feby.27,1913.

The order for which I have been working for so long has at last been given to me and I hand you herewith the proper document duly signed by the Minister. It is dated Feby.25th.and calls for

2,000,000	of 10$	Estampa	12,	series	31 to 50
1,000,000	" 20$	"	13,	"	21 " 30
100,000	"200$	"	12,	"	4.
100,000	"500$	"	10	"	2.

I have not checked up the Estampas and Series to see if they are all right, but I have no doubt they are. In my letter of Jany.15 I said 100,000 notes of 100$ instead of 200$. I asked them at the Caixa de Amortisação and they said that the order is all right as above. I cabled this order yesterday, as soon as I had the papers, and enclose a copy of my telegram herewith. At the same time I asked for information as to when you can begin shipping the 5$ notes. They are now asking about this and I await your reply so that I can tell them.

Mr. Claudet asked me to cable whenever Salles left the Ministry and for that reason I included in my telegram that I had reliable information that he would go out within a few days. This information was volunteered by Jovita, the Director of the Cabinet of the Ministry of Fazenda, and coming from such a source I cannot doubt that it is correct. He is no friend of ours--that is clear enough and I shall be glad when he is gone. What brought out Jovita's information was that he told me that the Minister when confronted with the necessity of a new order of notes wanted to make a new issue, but Jovita finally persuaded him that it would take many months, so he gave it up. I was much surprised and asked Jovita why in the world he wanted to change and he said there was no reason whatever, except that the Minister wanted to make the change. What I suppose is that he wanted to bring out new Estampas as a kind of monument to his administration as Minister--sheer vanity. Yours very truly,

We are in receipt of your cable of February 26th and have entered order for Bank Notes as follows:-

2,000,000	Notes	of	10 Milreis
1,000,000	"	"	20 "
100,000	"	"	100 "
100,000	"	"	500 "

We are making the Estampa on these Notes the same as before and of course are continuing the Series and the numbers.

This is very good work and we were indeed glad to get this order.

We are taking up the question of delivery of the new 5 Milreis Notes and will cable you shortly regarding the same. We have had an accident in the engraving of this,- which has delayed the work considerably. However, you can be sure we will exert our best efforts to ship as soon as possible.

We are very glad to note that in all probability the Minister of the Treasury will resign.

FROM RIO DE JANEIRO TO NEW YORK DATE Feby.28,1913.

The Caixa de Amortisação sent for me yesterday to show me that you sent duplicate notes of the number 79114 in series 23. One of these notes was found in its right place in the package and the other one was next to 79141. As there is a similarity in these two numbers ~~XXX~~ this circumstance may throw some light upon the cause of the mistake

Always heretofore where there have been duplicates there has been another number short, but this is not so in the present instance so that there is an excess of one note which will have to be destroyed by the Caixa with much fuss and ceremony. I especially asked them to verify if number 79141 was missing and they showed it to me in its proper place in the parcel.

DEFACED 10 MILREIS NOTES

March 4th, 1913.

With reference to your cable regarding the defaced 10 Milreis Notes which had been discovered at the Caixa de Conversion, and also with regard to your letter on this subject, I beg to give you herewith transcript of a letter received from our Works, which is self-explanatory:-

> "I beg to acknowledge receipt of your letter of the 20th inst. together with copy of cable from Mr. Irvine. This has happened by our trying to save some of the notes on sheets that are partly spoiled. The spoiled notes on the sheet or strip having been marked with an "X". These should have been taken out and good notes substituted, but some of the spoiled notes have gone through. I trust there are not many of them. I have decided that in the future we shall not try to save single notes on sheets but only use strips containing good notes. By this we should prevent the re-occurrence of such carelessness."

TREASURY NOTES

March 27th,1913.

We are in receipt of your letter of February 27th, enclosing official order dated February 25th calling for Treasury Notes as follows:-

2,000,000 - 10$	Estampa	12	Series	31-50
1,000,000 - 20$	"	13	"	21-30
100,000 -200$	"	12	"	4
100,000 -500$	"	10	"	2

If you will refer to your cable of February 26th, calling for these Notes, and our acknowledgment of the same dated February 28th, you will note that you order 100,000 - 100$ and not 200$ Notes as stated in the official order. In your letter of February 27th you state that your previous letter regarding these Notes called for those of 100$, but that you took this point up with them and that 200$ is correct. We call your attention to this fact because we judge from your letter that you were under the impression that your cable of the 26th of February called for Notes of the correct denomination, whereas it read:- 100,000 - 100$. The copy of this cable which you state you enclosed has not been received by us up to date.

The Estampas and Series check up correctly and we are following this official order exactly. Luckily no work had been commenced on the 100$ Notes, although the new printing plates had been prepared; these we will now hold on hand for future orders of this denomination.

Mistake in numbering 10$ Notes

April 3, 1913

We have to acknowledge receipt of your letter of February 28th, on this subject, and find upon going into the matter that, according to our count, there was one note too many packed in this shipment; an error having been made on note 79114, and known by two different people in our Finishing Department. They each took it upon themselves to have another one numbered, and without consulting, placed these notes in what they thought was the right place; one having been put in its proper place, while the other was transposed by the party putting it in as 79141, and without looking any further than to find the proper place for this number, stuck the note in.

This information is of course strictly confidential, and only for your own knowledge; and we should say that unless it is again brought up, perhaps it would be better to forget it. We are of course very sorry the error has occurred, but feel assured that you can settle this disagreeable matter to our mutual satisfaction.

Dear Sir:-

REPUBLIC BRAZIL

I beg to acknowledge receipt of yours of March 27th and 31st in regard to over-issue of $10. Note and shortage of one hundred post cards.

I find, in looking into the Note question, that the make-up was duplicated and, so far as I can learn, was not correctly counted, therefore the delivery was made one note over. This is most serious and I have arranged to have another count put on this work, which I trust will avoid another error of this kind.

In the case of shortage of post cards I cannot account for as our accounts balance. We have given a thorough search to see if it were possible the one hundred cards were anywhere around the room where this work is put up, but we have not been successful in finding them.

Very truly yours,

A. C. Camp

Vice President.

Rio, April 4, 1913.

My dear Mr. Claudet,--- — Bank Note —

The Parsons Trading Company sent me a copy of a letter they had written to Mr. O. Minnich of this City in answer to an inquiry about some ink suitable for printing bank notes. I went to Mr. Minnich to see about this, supposing that it had something to do with the Casa da Moeda, remembering what had taken place in this connection with Messrs. Hermanny and concerning which I wrote to the Company. Mr. Minnich told me, however, that it had nothing whatever to do with that business but they wanted the ink for some new machines they had gotten out from Europe to do artistic work in connection with their own business.

Mr. Minnich knew who I am and talked pretty freely and said that the order for the Govt. bonds done in Leipzig went through him and that he had arranged that business through a great friend of the then-Minister, Murtinho, and that this friend was one Chaves, whom I do not know. He knew all about the last bonds of ours--the ones the Govt. cannot use. From what he tells me, the Govt. will try to get those plates from Leipzig and print them here. He says, though, that it will be no go as the Casa da Moeda will not be able to make the proper transfers. He tells me that they are unable to make the transfers properly for the engravings done by the Austrian engraver, recently engaged. Also the Casa da Moeda tried to do some work on stamps, using a vignette of the Barão do Rio Branco. Meanwhile our postage stamps with the Rio Branco vignette came out and the Casa da Moeda saw at once the inferior appearance of their work in comparison with ours and apparently the particular work in question will probably be dropped. Mr. Minnich showed conclusively that he knows well what has been going on for some years past in our line of work with the Govt. and also commented very adversely on the recent Italian notes. He told me that that order was arranged by the Italian Minister who brought very strong pressure to bear upon the Braz-

ilian Govt. He knows full well, too, how little pleased the Govt. is over that job. Mr. Minnich told me quite freely that no one anywhere could compete with us in the quality of work in this line and he says that the new Director of the Casa da Moeda will find out, if he keeps on long enough that this is the case. He confirms what Valle told me a good while ago that the old Director, Dr. Pedro Luis, was strongly in favour of making some kind of an arrangement with us to take over the work of the Casa da Moeda, barring, of course, the coining part of its operations.

I transmit the above as being of possible interest and send it to you as you know all the circumstances, having been on the ground so many times.

Yours very truly,

H. L. Evans

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting Telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any oth Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the sending of the message.

small shipment 5 Milreis
banknotes April 19th."

We are sorry we cannot promise you a larger delivery of these notes, but as we have had trouble from the very start on this order with both the dies and plates, we are unable to do better. We trust this small shipment will help the Government out for the present, and will try to make a nice large shipment by the next steamer.

Error in Cable - Bank Notes

May 9th, 1913.

We have to acknowledge receipt of your letter of April 15th, in which you quoted our cable of the 14th and we call your attention to the latter part of the second code word, which apparently came to you as "Jedix", while it should have been "Wedix", meaning "small". By this you will see our cable referred only to a shipment of their 5 Milreis Notes and not to the Envelopes in any way.

We, however, have the copy of your letter to the Director Geral do Carreio informing him that the Envelopes will be made in accordance with his instructions. This is, of course, true, but as stated before, we did not intend this cable to refer to the Envelopes in any way. However, no harm is done.

FROM RIO DE JANEIRO TO NEW YORK

DATE May 10th., 1913.

The two boxes by the "Vandyck" have arrived safely but they to-day called my attention to the fact that you did not send the Specimen notes which they always need to send to the Treasury Agencies over the country. Hitherto they have wanted 30 of these notes but they have more branches now and want 47. I therefore cabled you to-day as per enclosed copy. If you send them off promptly they will still get here in time for the Caixa de Amortização. Also you did not send the usual description of the notes and the Caixa does not like the oversight. Properly speaking we ought not to have this to do but they want it and expect it so it is always better to please them.

The Diplomas were all right and they were very much pleased with them.

BANK NOTES

May 14th,1913.

We acknowledge receipt of your cables of May 9th and 10th as per copies herewith.

The news that the resignation of the Minister of the Treasury has been accepted is most refreshing, and I shall be pleased to hear from you as to who will take his place, and whether there will be any possible chance for the Company to enter into certain arrangements for the future. I rely entirely on you as to what you may recommend.

With regard to the 47 specimens that you asked us to send of the Five Milreis Notes for the Caixa de Amortizacão, these will go forward on the steamer of May 17th, and will be included in one of the Bank Note cases. Please do not fail to get an official confirmation for our files.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

No employee of the Company is authorized to vary the foregoing.

FROM Rio de Janeiro TO New York

FROM RIO DE JANEIRO TO NEW YORK DATE May 23,1913.

I enclose a clipping from to-day's 'Jornal do Commercio', a telegram from Buanos Aires, stating that some Brazilian police agents, assisted by the Argentine police had caught a counterfeiter, who says he is an anarchist, and seized the dies from which he was making counterfeit 5$ and other Brazilian notes.

This in conjunction with what I have written you recently is not very pleasant and reminds me forcibly of the counterfeits of former issues of notes. I am afraid we shall hear more of all this.

FROM RIO DE JANEIRO TO NEW YORK DATE June 2, 1913.

A telegram appeared in to-day's 'Jornal do Commercio from which it will be seen that the police there have caught a gang of counterfeiters who were issuing notes of 1000 pesos and 50 pesos. It does not say whether these notes are of the Caja de Conversion but I presume that they are. It all may have a bearing on our business in Brazil inasmuch as the Miliani concern got their order here largely upon the representation that the gold notes were not counterfeited in the Argentine Republic.

NOTI

DE SANTA CATHARINA

O MUNICIPIO DE JOINVILLE ESTÁ CHEIO DE NOTAS FALSAS

Os despojos dos mortos de 1894 e o emissario do governo federal

Florianopolis, 3 — (*Americana*) — Realizou-se, no ultimo domingo de manhã, a inauguração e benção do novo templo evangelista, mandado construir pela colonia allemã desta capital.

O edificio é de estylo gothico, bastante espaçoso e está situado num ponto de onde se domina a cidade.

A' cerimonia assistiram doze pastores evangelicos vindos de varios pontos e foi presidida pelo pastor geral, residente em Porto Alegre.

Compareceram os representantes do governo, da guarnição, de varias repartições publicas, associações e de outros credos religiosos.

Florianopolis, 3 — (*Americana*) — No districto de Hansa, do municipio de Joinville, segundo noticias enviadas pelo commercio daquella cidade, ha grande quantidade de notas falsas em circulação.

O delegado de policia daquella zona remetteu ao chefe de policia daqui varias dessas notas, por elle apprehendidas.

Florianopolis, 3 — (*Americana*) — Embarcou hontem no paquete *Jupiter*, com destino a essa capital, o commandante Americo de Azevedo Marques, que durante dois annos commandou a fortaleza de Santa Cruz.

A commissão incumbida da trasladação dos despojos dos mortos de 1894, que se achavam naquella fortaleza, á qual o commandante Marques prestou inestimavel coadjuvação, promoveu-lhe brilhante bota-fóra, que esteve muito concorrido.

FROM RIO DE JANEIRO TO NEW YORK

DATE June 7th., 1913.

Concerning your letter of May 14th. I would say that the moment does not seem to be opportune for trying to do anything towards a contract for making notes here or for getting a contract for a large number of notes for future use.

The political situation is such that nothing is settled and the ministers are only thinking about politics. They have no time just now to give to any business except the most necessary routine. Rivadavia da Cunha Corrêa, who is the Minister of Justice and Interior, is acting temporarily as Minister of Fazenda. There have been various rumours as to his staying at the head of the Treasury. Some reports have it that he will be made Minister of Fazenda and another man put into the Department of Justice. Nothing definite is known however and it is better just now to await developments. If things get settled, of which there is no too good a prospect, we can see what may be accomplished. The time is one of great confusion. I have asked the Caixa de Amortização to give me a receipt for the 47 Specimen notes of 5$ and this they have promised to do. I hope to send it on in a day or so. This will be just as good as the order and the order would involve much red tape.

June 9, 1913

I am sending you, by this mail, registered, three impressions of the Rio Branco portrait which appears on the Five Milreis Note.

As you have had so much difficulty in having these sent to you framed, I thought it best to send you these impressions, and let you attend to the framing in Rio. You can render us an account for the expense incurred, which I am sure will be very much lower than you have paid on the framed ones sent you previously.

I should like very much to hear from you what comments have been passed by the general public, or the officials, on the new Five Milreis Note of the Rio Branco model.

Counterfeit 10 Milreis Note

June 11, 1913

We have to acknowledge receipt of your letter of May 19th, together with counterfeit note of Ten Milreis of Estampa 12-A.

You are quite right when you state that this is not a good imitation, but since it passes as money, I suppose we must consider it as counterfeit.

We agree with you that it will probably be a good idea to have a new model prepared, and are going ahead along this line; will send same to you as soon as it is ready.

We note what you say regarding the use of a black background, as shown on our Greek Notes, but are afraid that we have nothing in stock of this nature that we could use for Brazil. However, we will look into it and try to introduce something new and different from anything they have had before.

Description of Cinco Milreis Note

FACE

Length of work, 155 millimetres.

Width of work, 68 millimetres.

In the centre of the Face is the portrait of Barão do Rio Branco

On each side of this portrait are elaborate multi-color designs in blue, green and brown, with the denomination in white faced figures in the centre of white line geometrical lathe work counter.

In all four cornors, in lathe work counters, appears the denomination in white faced figures.

In the border at both right and left of note, appears the value in small white faced figures repeated a number of times.

The text at the top of the note in blue faced shaded Roman letters, reads:

Republica dos Estados Unidos do Brazil

and in small black letters directly under, appears the text:

No Thesouro Nacional se pagará ao portador desta a quantia de

In panel directly on the portrait, in white faced letters, appears the value in both figures and letters; and directly on that the words :

Valor Recebido

In upper left hand corner and lower right hand corner appear the numbers in figures; also the Estampa and Série in small black letters.

At the bottom at both left and right of the portrait appears a pantograph tint in black showing the value of the note - Cinco Milreis - in microscopic lettering, over which appears the word in larger lettering - CINCO.

BACK

Length of work, 146 millimetres

Width of work, 59 millimetres

The Back is printed in Green, and in the centre, covering nearly its entire length and width, there appears an allegorical vignette containing the figures oftwo woman and a child representing Commerce, Industry and the Arts.

In all four corners, in lathe work counters, appears in white faced figures, the denomination 5; and at top centre, in a counter, the figure 5 shaded, and at both sides in smaller figures, a white faced 5, around which appears a pantegraph tint with microscopic lettering of the value in both letters and figures.

Beneath the vignette, in a panel, appears the text :

Republica dos Estados Unidos do Brazil

in white faced letters.

FROM RIO DE JANEIRO TO NEW YORK DATE June 13th.

RECEIVED JUL 14 1913 FOREIGN

I am in receipt of your letters of May 23rd, 27th, 28 & 31.

Envelopes. I am at work on this and will report as soon as I can get anything settled. Unfortunately the samples of which you speak can scarcely be expected before next steamer and this may delay somewhat.

Sealing Wax. Nothing new has turned up since my last, but I am looking for the order at any moment.

Casa da Moeda. Referring to your letter of May 27th. under this heading I would remark that the Report of the Director naturally puts the best face on matters and is not to be taken too literally by the initiated. In sending it I did not think it was necessary to make any special comment in view of what you already knew about my opinion. Until the political situation clears up it is not worth while trying for the plant.

Shortage of Bonds. There is no use in making any more fuss about this. They have given us the order, which I sent on to you, and it is better to pay no more attention. If they left the boxes so long without checking off the bonds they cannot lay much blame at our door.

Specimen Notes for the Caixa de Amortisação. I enclose a receipt for the 47 notes (5$) sent. This has been duly signed by the Chief of the Secção de Papel Moeda (Sr. Pamphilo) and will, I have no doubt, just as much value as an order would have done. An order would have called for a good deal of red-tape and I wished to avoid any possible annoyance to our friends at the Caixa. As another Agency of the Treasury has since been added to the list, it will have to be borne in mind in future orders for new notes that the Caixa will need 48 Specimen notes.

June 27, 1913

Your two letters dated, respectively, May 23rd and June 2nd, are received, and we have read the same with a great deal of interest.

We are sorry the article which you say appeared in the "Jornal do Commercio" does not state which notes these were. We of course would be glad to hear something further regarding this, and would thank you to keep us informed of any new developments.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

No employee of the Company is authorized to vary the foregoing.

Republic of Brazil

As we have been requested to make a new model for the Ten Milreis Note of the Republic of Brazil, Estampa 12-A, we would thank you to inform us when you would like to have these notes laid down. This information we want to give to the Modeling Department before requesting our model.

We have not received an order for these notes, so cannot give you quantities, but take it they will probably be wanted in about the same quantities as they have been ordered previously.

The size of these notes is left entirely to you, the only restriction being that they should be a trifle larger than the Five Milreis Note.

With thanks in advance for this information as quickly as possible,

Yours very truly,

TREASURY NOTES

July 9th, 1913.

I have both of your favors of June 7th.

With regard to the Caixa de Amortizacão's request that we ship some of each denomination of the order for 3,200,000 Notes, I beg to say that we have already shipped on account of the 20 Milreis Note order - 1,400,000 and will make a further shipment of one of the other denominations by the steamer of the 12th inst. By the steamer of the 26th inst. we will make a shipment of all the denominations on account of that order, continuing to forward some of the 5 Milreis Rio Branco Notes with every shipment until completed.

As they will probably put out these notes as soon as received, I think it might be a good idea to try to see whether they could not make up another order now, before the present supply of these notes is exhausted.

I can easily understand that owing to the present political situation nothing definite can be arrived at. It might be possible, however, if you give the Caixa de Amortizacão so good reason as to why they should look into the placing of an order now, that they may do it.

I don't want to press the matter too much, but I feel that you have to bring these matters to their attention continually in order to get them to accomplish anything, and being the interested party in the case they might in turn place their request through the Treasury Department now.

TREASURY NOTES

July 19,1913.

I shall await to receive from you a receipt for the 47 specimens of the new 5 Milreis Notes, signed by the Caixa de Amortizacão. This is all that will be necessary; I would not go to the trouble of getting a written order from the Minister of Finance.

Yours very truly ,

JC/IW

Asst. Vice President.

COUNTERFEITS

July 9th, 1913.

I have your letter of June 7th, together with clipping from the "Correio da Manhã" on this subject.

With your former correspondence we received a specimen of the 10 Milreis Note counterfeit. Although an exceedingly bad imitation, as you state, I fear that it would find its way into the interior.

In accordance with your request, we are now preparing a new 10 Milreis model which we will send you in case of need, and in case they decide to make a change.

Yours very truly,

JC/IW

Vice President.

Miscellaneous

July 15, 1913

We have to acknowledge receipt of your letter of June 21st on this subject.

ENVELOPES There is nothing more to be said on this matter, and we are anxiously waiting to hear their decision with regard to our last proposition.

SEALING WAX We note there is nothing new with reference to this matter.

CAIXA DE MOEDA - Shortage of Bonds. We have noted carefully all you say, and think this is the best manner in which to handle this. It certainly is no fault of ours. They should have some system of checking up bonds or documents of any kind at the time they are received, so as to avoid any trouble of this kind.

SPECIMEN NOTES We have the receipt you enclosed, which is quite satisfactory. We note that in the future we are to send forty-eight (48) specimen notes, instead of fortyseven (47).

August 4th,1913.

With further reference to your letter of May 19th, we beg to advise that we are sending you under separate cover and registered, models of face and back of new design of 10 Milreis Note.

As we wrote you on June 11th, we were unable to find any of our stock vignettes showing a black background similar to the vignettes appearing on the Greek notes, and therefore have placed on this model two new vignettes which we have not used before on any work of Brazil.

SUBJECT Orders for Notes.

FROM RIO DE JANEIRO TO NEW YORK DATE Aug. 6th., 1913.

I have seen them at the Caixa de Amortização about fresh orders but they are loath to give any saying that they now have a good stock on hand and they are always afraid that the Minister may take a notion to make a change in the issues.

I will keep a sharp lookout and effect new business if possible. I may here mention that there are rumours afloat that new issues of paper money are to be made. This proceeds from the fact that, as I have been informing you, the Government is very hard up and this seems to be about the only method left of arranging the money needed. It is a suicidal policy to be sure and, as I understand it, is contrary to the provisions of the Funding Loan arranged under the administration of Campos Salles. Things look very black indeed. If they want new notes for such a purpose I hardly think it will be possible to give the orders to any one else as they will want the money in a hurry. About £ 6,000,000 stg. have gone out of the Caixa de Conversão since February last when the total amount on deposit was over £ 26,000,000. It is now only a little over £ 20,000,000. This situation precludes the possibility of any orders from the Caixa de Conversão until the tide turns and this will be a long time hence, I fear. Once the gold goes out we shall have nothing left to keep up exchange which will revert to the old order of violent fluctuations, always under 16 pence. I am anxious to have the model of new 10$ notes, as this will enable me to meet any competition which may arise. I hope that I shall receive them by the next boat, due on the 12th. inst.

FROM RIO DE JANEIRO TO NEW YORK

DATE Aug. 6th., 1913.

I had a talk with the Chefe da Secção de Papel-Moeda of the Caixa de Amortização about the ink for signing notes and he seemed willing to take the matter up. I told him that the ink which Mr. Claudet had mentioned when he was out here would probably prove somewhat more difficult for their use but he said that that would make no difference as they want an ink which will last. Many of the notes which are presented for redemption are old and the signatures have almost or entirely disappeared in many cases. I therefore think it would be well for you to send me a small sample of the ink which you propose to furnish and I will understand with them about it. They want an ink which will last as long as the notes do. I do not know whether it would be possible for you to send me the sample by registered post. If you can, that will be the quickest way. If you send the sample in a box of notes there might be some danger as the ink might break open and spoil the notes. But the glass containing the ink might be enclosed in a tin or metal case, well sealed, in which case there would be little or any danger. Do what you think best about it.

The Post Office has not yet tried the ink sent for cancelling stamps. In fact they have not taken the parcel out of the Custom House yet. It is almost impossible to get them to attend to these things.

Yours very truly,

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

I enclose two notes which they turned over to me in the Caixa de Amortização the other day. These are of the 12th. Estampa and 7th. Series, No. 41,255 and Nº 42,255.

You will observe the colors and the pink has tinged the white back-ground. The defects are not very serious and the notes were allowed to pass, but as they made a question I thought better to buy the notes and send them on to you for inspection. I charge the cost in my account current. If you will ~~s/c~~ send them back to me after you get through with them I will credit the account with the amount.

When I was there they told me that the stolen 5$ notes are frequently presented for payment. The thieves are evidently still trying to get rid of them and the attempts to pass them are generally made at the races.

O caso das notas falsas

O inquerito prosegue na 3ª delegacia auxiliar

O facto de que demos noticia hontem, das notas falsas apprehendidas a bordo do "Columbia", no poder de Vittorio Hoffmann, camareiro do paquete, parece que se vae complicando.

Vittorio declarara á policia que havia recebido as notas das mãos de um preto, intermediario de um negocio que elle ajustara com Albano Fonseca Saraiva.

Pelas diligencias a que tem procedido, a policia desconfia de que ambos os implicados são dois exploradores que querem illudir as autoridades.

O 3º delegado auxiliar, que está tratando desse caso, fez prender, para averiguações, a amante de Albano, uma ingleza de nome Lili Sylvia, que mora á rua da Conceição; o representante de uma firma ingleza que tinha correspondencia com Hoffmann e o director de uma sociedade maritima.

Vittorio foi removido para a Casa de Detenção, onde se acha á disposição do juiz da 1ª vara criminal.

O preto que serviu de intermediario na compra dos chapéos "Chile", com notas falsificadas, ainda não foi preso, continuando a policia a procural-o.

O inquerito prosegue.

A Policia Maritima apprehendeu hontem, a bordo do «Columbia» 2:000$000 em notas falsas

A bordo do vapor «Columbia», entrado hontem em nosso porto, vindo de Buenos Aires, apprehendeu a Policia Maritima em poder do camareiro Vittorio Hoffmann quatro cedulas de réis 100$00$ e oito de 200$000, por serem falsas. São todas ellas da 11ª estampa.

Vittorio, que foi detido para averiguações, declarou tel-as recebido do individuo de nome Albano Fonseca, quando o «Columbia» em nosso porto, de ida para o Prata.

Esse dinheiro Vittorio, recebeu-o como pagamento que aquelle indfviduo lhe fez, por lhe haver vendido diversos chapéos Chile.

Pelo sub-inspector Pessoa, que fez a diligencia foi dada riogorosa busca a bordo, não sendo encontrado nada mais.

O caso foi levado ao conhecimento do 3º delegado auxiliar, que abriu inquerito.

A BORDO DO "COLUMBIA"

A Policia Maritima, a bordo do paquete austriaco *Columbia*, entrado hoje de Buenos-Aires e escalas, apprehendeu, em poder do camareiro Vittorio Hoffmann, quatro cedulas de 100$ e oito de 200$, visivelmente falsas.

As notas apprehendidas são da 11ª estampa.

Vittorio, detido para averiguações, declarou haver recebido as notas de um individuo conhecido pelo nome de Albano Fonseca, em nosso porto, quando o «Columbia» passou com destino a Buenos Aires, como pagamento de diversos chapéos de Chile.

As cabled you on the 14th,inst,(copt enclosed) there has been a better feeling for the past few days and it has been determined not to issue more greenbacks, An issue, as a matter of fact,would be contrary to the arrangement made in accordance with the Funding Loan, and it is hard to see how they could have gotten over that difficulty. The suggestion made, as I have since satisfied myself were made at the instigation of the Government. They wanted to prepare the Public for what was coming and elicit opinions. Meantime the Government has arranged to issue Internal Treasury bills and has also, arranged a loan of £ 2,000,000 or maybe £ 4,000,000 in London in the shape of Treasury bills, also against Custom House receipts or other revenue. Thsi will only help for the time being unless the expenditure is greatly cut down and the most important expenditure, for various public works, has not yet been curtailed.

Mr.Claudet, Vice President,

70 Broad St.,

Dear Sir; Brazil Bank Note—

Referring to your request for the opinion of this committee as to how the counterfeit note,loaned Dr.Reece,was reproduced,I beg to make the following report.

From the face of an original note a negative of the multi-color work was taken by direct photography. The negative so obtained then laid down on two seperate sensitized metal plates and etched. These plates routed out and used individually to print the two colors,red and brown.

The face plate was also photographed and reproduced as ordinary line-photoengraving. Onthe back of the note the same processwas employed as in the case of the face plate.

While the counterfeiter suceeded fairly well in working up the multi-color design and back of the note,his reproduction of the face is so poor that it does not even warrant the term counterfeit.

Enclosed you will please find the note to which werefer.

Very truly yours

DATE Aug.26th., 1913.

I confirm my previous respects under this heading and under this cover. I am sending you by this post some newspapers of to-day in regard to the discovery and imprisonment of some counterfeiters in this city. They seem to have gone into the business quite systematically. All the details have not been published yet. They have been emitting the 5$ and 10$ notes which have been so much in evidence of late. The Government will certainly not issue any more of our 10$ notes and I will go to work as soon as I get the new model. This I presume was sent by the "Vasari", due on the 28th.inst.

I enclose a clipping from the "Correio da Manhã" of the 22nd. inst. from which you will see that some false notes of the Caixa de Conversão have also begun to appear.

I also hand you a cutting from the "Imparcial" of Aug.22 from which you will see that the police have found a great many counterfeit gold notes (Argentine) in Buenos Aires. This confirms what they have been so slow to believe here, and that is that counterfeit gold notes have been in circulation for some time in the Argentine Republic.

Notas falsas na Argentina

BUENOS AIRES, 21 (A.A.) — A policia tem apprehendido grande numero de notas falsas da Caixa de Conversão, do valor de cinco pesos.

Proseguem activamente as diligencias policiaes para descobrir o local onde são fabricadas essas notas, possuindo já a policia informações precisas sobre os chefes do bando de moedeiros falsos, que aqui está operando.

AS CEDULAS CONVERSIVEIS

O apparecimento de notas falsas da Caixa de Conversão

As cedulas de 20$000

Ha dias noticiámos haver a Caixa de Amortização apprehendido diversas notas inconversiveis do valor de 5$000 da 3ª série 14ª estampa, cedulas estas retiradas da circulação por ordem do governo, em vista de terem sido roubadas, em viagem dos Estados Unidos para esta capital, uma partida de 3.000 dellas!

Agora os *incansaveis cavadores da vida*, desanimados com o insuccesso do seu "trabalhinho" relativamente á passagem de cedulas falsas do Thesouro, resolveram *trabalhar* com um material novo, um material hoje muito escasso... com as cedulas da Caixa de Conversão, que andam pela hora da morte!

Mas, pelo que sabemos, ainda desta vez os "honrados industriaes" não estão "operando" com grande felicidade e isto devido unicamente aos nossos policiaes, que, parecem, andam alertas com estes *aguias!*

E a prova está no officio que a chefatura de policia expediu á directoria da Caixa de Conversão, remettendo conjuntamente duas notas conversiveis de 20$000 reputadas falsas e pedindo fossem as mesmas examinadas.

Do exame procedido pelos funccionarios especialistas da Caixa, verificou-se que as referidas cedulas eram falsas e de uma fabricação grosseira...

As notas foram devolvidas á policia com o resultado do exame.

Resta agora aos fabricantes aperfeiçoarem-se mais neste engenhoso *trabalhinho!*

Com um novo plano, cujo premio maior é de 100:000$000, realiza a Loteria Federal uma extra...

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

No employee of the Company is authorized to vary the foregoing.

TERMS AND CONDITIONS

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating, an additional charge of one quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this Company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non delivery, or mis delivery, of any repeated message beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This Company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This Company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors, caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message, and is transmitted and delivered by request of the sender under the conditions named above.

SUBJECT Treasury Notes and Counterfeits.

FROM RIO DE JANEIRO TO NEW YORK 10/2/13c DATE Sept.3d.,1913.

I have already written you about the counterfeits now much in evidence here and I enclose you some newspaper clippings showing the work of the police in this connevtion. They have worked very well this timw I believe and if they always did as well there would not be so much trouble on this score.The Chief of the Paper Money Section of the Caixa de Amortização asked me to wire you to cease work on the 10$ notes as he felt that it would not be wise to go on putting these out. I did so and hand you copy of my cable. I received your reply,on the 30th. ulto.,as follows,

Yfgolakduz tenmilnots zibogweraj jovisbaput.

Translation,-- Refer to your telegram of---Aug.29 10$ notes Work (on---) has been stopped for the present Send specimens Counterfeit American Bank Note Company.

I am trying to get some good specimens to send you. In the main the imitations are about like the note I sent you but I note a generally better appearance in the notes I have seen,at least it seems so to me. Of course the Caixa de Amortização and the banks have no great difficulty in distinguishing the false notes but they are well calculated to deceive the general public.

After talking over matters with the Chief of the Paper-Money Section (Mr. J. Pamphilo de Lima Ferreira) I went to the Treasury with the new model and had a talk with the Director of the Minister's Cabinet and he told me that it was better to understand with the Caixa de Amortização. He told me that when Snr. Jovita was Director there was a good deal of complaint from the Chiefs of Sections because they had to treat all their business through Jovita and could not understand direct with the Minister. He is a

pretty good fellow, the new Director (even if he is a rather dark mulatto) and I should be glad really, if we could always treat our business at the Caixa, as they are good friends and at least know what they are about and this is not the case very often with the Minister. So I went back to the Caixa and explained matters there and then wrote a letter to Snr. Pamphilo, of which I enclose copy. He will bring the subject to the attention of the Junta which meets on Saturday next. In my letter I suggest the new model as a basis, notes to be supplied on present terms, and also point out that it will be better to use a portrait in place of the conventional figure. Campos Salles will probably be the celebrity chosen. I tried to get them to favour the Rio Branco vignette, thinking that it would be cheaper and easier for the Company, but there seems to be a prejudice against using the portrait except for the one denomination. We have certainly had hard luck in regard to counterfeiting of our notes and have lost a good deal of prestige, I am afraid, without any fault of our own. However it is some consolation that the counterfeiters just apprehended were doing some Caixa de Conversão notes (50$). It is a pity that we cannot hit upon some safeguard which will make it harder for the photographers.

I will carefully keep you advised of what goes on.

Yours very truly,

R. C. Brown

Em vista das instrucções verbaes que V. E. me deu em referencia á suspensão do trabalho das notas de 10$ da 12a Estampa e no caso de ser definitivamente resolvido não emittir mais dessas notas, tomo a liberdade de suggerir uma nova encommenda na base do modelo novo que já entreguei a V. E.

O novo fornecimento será nas mesmas condições das notas actualmente sendo fornecidas pela American Bank Note Company.

Ainda que não ha necessidade de mais notas de 10$ neste momento, a gravura das novas, preparo das chapas, papel, etc. requerem alguns mezes ao cabo dos quaes a Caixa de Amortização se achará prompta para emittir as novas e por isso peço uma solução, de maneira que a Companhia possa tomar os passos precisos afim de não deixar a Caixa sem supprimento.

Outrosim lembrava a conveniencia de empregar um retrato de uma pessôa para as novas notas em vez de uma figura convencional porque o retrato de uma pessôa conhecida offerece mais difficuldade nas falsificações. O retrato póde ser de qualquer personagem escol-

hido como, por exemplo, o Snr. Presidente da Republica, Snr. Campos Salles, ou póde ser do Snr. Barão do Rio Branco, a mesma effigie que figura nas novas notas de Rs.5$.

Telegraphei á Companhia no mesmo dia que fui instruido mandar sustar o trabalho nas notas de 10$ e tive a resposta que o mesmo foi suspenso até segunda ordem.

A Companhia sempre recommendou ao Governo ter novas emissões de notas promptas para emergencias porque, no caso de falsificações, podia-se começar assim as remessas de novas notas immediatamente e isso tornaria-se uma medida muito util em certas contingencias.

Peço pois que se tome em consideração uma autorização á Companhia no intuito de apromptar notas de novas estampas de todas as notas em circulação. As notas assim feitas aguardavam nos cofres da Companhia o momento opportuno e mediante uma ordem do Governo seriam despachadas, podendo chegar aqui num prazo de trinta dias.

Aguardando as ordens de V. E.,

INK

Sept.4,1913.

We are in receipt of your letter of August 6th and will try to send you, by Saturday's steamer, a sample bottle of our Permaneo ink, which,as you know , is especially prepared by us and is notable for its lasing qualities.

You must be very careful to tell the Chefe de Secção de Papel Moeda not to blot this ink after using. If it is blotted it will then dry out much too faintly, whereas if it is left to dry of its own accord, it will stay a much more solid black.

10 Milreis Note Counterfeit

Sept 4, 1913

We have your cable of August 29th, reading as follows:

"10 Milreis notes have been counterfeited large number Treasury says stop work on at once awaiting instructions from------ as to------."

to which we replied on same date:

"Refer to your telegram of August 29th 10 Milreis note work has been stopped for the present send specimens counterfeit."

In accordance with your instructions, we have stopped work on this note, owing to a large number of the counterfeit notes being in circulation. We shall await with a great deal of interest your instructions as to what we are to do in this regard. If the counterfeits are similar to the one you sent us with your letter of last May, we are not at all alarmed, as that was very poorly done; if, however, it should be a different one, we would like to get a further specimen from you.

For your information we beg to give you herewith statement as to how the order stands: We received an order for - - - - - - - 2,000,000 notes

Out of this we have already delivered, before you requested us to stop work - - - - - - - - - - - - - 700,000

We have ready now on hand, to be delivered- - - 500,000

1,200,000

In addition, we have 427,000 notes on which all the faces and backs are printed, the only

10 Milreis Note Counterfeits (con'd)

operation remaining to be done, being the numbering; and we have enough paper in various stages of printing, I should say, to complete the whole order of 2,000,000 notes.

We certainly cannot be held responsible for counterfeits, and we shall expect the Government to pay for these notes, and not treat us as they did last year. On this we must be very firm, as I think it is only fair on the part of the Company to make this request.

Financial Affairs, Government Accounts, and
New Issue of Notes

Sept 4, 1913

We have your letter of August 12th, and your Report of August 9th, on this subject.

As you subsequently cabled on August 14th, that the financial prospects were better for the Government, this would eliminate, it seems to me, all chances of any issue by banks. So that I do not see any reason to worry at thecpresent time - except to watch our friend, Mr. Wileman who, as you say, is getting quite busy with the Minister of Finance, trying to get his hearing in the effort to obtain bank note orders. I wish you could learn what firm he represents in this case, and cable us as soon as you know.

If the Minister of Finance has consulted Mr. Wileman on the present financial situation, it would - it seems to me - give him a good hold on the Minister to obtain orders from him; and I sincerely hope that nothing of this sort will be done.

If you ever see any danger of the Company losing its foothold in that country on bank note business, do not hesitate to call on me, and I shall rush down there if necessary.

REPUBLIC BRAZIL 10 MILREIS NOTES

I beg to acknowledge receipt of your letter of the 4th inst. enclosing copy of Mr.Irvine's letter, also two defective 10 Milreis notes,Nos. 42255 and 41255.

I was able to secure two specimen sheets from the order F2733 on which the defective notes were printed and these sheets show no defects. I have had exhaustive tests made on these specimens and find that a weak solution of acid will cause the defect which appears on the notes. I have tried to locate where it might be used in the different departments that our notes go through but cannot trace anything. Whether any acid could have gotten on these notes in the Brazilian department to cause this discoloration is a question.

We are using every care possible to have our work properly executed and regret that this complaint has come, although we feel that the Factory is not at fault.

I return the two notes herewith.

Dear Sir:-

Replying to yours of the 10th inst. in regard to tests made on the 10 Milreis Brazil Notes, would say that we took specimen notes from this same order and soaked one over night in salt water and one in fresh water. This made no difference in the color. In a test of Muriatic acid we were able to get the same result as appeared on the two defective notes. As I explained to you, we do not use any acid in any of the operations through which these notes go.

Financial Affairs and Note Issue

Sept. 16, 1913

I beg to acknowledge receiptvof your favor of 20th August on this subject, and am pleased to learn that the Government has abandoned the idea of giving the banks the right of issuing Bank Notes; but that in order to get them out of their present difficulties, they have arranged in London a loan of £2,000,000 or £4,000,000 in the shape of Treasury bills. As you state, this will only be a help for the time being, and unless the expenditure is greatly cut down, they are bound to have to face the music sooner or later.

That portion of your letter referring to the payment of our back bills, I have referred to our Treasury Depaftment, who will write you fully on the subject. I am pleased, however, to learn that there is a chance of our getting our money very soon, although I see from your report that you are having a great deal of trouble in trying to locate the bills. From what the Treasury Department has reported to me, we have not received any payment for some time for the 1913 accounts, and they will write you fully on this subject, and any money received on account, you will be advised of.

We do not doubt for a moment that you are using the utmost vigilance in keeping close tab on the collection of these accounts, and we certainly appreciate your work very muchin this regard. I can personally understand what you are up against.

Counterfeit Notes - 10 Milreis

Sept 16, 1913

We have both of your favors on this subject - dated August 20th and 26th, and in accordance with your subsequent cable of 29th of same month, we have stopped all work and shall await your further instructions before doing any further in connection with this denomination.

I now confirm my letter of Sept. 4th, in which I stated that I hoped this would not be a case where the order would be cancelled, as we expect to be paid for whatever work has already been done on this order of 2,000,000 Ten Milreis Notes, which work is fully enumerated in said letter.

I see with a great deal of pleasure that our notes are not the only ones that are being counterfeited, and that the Government of Argentina is having the same trouble.

I am especially pleased to hear that the Caixa de ~~Amortizacao~~ Conversão notes have also been counterfeited.

Yours very truly,

Vice President

SEALING WAX.

Sept.19,1913.

We are in receipt of your favor of August 20th, and note there is a chance of the Caixa de Amortizacão ordering some sealing wax similar in quality to that we are supplying the Post Office.

On small quantities such as you speak of we find that we will have to increase our price slightly. For red or green sealing wax of the same quality as now furnished the Post Office, put up in pound sticks and quarter pound sticks, stamped, we beg to quote you.....£0.2.3 per kilo, in lots of 100 to 2000 kilos. This price is as before - C.I.F.Rio.

We are quoting you, as you will see, in Pounds Sterling, as we do not think that it will be necessary to quote for this Department in Reis. However, if you find it advisable to submit prices in this currency you can make the necessary exchange.

We are sending you a sample pound of this wax in one of the boxes of Bank Notes, by the steamer leaving on Saturday, and will advise you in due course of the number of the case in which the same is contained.

Yours very truly,

ENG/IW

Manager Foreign Department.

New York.

Dear Sir:-

We are in receipt of the samples of sealing wax and wish to thank you for the same. It is understood that these samples are of the same quality as the wax you recently furnished us and that the price , in lots of from 100 to 2000 kilos will be the same as before, namely, 14 cents per pound., F.O.B.Steamer.

We have sent these samples forward and will advise you as soon as we hear from our customer.

Yours very truly,

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

No employee of the Company is authorized to vary the foregoing.

Confirmando a minha carta de 1º do corrente em referencia ás notas de 10$, participo agora que tive um telegramma da American Bank Note Company me informando que o estado do trabalho na encommenda actual é como segue,--

700,000 notas já foram embarcadas e estão aqui,
500,000 " " estão completamente promptas e só esperam a ordem de embarque,
427,000 " estão inteiramente impressas com a excepção da numeração,
373,000 " (o resto da encommenda) estão em varios estados de impressão.

A' vista desta exposição, é evidente que não haverá grande economia em supprimir qualquer parte da encommenda porque o Governo, pagando o trabalho feito até agora, pagaria quasi o valor total da encommenda.

Recommendo, pois, que o Governo me autorize embarcar as 1,300,000 notas que ainda faltam. Egualmente achava conveniente autorizar uma encommenda baseada no novo modelo porque o trabalho nesse sentido exige certo tempo e não podemos contar com as novas notas para o uso antes de uns seis mezes, acabados os quaes as notas da Estampa actual se acharão esgotadas.

Aguardando as ordens, subscrevo-me, com toda a estima e consideração de V. E.

Nothing can be decided until Saturday when the Junta of the Caixa meets. Under separate cover (by this steamer, the "Vasari") I sent you a copy of the letter I wrote to the Chefe da Secção de Papel- Moeda. In it I pointed out that there would be a very small economy indeed in not completing the work on the order and that it would consequently be better to authorize me to go on with the order, at the same time giving me an order for a new issue, which would be about ready when the old notes are all put out. So there can be no doubt as to our position in expecting the Government to pay for the work done so far and, as you say in your letter of Sept. 4th. I will take a very firm stand in the matter if it should become necessary to do so. But I do not think they will take an unreasonable view of the matter.

What I told you about Mr. Wileman was chiefly surmise. My opinion was that he formerly had something to do with Bradbury's business here and might try for an order. If he could approach Bradbury with a possibility of business they would no doubt agree to give him a commission. He is one of the kind to try on all he can and win out by main strength and awkwardness, not to mention cheek. He does not stand very well here but he is able to make a good many Brazilians take him at his own valuation. Sometime he gets there, but he is one of the kind which is liable to fall down badly at times.

At the Caixa they showed me some of the 10$ notes which are not all cut of the same lenghh. The difference does not amount to more than 1/16 of an inch in any one case, I should say, and I do not think they have any good cause for complaint. However, it is well to please them if we can. The notes are all of the same width and they cannot understand why the same should not be the case when it comes to the length. I explained matters as well as I could.

Yours very truly,

CABLEGRAMS FOR TRANSMISSION BY COMMERCIAL, COMMERCIAL PACIFIC, GERMAN ATLANTIC, HALIFAX & BERMUDAS, DIRECT WEST INDIA, NEWFOUNDLAND AND COMMERCIAL OF CUBA CABLES ARE ACCEPTED AT ALL POSTAL TELEGRAPH AND CANADIAN PACIFIC RAILWAY TELEGRAPH OFFICES.

TERMS AND CONDITIONS.

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays, the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof, and this Company, that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this Company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message and is delivered by request of the sender under the conditions named above.

CABLEGRAMS FOR TRANSMISSION BY COMMERCIAL, COMMERCIAL PACIFIC, GERMAN ATLANTIC, HALIFAX & BERMUDAS, DIRECT WEST INDIA, NEWFOUNDLAND AND COMMERCIAL OF CUBA CABLES ARE ACCEPTED AT ALL POSTAL TELEGRAPH AND CANADIAN PACIFIC RAILWAY TELEGRAPH OFFICES.

TERMS AND CONDITIONS

THE COMMERCIAL CABLE COMPANY may decline to forward any message, though it has been accepted for transmission, but in case of so doing, shall refund to the sender the amount paid for its transmission.

THIS COMPANY WILL NOT ASSUME ANY RESPONSIBILITY IN RESPECT TO ANY MESSAGE BEYOND THE TERMINUS OF ITS OWN LINES.

To guard against mistakes or delays the sender of a message should WRITE IT LEGIBLY and order it REPEATED; that is, telegraphed back to the sending station for comparison. For such repeating, an additional charge of one-quarter the regular rate will be made.

It is agreed between the sender of the message on the face hereof and this Company that said Company shall not be liable for mistakes or delays in transmission or delivery, or for non-delivery, or mis-delivery, of any unrepeated message beyond the amount of that portion of the charge which may or shall accrue to this Company out of the amount received from the sender for this, and the other companies, by whose lines such message may pass to reach its destination; and that this Company shall not be liable for mistakes in the transmission or delivery, or for non-delivery, or mis-delivery, of any repeated message beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines.

This Company is hereby made the agent of the sender without liability to forward any message by the lines of any other company to reach its destination.

This Company shall not be responsible for messages until they are presented and accepted at one of its transmitting offices; if a message be sent to such office by one of the Company's messengers, the messenger acts for that purpose as the agent of the sender; if by telephone, the person receiving the message acts therein as the agent of the sender, and is authorized to assent to these conditions on behalf of the sender.

This Company shall not be liable in any case where the claim is not presented in writing within sixty days after the filing of the message.

This Company shall not be liable in any case for delays arising from interruptions to the working of its lines, nor for errors in cipher or obscure messages.

In any event this Company shall not be held liable for any loss or damage, or for delay or detention, or errors, caused by storms or the action of the elements, or other acts of God, or by civil or military authority, or by insurrections, riots, rebellions, or dangers incident to the time of war, or by the unlawful acts of individuals.

This is an UNREPEATED message, and is transmitted and delivered by request of the sender under the conditions named above.

Dear Claudet:

This afternoon I wired you that the State Deptmt had promised to cable Mr. Morgan the U.S. Minister at Rio to help Irvine collect our bill. Hope you understood the meaning of my message which was of course a bit hidden as I had no code and did not want the telegraph operators to understand.

I plan to leave here at 4 p.m. tomorrow (Friday) p.m. Due W.H. 9 p.m. Will not be down on Saturday unless I am needed. If you want me to come to the office phone my son Victor up at the Works. He will give me the message.

Sincerely yours

Ten Milreis Notes

Oct. 3, 1913

I have your letters of Sept. 3rd and 9th, together with copy of your letter of Sept. 1st addressed to Mr. J. Pamphilio de Lima Ferreira.

As we did not have any official order from the Minister of the Treasury to stop work on the Ten Milreis Note, which has been counterfeited, we cabled you on Sept. 29th as follows:

"10 Milreis send us an official order to stop work."

---

and have since received your reply of Oct. 1st -

"Ten Milreis Notes very probable will decide in a few days ship balance of order."

We take it from the latter that probably in a few days the Government will decide whether we are to ship the balance of the order of the Ten Milreis Notes, on which you requested us to stop work.

As the order has been given us by the Minister of the Treasury, it is only right that we should insist in having an official cancellation from him, and not from the Chefe da Seccao de Papel-Moeda - hence our reason for asking you for this document.

From what you report in your letter, it would seem that now the matter of deciding on new models for notes to be ordered, is left entirely with the Chief of the Paper Money Section. This is pretty good news, and I wish it were so that the Minister of the Treasury would only be advised, and hatehave anything to do with the placing of orders. I hope in this way we may be able to save a great deal more time, and also obtain a quick decision as to what they will do. I note, however, that up to the present time, they have not

decided upon the new Ten Milreis model which we sent you some time ago. As you state, itcis most unfortunate, and has been the cause ofour Company's losing quite a little prestige, - that our notes have been counterfeited so quick and on such a scale. I feel that if the Government would follow these counterfeiters more closely, and give them proper punishment, a great deal of this would be avoided; but very often it is found that some of the officials are connected or interested in having their paper money counterfeited, and under the circumstances the best of notes would be counterfeited, although I consider that the specimen of the counterfeit sent us is very poor.

We have not as yet been able to hit upon some safeguard that will make it harder for counterfeiters to succeed in their work, but we are working very strenuously towards that end, and as soon as we are successful, you may rest assured we shall advise you of it.

We have lately successfully discovered a new sensitive ink to print from steel plate, and I expect within the next two weeks to be able to send you some specimens, together with directions how to test the same. This would especially be of great use to us on Revenue stamps, or stamps that have large values, as once they are cancelled, it is impossible - without taking out all the coloring - to take out the cancelling; and it would consequently make them worthless for use again. This same ink we could also use on documents that bear values, such as drafts or checks, but these will have to be printed from steel plate, and would naturally make it some-

what expensive, but very safe - safer than anything I know of at the present time.

I shall write you further in this regard, and advise you on what documents we could make use of this ink.

Yours very truly,

Vice President

Ink for the Caixa de Amortizacao.

October 4th,1913.

With reference to your letter of September 9th, we beg to state we will furnish our Permaneo ink , as per sample sent you, put up in two ounce bottles, for $2.50 U. S. Gold per dozen bottles, F.O.B.Rio. This is our usual manner of putting up this ink. In this way you will see it is not necessary to expose but very little , or say one bottle at a time, to the light and air - both of which may affect this ink in your climate.

Although we note you ask us to quote you in Milreis, we would rather you do that yourself, since you better understand it and can arrange for any fluctuation in Exchange.

We hope we may soon hear they have been pleased with the sample of the ink which we sent you and that you have been successful in securing an order for us.

Yours very truly,

On the 29th.ulto. I received your telegram,as follows,--

Apzakarmez sikukto wojadzénut.

(10 mil reis Send us an official order To Stop Work).

To this I replied on the 1st. inst. as per copy herewith.

The last meeting of the Junta da Caixa de Amortização was held on the 20th. of Sept. As,however, the Minister of Fazenda and one other member, the Barão de Aguas Claras,did not appear on that occasion,the decision regarding the 10$ notes was left to the next meeting which should be held Saturday next,the 11th. inst. Consequently I deemed it better to wait until then,for I have reason to believe that they will decide to go on with the rest of the order and adopt a new model for the following notes. The Chefe da Secção de Papel-Moeda and the Inspector da Caixa de Amortização are in favour of this course and this is the only reasonable thing to do under the circumstances. Hence I have hardly any doubt that I shall be able to transmit an order to this effect. The Minister was very much impressed with the idea of making new notes with a vignette of the President and wants to get them out before Hermes goes out of office, naturally. But in any case he could not get the new notes before 6 months and in the meantime the other notes would have been emitted. He wants to curry favour with the President as they all do. His impatience for the new notes seems to be the only obstacle to finishing the old order but when he understands the whole case there ought to be no impediment to a settlement as we desire it. Yours very truly,

Palavras para o povo

O governo e a Caixa Economica

...põem-se, agora mais do que ...a, a linguagem clara, serena, ...paixonada, com que o *Correio ...anhã* costuma falar ao povo, ...nalyse rigorosa da situação em ... o paiz se encontra.

...Convém que não seja colhida ...a surpreza a nossa população, ...e ella não desperte sómente na ... da ruina extrema.

...situação geral é grave, nin- ... o duvide. E' grave sob o ... de vista economico e finan- ...como o é sob o ponto de ...olitico. Mas não é deste ul- ...que queremos occupar-nos ...Tratemos dos dois primei- ...falemos no estylo sobrio que ...er empregado nos momen- ...lindrosos

...manifestar-se, bem recente- ... ainda a corrida á Caixa ...mica, escrevemos que quan- ...ella instituição official não ...arantias aos depositantes, ...ma outra, de ordem partí- ... poderá merecer mais re- ...os e maior confiança. Fomos ...essas nossas considerações ao ...outro dos pavores populares, ... sentido de concorrermos para ...a calma se fizesse em todos ...espiritos. Mas tinhamos ainda ... outra razão ponderosa a ...tar-nos: o governo fazia pro- ...s, pela boca do ministro da ...nda, de que se iria enveredar ...tamente pelo caminho das ...omias, cessando todos os tra- ...os adiaveis até que o Thesou- ...steja desafogado, restituindo- ...praça as grandes verbas que ...am no debito da União por ...cimentos e outros encargos, ...o-se assim allivios ao com- ...e ás industrias, que são na- ...instrumentos de circulação ...da.

...medidas rapidamente ad- ...cortando-se cerce por to- ...esperdicios ou por todas ...sas adiaveis, não seria ...l que a crise chegasse a ...r maior somma de pre- ...ções.

...avia, a verdade, que consti- ... para quem a cultiva, man- ...e se diga que nem uma só ...promessas feitas teve realiza- ...que, bem pelo contrario, o ...verá em breve aggravadas as ...sas, por mero capricho go- ...amental.

...marechal Hermes, batendo o ...mpondo a sua cega e incon- ...te teimosia, quer que o es- ...lo da prata se cumpra inte- ...iente. Por outro lado, nem ...só das varias e dispendiosis- ... obras que o governo auto- ..., soffreu alteração, conti- ...do todas a ser sorvedouro de ...eiros. Dentre essas obras des- ...n-se as da Central do Brasil. ...continuam, com jubilo gover- ...ental, as perfurações dos ...rmes tuneis que hão de per- ...ir o assentamento de mais vias ...eas. Essa nova construcção é ... que pertencem á categoria das ...çamentaveis, das que nunca se ...e quanto custam sinão na ho- ...derradeira do assentamento do ...mo tijollo ou do ultimo trilho. ...Assim, pois, o governo está fal- ...ndo todas as suas promessas, ... capricho do presidente da Re- ...blica e por falta de energia de ...s ministros, incapazes de um ...o de independencia e de alti- ... patriotica

...gora saiba o povo o que está ...edendo: o *Thesouro Publico* ...ideiramente, [illegible] ...de a Camara dos Deputados ... ter votado a tempo a autori- ...ão para o pagamento do subsi- ..., foi um pretexto magnifico ...ra que o ministro da Fazenda ...desse respirar com um pouco ...ais de tranquillidade. Diz um ...elho proverbio que folgam as ...ostas emquanto o chicote que as ...çoita faz o movimento de vae- ...em. Assim, emquanto o processo ...e pagamento de subsidio aos le- ...isladores corre os tramites legaes, ...ministro da Fazenda tem alguns dias de folga para reunir o dinheiro preciso para aquelle pagamento. Não estamos fantasiando, dizemos sómente a verdade. E a verdade é tambem esta: dia a dia o ministro da Fazenda recebe a informação do dinheiro existente no *Thesouro*, proveniente da Alfandega, da Caixa Economica, ou das outras varias fontes de renda para determinar pagamentos em harmonia com os saldos existentes. Nem um real a mais existe mesmo para as necessidades mais instantes.

Ha dias, como noticiámos, foi aberta a fallencia a uma casa commercial, em cujo activo figuram mais de trezentos contos de fornecimentos feitos á Central do Brasil, e todavia a fallencia foi requerida por um credor de menos de vinte contos! Ao nosso conhecimento chegam informações de que pequenas contas, de cinco, dez ou quinze contos, devidamente legalizadas e processadas, não são liquidadas porque o Thesouro não tem dinheiro. Durante a corrida á Caixa Economica, as demoras nos pagamentos, que tantas reclamações provocaram por parte dos depositantes, eram justificadas pela necessidade de se não exceder diariamente as verbas limitadas de que o Thesouro podia dispôr, ainda assim graças ao fornecimento de dinheiro feito pela Alfandega.

Tudo isso são expoentes de uma situação gravissima, e é facil concluir que se de subito apparecerem na Caixa Economica depositantes exigindo a retirada de quinhentos ou seiscentos contos, o que é muito facil de succeder, o Thesouro não poderá pagar!

O governo podia e devia ter enfrentado a situação, com as medidas lembradas pela imprensa e com aquellas que foram expostas, promettedoramente, pelo ministro da Fazenda. Mas, em vez disso, elle insiste em gastar perdulariamente, quer para satisfação dos caprichos do presidente da Republica, que bate o pé e teima em que seja levado a cabo o escandalo da prata, quer para satisfazer o conde de Frontin, que tambem sabe bater o pé e insistir na realização do seu programma de obras colossaes, incompativeis com as angustias economicas da nação.

Que resta ao povo? Deixar o governo entregue aos seus proprios recursos e salvar, da derrocada que se approxima, as economias dos que trabalham e fizeram guardar os seus parcos haveres na Caixa Economica.

E' já conhecido o *deficit* commercial de mais de cento e quarenta *mil contos*; em virtude desse *deficit* as importações vão decrescer sensivelmente, e, portanto, a renda da Alfandega vae cair, aggravando a situação do Thesouro. Si agora não ha dinheiro para o pagamento de pequenas contas, já devidamente legalizadas, e se o dinheiro levado á Caixa Economica está tambem servindo diariamente para o pagamento dos encargos, é claro, é obvio, é facilmente reconhecivel, que dentro em pouco o governo não poderá pagar aos seus depositantes. Esta é outra verdade que deve tambem ser dita sem rodeios nem vacillações, desde que o governo deixa de cumprir com seus deveres como administrador dos bens do paiz

Não faltam guardas vigilantes e leaes dos dinheiros do povo. Dentre os bancos nacionaes destacam-se o Banco Mercantil do Rio de Janeiro, superior e honradamente dirigido pelo dr. João Ribeiro de Oliveira e Souza; si houver da parte dos depositantes maior tendencia para os bancos estrangeiros, têm o British Bank of South America. Qualquer desses estabelecimentos recebe pequenos depositos, a juro e á ordem, com todas as garantias e ainda com o mais rapido e simples processo de reembolso, sem as difficuldades burocraticas da Caixa Economica. Podemos accrescentar que o povo, acudindo aos bancos com os seus peculios, presta até bom serviço nacional: o seu dinheiro, sob todas as garantias, entrará em circulação pelos descontos offerecidos ao commercio e á industria, e isso concorrerá de alguma maneira para o abrandamento da crise que assoberba a nossa praça.

A confiança na Caixa Economica está profundamente abalada, em virtude dos actos do governo. Só elle e mais ninguem é responsavel pela situação. Confiámos em que a gravidade do momento daria juizo aos nossos administradores publicos. Enganámos-nos. São elles que por todas as fórmas cavam a ruina nacional, depois de terem tão claramente evidenciado a ruina dos caracteres. Que ao menos o povo salve as suas economias, pondo-as em bom recato.

E é com a nossa lealdade de sempre que damos este conselho aos que trabalham, e não têm culpa de que o Brasil chegasse á situação a que o arrastou o mais pernicioso dos governos que a nação tem tido, por desgraça de nós todos.

O governador do Amazonas está sem defesa na Camara e no Senado. O discurso do senador Gabriel Salgado não conseguiu innocental-o dos crimes inominaveis que tem praticado em Manáos, desastrado como foi, e a tal ponto, que pretendeu dar a responsabilidade do bombardeio daquella capital ao conselheiro Ruy Barbosa! Hontem, na Camara, succedeu egual fiasco ao sr. Aurelio Amorim.

Levou-o á tribuna um telegramma, no qual o sr. Jonathas Pedrosa affirma a sua innocencia perante o sr. Aurelio, e, lendo-o, este deputado julgou com certeza que defendia o seu amigo. Mas não attingiu o alvo. O sr. Jonathas é indefensavel. Por mais que em seu favor se falle na Camara e no Senado, ninguem poderá jamais apagar da historia politica daquella terra o periodo de crimes de toda ordem, inaugurado pelo feroz politiqueiro que infelizmente se encontra á testa dos seus destinos.

A assembléa estadual, por elle reconhecida, é positivamente illegal. Quando o sr. Jonathas com ella se corresponden, já a legitima funccionava, de harmonia com o governo passado. As suas decisões haviam sido até publicadas no orgão official do Estado. Esse é o crime inicial do sr. Pedrosa. Depois vieram os outros: as perseguições aos seus adversarios, que tiveram de emigrar para Belem afim de fugir á sanha dos esbirros pedrosistas, os fuzilamentos de soldados no pateo do quartel da policia, o desrespeito a *habeas-corpus* do Supremo Tribunal da Republica e por ultimo o atassalhamento á honorabilidade dos magistrados estaduaes.

Como tudo isso é verdade, fica bem evidente que o sr. Jonathas está fóra da legalidade, coisa que não pode ser destruida por discursos mais ou menos destituidos de logica e de bom-senso. Disse o sr. Aurelio que o conselheiro Ruy Barbosa ainda poderá considerar o governador do Amazonas como "uma creatura incapaz de um sentimento deshumano".

Ahi está uma coisa que o eminente senador bahiano não poderá fazer; porque os criminosos da ordem do governador amazonense, si ficam impunes neste paiz, devido á posição que exercem, nem por isso deixam de incorrer na repulsa dos homens de bem.

O presidente da Republica recebeu hontem, ás 3 horas da tarde, em audiencia especial, o sr. Edwin Morgan, embaixador americano, que foi convidar s. ex. para assistir ao baile que offerece á sociedade brasileira, no proximo dia 5 do corrente.

As pretensões da advocacia administrativa não são de estranhar, na quadra que vae correndo. Desde que *de cima* partem exemplos como o da prata, não ha que estranhar que *de baixo* haja quem os aproveite e procure adoptar para uso proprio.

No *Diario Official* foi publicada a seguinte nota de expediente do Ministerio da Fazenda, de 29 do mez findo:

"Sr. ministro da Marinha:
N. 77 — Afim de que possa o Thesouro Nacional se pronunciar sobre o pedido feito por Frederico Carlos Pucinelli, proprietario do trapiche a fandegado S. João, situado em Belém, Estado do Pará, de pagamento da importancia de 697:075$668, proveniente das taxas de capatazias e armazenagens do material destinado ao pharo de Salinas, cujo processo transmittistes, com o aviso n. 122, de 29 de julho proximo findo, peço vos digneis de devolver os papeis que acompanharam o aviso do vosso Ministerio, n. 68, de 23 de agosto de 1909.
Reitero-vos os meus protestos de elevada estima e distincta consideração."

Que quer isto dizer? Esta coisa simples: um novo assalto ao Thesouro, desta vez por um pouco menos de 700:000$000.

Em 1894, o inspector da Alfandega do Pará fez depositar no trapiche alfandegado de Pucinelli, varias peças vindas da Europa e destinadas ao pharol de Salinas. Tinham custado ..... 124:000$000 ao cambio de 10 d., ou, approximadamente 68:000$000, ao cambio actual. Pois agora, o proprietario do trapiche pretende receber cerca de 700:000$000 pela armazenagem desses objectos que entraram no paiz livres de direitos e que custaram apenas.... 68:000$000!

Não abra bem os olhos o ministro da Fazenda, deixe-se seduzir pelas serias administrativas, e verá qual a importancia do rombo contra o Thesouro. Diz-se que a questão Pucinelli é defendida por um deputado federal. Veremos o que sáe de mais este esboçado escandalo, e si ainda teremos mais uma reclamação diplomatica, á laia da que o João Gazúa preparou para entrar com a mão adunca pelos cofres publicos. A porta está aberta, e o presidente é pessoa com quem se pode contar, desde que elle se resolva a bater o pé, e a gritar: — Quero eu!

O presidente da Republica, em companhia de seus ajudantes de ordens, esteve no Cáes do Pharoux, onde foi saudar seu irmão, deputado Fonseca Hermes, que partiu hontem para a Europa.

As forças ...cionadas em Fortaleza foi dirigida mais uma ordem do dia do general Torres Homem. Nella, como em todas as outras em que tem sido fertil ultimamente, o general condemna a interferencia dos militares na politica. E' a sua ultima mania, depois de ter com os soldados sob as suas ordens intervindo na successão governamental da Parahyba e do Piauhy.

Falta-lhe, assim, a autoridade precisa para dar, dessa maneira, naquelle ...mesmo, que nas suas proclamas militares termina invariavelmente uma "viva" ao marechal Hermes da Fonseca.

O general Torres Homem não illude ninguem: as suas ordens do dia pódem ser, sem exaggero algum, traduzidas do seguinte modo: os militares não devem ser politicos, desde que as suas convicções estejam em sentido opposto á orientação do governo federal. E tanto é assim, que a sua nomeação para a 5ª região, ampliada depois para 4ª, não significa outra coisa sinão que o Centro precisa dos seus serviços, como mero vigia dos governadores que demonstram alguma rebeldia ás ordens summarias do Partido Republicano Conservador.

Si assim é, para que essas ordens do dia, sem nenhuma significação por que revelam manifesta insinceridade? O general não tem nenhuma obrigação de dirigil-as aos seus commandados. Restrinja-se, nessas circumstancias, ás suas preoccupações exclusivamente militares, e deixe-se de grosseiras mystificações, que não lhe ficam muito bem.

Conferenciaram hontem, no palacio do governo, com o presidente da Republica, os ministros do Exterior, da Guerra e o prefeito do Districto Federal.

Publicamos hoje, noutro logar, a segunda parte da representação que foi entregue ao ministro da Fazenda pelos commerciantes de drogas e fabricantes de productos pharmaceuticos nacionaes, relativamente á reforma da tarifa da Alfandega. Trata-se agora, entre outros assumptos, da taxa sobre Aguas de Vichy e laxativas. A importancia da representação avalia-se bem, desde que se saiba que uma caixa de agua de Vichy, que custa 14$100, paga de direitos 24$000! As aguas laxativas estão em identicas condições.
Essas taxas assim elevadas obedeceram a um intuito: proteger as aguas medicinaes brasileiras. Todavia, não possuimos nem aguas comparaveis á de Vichy, nem outras laxativas. Possuimos aguas acidulo-gazozas, e para essas comprehendia-se a protecção.
E' contra esse erro grave que os reclamantes apresentam a sua representação que é justissima, e que deve ser attendida pelo ministro da Fazenda.

O dr. Rivadavia Corrêa, ministro da Fazenda, fez-se representar por um dos seus officiaes de gabinete na missa celebrada hontem por alma do guarda-mór da Alfandega desta capital, Luiz da Gama Berquó.

Ao que parece, os correligionarios do sr. Oliveira Botelho descobriram o homem capaz de aplacar as iras do sr. Pinheiro Machado, tornando-se candidato á successão presidencial no Estado do Rio.

Esse cidadão é o sr. Horacio de Magalhães, o *Pellado*, actual secretario geral do sr. Botelho.

A razão suprema que o vae tornar candidato é ter sido companheiro de collegio do predestinado de Itajubá com quem mantém até hoje a mais estreita camaradagem, tratando-se ambos por tu...

E, como esses requisitos sejam verdadeiramente preciosos, contam os amigos do sr. Botelho levar tudo de vencida.

Os preparativos da ascensão do sr. Horacio ao ter começo, procurando-se antes de tudo ageitar as coisas no Morro da Graça, com a intervenção do sr. Wenceslau, que se mostrou ...desempenado aos primeiros pedidos que fizeram ao senhor todo poderoso deste paiz.

O director do gabinete do Ministerio da Fazenda communicou ao intendente e membros do Conselho Municipal de Jaracacy, Estado da Bahia, que o pedido que dirigiram ao ministro da Fazenda, relativo ao estabelecimento ali de uma Collectoria das rendas federaes, deve, conforme despacho do ministro, ser encaminhado ao mesmo, por intermedio da Delegacia Fiscal naquelle Estado.

Foi hontem apresentado á Camara um projecto, pedindo a pensão de 300$ mensaes para a viuva do ex-deputado Gumercindo Bessa, recentemente fallecido em Sergipe. Não podemos atinar com o resultado que aguardará esse projecto, tal a anarchia actual daquella casa do Congresso. Mas o mais clememar bom-senso está a indicar que elle deve ser repellido, assim como todos os demais que neste sentido lhe forem apresentados, visto que já não é segredo para ninguem a crise financeira com que estamos a braços, e, na sua maioria, as pensões não representam são meros favores pessoaes, cuja despeza os cofres publicos já não comportam. O sr. Gumercindo Bessa foi um dos brasileiros mais eminentes que o Brasil tem possuido, é bem verdade; isso, porém, não implica o facto de ter o Estado de fornecer 300$ mensaes á sua viuva. Dir-se-á que a outras viuvas já se tem feito o mesmo. Mas o abuso não constitue regra de conducta para ninguem.

E' preciso acabarmos com essa praxe, excessivamente onerosa para a capacidade tributaria da nação. A verba destinada a pensões desse genero já está bastante avultada, e accrescel-a é aggravar ainda mais os nossos encargos. Comprehendia-o o Congresso e d'agora em deante seja mais parcimonioso na distribuição das suas graças e favores, já que é impossivel voltar atrás do que a respeito tem praticado, sem o menor vislumbre de preoccupação pelos interesses publicos.

OS ANNOS DO GAZÚA

E' inutil, neste paiz, a tarefa de fazer chegar um pouco de vergonha á cara dos homens publicos. Ha uma crise de caracter desoladora.

Veja-se, por exemplo, este caso.

O gatuno estrangeiro João Lage, réo de crime de estellionato, que pleiteia agora a intervenção da Allemanha contra o Brasil para garantir uma ladroeira na qual é interessado, estampou hontem n'*O Paiz* os nomes dos sujeitos altamente collocados que o festejaram no dia dos seus annos. Levaram-lhe cumprimentos pessoaes dois ministros de Estado: os srs. Hermes da Fonseca e Alexandrino de Alencar; e, abrindo espaço a meia duzia de telegrammas de felicitações, apparece o despacho do sr. Pinheiro Machado, — seis linhas pejadas de amabilidades, em que o signatario confessa A ESTIMA PESSOAL que consagra ao Lage e o SEU RECONHECIMENTO PELA DEFESA ENERGICA E BRILHANTE QUE o sobredito ladrão tem feito das IDE'AS REPUBLICANAS.

Até certo ponto, repugna-nos esmiuçar estas pequeninas coisas. Os srs. Herculano, Alexandrino e Pinheiro são individuos de maior edade, responsaveis pelas relações equivocas que fizerem e cultivarem. Não nutrimos inveja absolutamente nenhuma pela distincção com que tratam o Lage, pois cada um tem o direito de escolher os amigos nas rodas que muito bem lhe agradarem e parecerem.

Mas o Lage — que diabo! — é hoje o advogado ostensivo de uma transacção sobre a qual o governo ainda não deu a sua ultima palavra. Para conseguir o que deseja, pediu de emprestimo aos allemães polvora e carabinas. Trata-se, pois, de pessoa duplamente suspeita ao governo: primeiro, porque tem interesse notorio num negocio contra o Thesouro; segundo, porque ameaça perturbar a paz interna, promovendo, solicitando, insinuando e pregando uma reclamação diplomatica!

A um homem nestas condições é obvio que se não póde dirigir nenhum ministro de Estado ou homem publico de responsabilidades, a menos que esteja com elle acompadrado para a praça do mesmo crime.

A questão da cunhagem da prata, levantada pelo *Correio da Manhã* e immediatamente esposada por toda a imprensa independente do Brasil, é, porém, um desses casos tristes, que revolvem as podridões mais secretas das nossas situações politicas. Não será de espantar que amanhã, tudo liquidado, tendo a *amante do marechal* Hermes e o gatuno Lage mettido na algibeira as gordas commissões que lhes foram promettidas, ainda sejamos nós outros, os que levantámos a lebre da immoralissima transacção, considerados os verdadeiros inimigos da Patria e do Thesouro...

Na maré de absurdos, em que vivemos, já não ha dislate que possa mais espantar.

Discutimos, ponto por ponto, os vicios do AJUSTE da prata. Provámos a sua illegalidade, a sua desnecessidade e a sua deshonestidade. O senador Ruy Barbosa, com sacrificio da propria saúde, e pondo o seu luminoso talento ao serviço do grande interesse nacional que estava em causa, pronunciou um discurso geralmente considerado a ultima palavra acerca da materia. Não seria, pois, por falta de conselhos desinteressados, de orientação opportuna, de debate largo e prolongado, que o governo deixaria de cumprir o seu dever, declarando inexistente, de accôrdo com a sentença do Tribunal de Contas, o pretendido "contrato" da cunhagem. [illegible] ...mentos, porque está na firme intenção de consummar a patifaria. Contra o arbitrio, o capricho e a deshonestidade dos governos no Brasil, não ha remedio possivel, nem mesmo o do processo criminal contra o presidente da Republica, porque esse processo depende sempre da decisão do Congresso, cumplice invariavel dos senhores feudaes que a politica empurra para a chefia do Estado.

Assim, não deve nenhum homem de bem perder mais o seu tempo em querer infiltrar no organismo politico do paiz um pouco de vida sã. Isto vale o que isto é.

Lage andou muito direito publicando hontem as quatro palavras graves que lhe mandou o sr. Pinheiro Machado, agradecendo a sua DEFESA ENERGICA E BRILHANTE das IDEAS REPUBLICANAS. O sr. Pinheiro, todos o sabem, é um pobre comprador de burros, sem noção de nenhum principio politico e sem nenhum ideal.

Para suppriir essa falta, costuma então dizer-se REPUBLICANO DEFENSOR DA REPUBLICA, SUSTENTADOR DA IDEA REPUBLICANA e outras babozeiras equivalentes. Quando precisa homenagear um comparsa qualquer, já se sabe: chimpa-lhe na cara o titulo de REPUBLICANO!...

Mas, curtinho de vistas, já não sabe elle distinguir os typos que lhe surgem. Tendo o proposito de dizer uma amabilidade ao Lage, enferrujou-se-lhe o bestunto e não houve meio de sair uma coisa bonita. Então, desesperado, o sr. Pinheiro salvou a situação, dando tambem ao meliante portuguez o titulo de defensor das nossas IDEAS REPUBLICANAS!

Seja tudo isto pelo amor de Deus!...

O ministro da Fazenda autorizou o inspector da Alfandega desta capital a entrega á Caixa de Amortização 13 caixas contendo notas do Thesouro, remettidas de Nova York pela American Bank Note Company Lemited.

O presidente da Republica, acompanhado de membros de sua casa militar, compareceu á inauguração da exposição annual da Escola de Bellas Artes, que hontem se realizou á 1 hora da tarde.

O presidente da Republica fez-se representar no embarque do senador Pinheiro Machado, que hontem partiu para Campos, pelo sub-chefe de sua casa militar, capitão de fragata Jorge de Fonseca.

Ouvimos que o 1º tenente Dydio Iratin Affonso da Costa vae ser nomeado ajudante de ordens do contra almirante inspector do Arsenal de Marinha desta capital.

Pingos & Respingos

NOVO PARTIDO

Organizado está, como é sabido,
Em nome do civismo nacional
O partido
Republicano e Liberal.

Nas mais ardentes e sonoras phrases
(O ardor da phrase no conceito influe)
Accentuaram-se as bases
Do partido que tem, entre chefes capazes,
Como chefe supremo o grande Ruy.

Permittam-me, entretanto,
Que, mettendo o bedelho em coisa séria,
Ponha á parte a pilheria
E aqui proteste, sem causar espanto,
Contra o titulo dado
Ao tal partido agora organizado.

Liberal? ! Mas senhores,
Já nos não basta a liberalidade
Com que os nossos actuaes *Conservadores*
Avançam no Thesouro, com vontade?

O cartaz vale tudo
E a "taboleta" é tudo num partido.
Por ella torna-se elle conhecido
Do bom povinho miudo.

Partido Liberal! Mas liberdade
Temol-a nós de sobra!
Livre é o Lage e a gentalha que o manobra
E que o Thesouro invade.

São livres os autores
Da nossa financeira bacchanal
E liberrimos são os salteadores
Da honra nacional.

Mas que nome ao partido dar-se então?
Si é verdade que o nome em tudo influe
O Partido que tem á frente o Ruy
E' o da completa Regeneração.

E seja como fôr,
Por bem ou mal e custe o que custar
Venha um partido "Regenerador"
Que é este o verbo o *motto* salvador

DEPOIS DA CASA ARROMBADA... TRANCAS NA PORTA

S. Paulo, 31 — 8 — 913 — (*Do nosso correspondente*) — Alguns jornaes da terra andam intrigados com as conferencias que se têm realizado entre alguns chefes politicos, depois daquelle já sabidissimo incidente que se relaciona com o reconhecimento do sr. Plinio de Godoy. O sr. Rodolpho Miranda, que andava macambuzio e meio silencioso, parece ter creado alma nova, após a nomeação do sr. Herculano de Freitas, acto que não inerecera, a principio, o seu incondicional applauso, como opportunamente escrevemos. Mas o sr. Rodolpho entrou na politica com a sciencia da cartilha pinheirista: só briga em ultimo caso.
A arte do equilibrio de um politico *sem prestigio real* e que *tem de viver á mercê das correntes da opinião e das contigencias da sorte*, consiste exclusivamente em praticar isso que a gyria nacional tão acertadamente inventou, como qualificativo *nec plus ultra*: a maromba. Marombar é fazer milagres de acrobacia no arame ou na corda bamba da politica degenerada, sem ideaes, sem norte, sem aspirações certas, sem programma definido, que por ahi se ostenta rotulada de politica da ordem ou conservadora.
O sr. Rodolpho Miranda sabe marombar a primôr. Quando o sr. Fonseca Hermes lhe deu um pontapé em todos os castellos, chamando cafagestica a essa memoravel convenção do excasino, hoje

CASO DO XARQUE

O juiz absolveu hontem Santerre Guimarães

Perante o juiz da 1ª vara federal, compareceu hontem a julgamento Pedro Santerre Guimarães, accusado de haver no dia 2 de dezembro de 1910 passado contrabando de 9.450 fardos de xarque, procedentes dos portos do sul, embarcados no vapor *Guarany*.

Aparou-se, então, que os documentos que acompanhavam a mercadoria, datados de 21 de novembro de 1910, de Paysandú, davam-n'a como originaria da xarqueada de São Paulo, com destino á Pernambuco e Sena Madureira.

Chegado o vapor, Santerre requereu o desembaraço dos fardos, como genero nacional.

Reputados falsos os documentos, foi processado e pronunciado, recorreu sem se apresentar á prisão, razão porque o Supremo Tribunal não tomou conhecimento do recurso.

Ao julgamento compareceu o accusado, tendo o procurador criminal lido o libello, apresentando o seu adjunto defesa escripta.

Os autos subiram á conclusão do dr. Raul Martins, que proferiu hontem a seguinte sentença:

"Pelo dr. Procurador Criminal da Republica é accusado Pedro Santerre Guimarães de haver dolosamente, por meio de papeis falsificados, introduzido no mercado sem o pagamento dos *direitos aduaneiros*, como producção nacional, 945 fardos de xarque estrangeiro que vieram no vapor "Guarany" de sua propriedade, na entrada em 2 de dezembro de 1910, no porto desta capital.

Do exame attento dos volumosos autos nenhuma certeza, porém, resulta de que tivesse, de facto, o réo usado dos referidos papeis com sciencia e consciencia de sua falsidade.

O xarque foi embarcado em Paysandú, pela firma Bandeira & Cia., acompanhado dos officios e guias da Alfandega de Sant'Anna do Livramento com as assignaturas reconhecidas pela competente autoridade consular brasileira, sem que haja a mais leve prova da sua intervenção directa ou indirecta em semelhante desvio.

Não tendo sido autenticada a firma dessa autoridade pela secretaria das Relações Exteriores, o réo, na simples qualidade de consignatario constituido aqui para venda da mercadoria em questão, recebeu os respectivos documentos a fim de um despachante, que nenhuma objecção offereceu e submetteu ao processo regular na Alfandega, onde, pelos funccionarios que os examinaram, inclusive o inspector, foram tambem tidos sem hesitação por bons e validos.

Só mais tarde, depois de vendido e retirado o xarque e por uma denuncia estrandia, é que pôde ser dada pela falsidade.

Não ha, por consequencia, como se concluir ter agido o réo dolosamente, sem um facto positivo, pela simples accusação e uso de taes papeis, desde que não era obrigado a conhecer as assignaturas ou letras dos funccionarios aduaneiros de Sant'Anna do Livramento, e nem lhe cabia ser mais precavido e suspeitoso do que a propria Alfandega do Rio de Janeiro, que não descobriu, em tempo, a falsidade, sobretudo quando, já por decisão passada em julgado, foram considerados de boa fé os compradores da mercadoria a quem a accusação imputará conluio com o réo, para a consummação do contrabando.

Apezar de requerido logo pelo réo, não quiz o ministro da Fazenda mandar proceder ao indispensavel inquerito em Sant'Anna do Livramento, donde provinham o xarque e os papeis, que o acompanhavam, para apuração do ponto mais importante da questão, a *investigação da autoria da falsidade* que parece ter tido logar dentro da propria repartição dahi, por causa da authenticidade dos respectivos carimbos, reconhecida pelo exame de fls. 233.

A propria presumpção de criminalidade resultante da retirada do réo para o estrangeiro, deixando correr o processo á revelia, que muito contribuiu para a sua pronuncia, sobre não poder, por si só, auttorizar a imposição da pena, desapparece deante dos attestados medicos de fls. que asseguram ter sido determinada por exigencia dos respectivos signatarios a viagem á Europa, á vista do grave estado de saude delle em maio de 1911, sendo assim ainda bem anterior á apresentação da denuncia, que só teve logar no dia 28 do mez seguinte, de junho.

Nestes termos, absolvo o réo Pedro Santerre Guimarães da accusação que lhe foi intentada e mando se passe em favor delle alvará de soltura, si por al não estiver preso, dando-se baixa na culpa."

O QUE VAE POR PORTUGAL

TENTATIVA CONTRA A VIDA DO DR. AFFONSO COSTA

Accrescentam os emigrados, no dizer do telegramma, que a policia de Lisboa, tem effectuado numerosas prisões em consequencia dessa descoberta.

COMEÇARAM OS EXERCICIOS MILITARES DAS ESCOLAS DE REPETIÇÃO.

Lisboa, 1 — (*Havas*) — Começaram hoje em todo o paiz e ilhas adjacentes os exercicios annuaes das escolas de repetição do Exercito.

As forças que tomam parte nos exercicios que se effectuam na região militar de que Lisboa é o centro, concentraram-se hoje na Rotunda da Avenida da Liberdade, local onde se iniciou a revolução que implantou o novo regimen politico de Portugal.

As tropas desfilaram pelas ruas mais centraes da cidade, no meio das mais enthusiasticas manifestações. Ao desfile assistiram o dr. Manoel d'Arriaga, presidente da Republica, e o dr. Affonso Costa, presidente do ministerio e ministro das finanças.

Tanto o chefe de Estado como o chefe do governo foram muito acclamados.

Na Rotunda teve logar depois a parada geral e revista pelo ministro da Guerra, com a assistencia do presidente da Republica e do chefe do governo.

As acclamações ao Exercito, á patria e á Republica foram constantes.

Depois da revista as tropas marcharam para os seus destinos, a iniciarem os exercicios, no effectivo de cinco mil homens de todas as armas.

OS BILHETES DO THEATRO MUNICIPAL

EXPLORAÇÃO DOS "CAMBISTAS"

Reclamam-nos contra a exploração na vendagem de bilhetes da companhia que hoje estreará no Theatro Municipal.

Hontem, o reclamante, que esteve nesta redacção, procurou comprar pelo preço da tabella de 7$000, na bilheteria do theatro, uma galeria de 1ª classe para o espectaculo de amanhã.

Os melhores logares tinham já sido vendidos, offerecendo o bilheteiro numeros que ficam em uma situação menos commoda. Ao mesmo tempo lembrou ao comprador poder elle obter fóra da bilheteria, nas mãos dos cambistas.

Effectivamente, varios negociadores de bilhetes offereceram-lhe as galerias de numeros bons, em grande quantidade, pelo preço de 10$000 cada uma.

No emtanto, na bilheteria do theatro só existiam bilhetes de topologia incommoda!

Faz-se mistér que se ponha côbro a essa exploração.

COMO SE FALSIFICA O DINHEIRO

Albino Mendes, o falsario nabilidoso, chefe da famosa quadrilha, não escapará desta vez

O relatorio do 2º delegado auxiliar

DR. FERREIRA DE ALMEIDA, 2º DELEGADO AUXILIAR

Está acabado o inquerito policial sobre o caso da quadrilha de moedeiros falsos.

Albino Mendes, preso ha poucos dias, em flagrante, processado e condemnado, teve a sua liberdade, devido ás boas graças do Catete.

O habil e intelligente falsario é o mesmo homem das notas falsas da fabrica do Meyer. Condemnado a [illegible] annos de prisão, segundo a lei n. [illegible] de 28 de novembro de 1907, modificada essa penalidade para a de 8, em virtude da reforma judiciaria de [illegible] setembro de 1909 e que fez baixar a tanto o grão medio da pena, [illegible] elle fôra condemnado, Albino Mendes teve a sua pena commutada para cinco annos de prisão, obtendo a liberdade em 6 de dezembro do anno passado.

Agora está elle de novo preso.

Conseguirá ainda desta vez a liberdade?

Hontem, o 2º delegado auxiliar redigiu os autos e enviou-os ao dr. Pires de Albuquerque, juiz da 2ª vara federal, que os fez com vistas ao procurador criminal.

E este o relatorio:

"Os *moedeiros falsos*, pela natureza do trabalho, pelas pessoas que [illegible] nosa industria lhes faz correr, têm necessidade de se [illegible] para mais facilmente [illegible] a justiça, offerecendo maior resistencia á acção da lei penal.

As constantes modificações dos typos de moeda legal, a vigilancia exercida pela policia, a desconfiança do publico, victima constante de falsarios, e a gravidade do delicto forçam a industria do dinheiro falso a tomar uma forma de criminalidade, com todos os caracteristicos de uma "societas delinquendi".

O fabricante de moeda falsa [illegible] mamente é o seu introductor; quasi sempre, uns fabricam a moeda, outros [illegible] immitem, vendendo-a a terceiros e outros se encarregam de pôl-a em circulação.

E' o que vemos nestes autos e a razão por que fizemos appensar os diversos flagrantes uns aos outros.

Só assim, o meritissimo julgador melhor poderá conhecer a posição de cada um dos criminosos no delicto de que tratamos.

O papel que cada um delles desempenhou, está nitidamente desenhado nestes autos.

Albino Mendes e Manoel de Oliveira, são os fabricantes; Manoel Barbosa ou Manoel Gonçalves de Oliveira, é emissor, introductor e fabricante; Carlos Lopes de Araujo, vendia a moeda falsa a terceiros, e Luiz da Costa Fraga, o comprador que a punha em circulação.

Os compradores, aquelles que adquiriam a moeda falsa de Manoel Barbosa ou Manoel Gonçalves de Oliveira, são muitos, e a maior parte não pequeno numero delles; não foi possivel, porem, obter provas contra elles, sendo que alguns residem em S. Paulo, outros em Santos e outros na Bahia.

Demais, é sabido que as investigações da policia, quasi sempre, só trazem em resultado a apprehensão do dinheiro encontrado em poder do emissor ou introductor, e isso porque o emissor ou introductor, quando preso, raramente denuncia seus cumplices.

E' assim que Manoel Barbosa ou Manoel Gonçalves de Oliveira, se negou tenazmente a prestar quaesquer declarações, e os outros accusados presos com a prova material do delicto, a ninguem accusam.

Esse silencio, a astucia e habilidade dos falsarios são as causas de ficarem impunes muitos delles.

. . . . . .

Examinemos a prova existente contra cada um dos accusados, começando pelos fabricantes — Albino Mendes e [illegible] le Oliveira ou Manoel José de Oliveira.

A Manoel de Oliveira foi lavrado auto de prisão em flagrante, pelos crimes previstos nos artigos 15 e 18 da lei n. 2.110, de 30 de setembro de 1909.

De facto, na casa da rua Barão n. 90, em Jacarépaguá, foi encontrada a fabrica de notas e sellos falsos, como tudo consta do auto de apprehensão de fl. a fls. e das photographias de fls., sendo na occasião preso na mesma casa o morador della Manoel de Oliveira.

A fabrica estava em plena producção, como se deduz dos objectos apprehendidos: machina, prensas, clichés, papel pergaminho, acidos e notas de diversos valores, desde a primeira phase da fabricação até a ultima.

No auto de prisão em flagrante depuzeram seis testemunhas contestes.

Ha mais os depoimentos dos dois empregados da casa da rua Barão n. 90, onde estava montada a fabrica, que provam a criminalidade dos dois fabricantes — Manoel de Oliveira e Albino Mendes, este conhecido pelos criados pelo nome de Mario Medeiros.

Os depoimentos dos proprios fabricantes Oliveira e Albino tornam certa a sociedade entre elles, para a fabricação de moeda.

Ha ainda os depoimentos de Carlos Lopes de Araujo, de Maria de Araujo, de Alfredo Augusto Fernandes e de Luiz Augusto dos Santos, que vêm reforçar a prova da criminalidade de Albino Mendes, que é um reincidente no crime; e, como não tenha sido elle preso em flagrante, represento ao mm. juiz sobre a urgente necessidade de ser decretada a sua prisão preventiva.

Contra o emissor o agente geral da fabrica, Manoel Barbosa ou Manoel Gonçalves de Oliveira, ha o auto de prisão em flagrante (fls.), pelo crime previsto no artigo da lei n. 2.110, de 30 de setembro de 1909.

A fls., encontra-se o auto de apprehensão de 883 cedulas de dez mil réis do Thesouro Nacional, e uma da Caixa de Amortização e de Conversão, de reconhecidas falsas.

Foram tambem submettidos a exame os sellos e estampilhas apprehendidos na fabrica e reconhecidos falsos, com excepção dos da taxa de 20 réis, que são verdadeiros.

Os machinismos, prensas, chapas, clichés, acidos, tintas e papel apprehendidos [illegible] na fabrica, foram reconhecidos pelos peritos como proprios para a fabricação de notas.

O papel apprehendido em casa de Carlos Gomes de Araujo, segundo affirmam, [illegible] para fabrico de notas [illegible] especial [illegible] que foi apprehendido na fabrica, [illegible] estar completa a prova [illegible] casas [illegible] dos accusados.

[illegible] autos ao Mm. Juiz substituto federal, feitas as devidas communicações e registros. — Rio de Janeiro, 31 de agosto de 1913. — (Assignado) *Francisco Ferreira d'Almeida.*"

S. Paulo, 1 — (*Agencia Americana*) — A policia da cidade de Santos continua as diligencias para a captura de Francisco Real, membro da quadrilha de moedeiros falsos, descoberta ultimamente nessa capital.

As diligencias estão bem encaminhadas, esperando a autoridade incumbida desse serviço prendel-o amanhã.

Mandamos com vista ao sr. director dos Correios mais uma reclamação justissima: é reclamante o dr. Francisco de Paula Valladares, residente na rua Leite Leal, 7. Este cavalheiro é assignante de varias revistas scientificas e literarias, da Europa. Apezar de que as remessas lhe são feitas com toda a normalidade, o Correio daqui encarrega-se de as estragar quando não as desvia do seu destino. Hontem vimos um maço de revistas com os rotulos perfeitamente estarrapados, e as capas das brochuras estragadas.

Contou-nos o dr. Valladares que quando se trata de revistas literarias, caras, bem illustradas, é sabido que em prejuizo certo, porque ellas desapparecem da Repartição do Correio nesta capital.

A reclamação do dr. Valladares é identica a muitas outras que temos recebido, e todas ellas indicam que se faz mister uma providencia rapida e severa da direcção do nosso serviço postal.

NA CAMARA

OS DEPUTADOS POUCO TRABALHARAM HONTEM

A sessão de hontem da Camara foi presidida pelo sr. Soares dos Santos, [illegible] secretariado pelos srs. Pereira Gobbi e Joaquim Osorio, sendo lido e posto em discussão, sem debate, o expediente.

Foi publicado o manifesto de d. Luiz de Orleans.

No expediente, o sr. Aurelio Amorim, depois de justificar a ausencia do sr. Antonio Nogueira, fez um ligeiro discurso, defendendo o sr. Jose Pedrosa, para s. ex., incapaz de um acto censuravel.

O deputado amazonense terminou lendo o seguinte telegramma, que lhe enviára o governador do seu Estado:

"Confirmo sob o penhor da minha palavra de honra que um [illegible] to não foi praticado em [illegible] ção da policia, levada a effeito no dia 7 de junho.

[illegible] não desbonraria por [illegible] o meu passado, nem o general [illegible] do Brazil [illegible] le do glorioso exercito [illegible] cando actos que avultaria a civilização brazileira.

As accusações do senador Rui Barbosa no seu discurso do hontem, são absolutamente infundadas."

O sr. Dias de Barros fez o elogio funebre do sr. Guimercindo [illegible], ex-deputado federal, fallecido [illegible] em Sergipe.

Depois de pedir a insercção na acta de um voto de pezar, o que foi pela Camara approvou, apresentou um projecto de lei concedendo a pensão de 300$000 á viuva e filhos do extincto.

O sr. Moreira Guimarães, em nome da bancada [illegible], apresentou o projecto [illegible] apresentado pelo sr. Dias de Barros.

Na ordem do dia, annunciada a presença de 113 deputados, foram approvadas algumas redacções finaes.

Logo que foi conhecido o voto da Camara sobre o primeiro projecto da ordem do dia, autorizando o governo a arbitrar e mandar pagar por conta da verba orçamentaria de 400:000$000 para a installação de novas colonias agricolas de alienados, ao dr. Plinio Olympio, o auxilio a que tem direito para aluguel de casa, o sr. Pedro Moacyr pediu verificação.

Não havia numero.

Feita a chamada apenas responderam 63 deputados.

Foram encerradas as discussões dos projectos constantes da ordem do dia.

Proseguiram hontem as diligencias para a captura dos membros que compõem a quadrilha de falsarios

A' esquerda: as autoridades policiaes e Albino Mendes, na casa da rua do Barão n. 90, onde foi apprehendido o machinismo para a fabricação de notas e sellos falsos.
A' direita: o «atelier» da fabrica de Albino Mendes.

A policia, hontem, proseguiu nas diligencias que vinha desde a vespera fazendo, para a captura de varios membros da grande quadrilha de falsarios, da qual, actualmente, já se acham presos varios membros e o seu chefe.

O dia de hontem foi quasi todo tomado para diligencias, sem que fosse conseguido resultado digno de nota.

Os 2º e 3º delegados auxiliares, drs. Ferreira de Almeida e Reynaldo de Carvalho, não descansaram; e, a cada denuncia ou indicação, que conseguiam arrancar dos detentos, corriam para o local, em diligencias, sem que pudessem chegar ao resultado desejado.

ALBINO MENDES TENTOU FUGIR DA PRISÃO, PORÉM, CAHIU E LUXOU O PE ESQUERDO

O chefe da quadrilha dos falsarios, Albino Mendes, é um typo assás intelligente, e não perde um só momento para tirar partido da calma que possue.

Os velhos policiaes, que bem o conhecem, quando em sua guarda, não o deixam em paz, temendo uma partida.

Hontem, pela madrugada, Albino Mendes vendo que o seu detentor era um policial ainda pouco traquejado, machinou um plano de fuga o qual pouco depois punha em pratica, com tantas vantagens, que só devido á fatalidade não conseguiu elle estar a estas horas bem longe daqui.

A's 3 horas da manhã, Albino Mendes pediu ao policial que o guardava para que o deixasse ir beber agua. O agente, não conhecendo Albino, acquiesceu ao pedido e mandou que o falsario fosse á 3ª delegacia, sala do delegado. Era, justamente, o que o chefe da quadrilha desejava.

Chegando á sala do 3º delegado auxiliar, Albino Mendes tomou de uma corda que ali se achava, a qual servia para separar as esteirinhas das janellas, e, amarrando-a ao peitoril da janella, desceu para a rua, muito calmamente.

O guarda, porém, estranhando a sua demora foi á sala, afim de vêr o que se passava, e teve grande surpreza de vêr que ali não se achava o preso, e que uma das janellas estava aberta. O agente correu a ella e viu que o chefe dos moedeiros falsos havia fugido pela corda.

Incontinenti, sem dar alarma, o agente desceu as escadas e foi esperal-o na sua passagem pela porta.

Neste tempo, a corda que Albino Mendes descia partiu-se e elle, cahindo, recebeu luxação do pé esquerdo.

Mesmo assim, Albino deitou a correr rua afóra, sendo, na sua fuga, perseguido por varios agentes e guardas civis, que só o conseguiram prender na Villa Ruy Barbosa, e, assim mesmo, devido á contusão que o falsario recebera.

Preso, foi elle novamente trazido para a 3ª delegacia auxiliar, onde foi soccorrido pela Assistencia.

A POLICIA FAZ NOVAS DILIGENCIAS, SEM RESULTADOS

A cada declaração dos accusados, annunciando varios pontos onde a policia podia encontrar dinheiro falso, as autoridades policiaes corriam ao local, sem nada, entretanto, encontrarem.

Assim, as casas das ruas José Hygino e Senador Euzebio, onde na vespera a policia havia dado cerco, foram novamente visitadas, sem o resultado preciso.

OS CRIADOS DE ALBINO MENDES INTERROGADOS

A policia, na busca que deu á rua do Barão n. 90, na Praça Secca, em Jacarépaguá, onde funccionava a fabrica da firma Albino Mendes, deteve um casal de empregados.

São elles Eduardo de Souza e Isabel de Carvalho. Os dois empregados, levados para a delegacia, foram cuidadosamente interrogados pelo dr. Ferreira de Almeida, o qual nada conseguio arrancar.

Os dois empregados, em suas declarações, disseram que ha muito vinham estranhando os habitos da casa, pois ali só se falava em confidencias e que o quarto que se achava fechado tambem lhes causara certo mysterio.

Um outro facto que tambem os impressionava, era que, diariamente, á noite, Isabel, antes de recolher-se, limpava cuidadosamente o fogão, e que, pela manhã, ao se levantar, encontrava-o sujo, cheio de papel queimado, e pelo assoalho, pequenas fogueiras, já com os papeis bastante consumidos.

A Camara escura da fabrica de notas falsas da rua Barão n. 90, em Jacarépaguá

Por mais de uma vez, como elles empregados, para verem se apanhavam algo do que ali se passava, faziam ver que o seu patrão muito trabalhava durante a noite, elle, Albino Mendes, dizia que vinha estudando um novo processo de photographia, e não poucas vezes lhes apresentou provas de vistas por elle tiradas.

UM DOS CUMPLICES DE ALBINO MENDES APRESENTOU-SE HONTEM AO 2º DELEGADO AUXILIAR.

Seria 1 hora e pouco da tarde; a 2ª delegacia auxiliar estava entregue ao borborinho dos grandes dias de movimento.

A todo instante entravam e sahiam agentes, guardas civis, delegados e a reportagem ávida de informações, quando ali appareceu um individuo alto, de cabellos alourados, tez clara e regularmente vestido.

Logo á entrada, o individuo dirigiu-se a um guarda civil, e, em tom amavel, perguntou:

— O dr. Ferreira de Almeida está?

— Sim, senhor, respondeu-lhe o guarda. Desejava alguma coisa?

— Um pequeno favor: queria que lhe levasse o meu cartãozinho, pois necessidade urgente tenho em falar-lhe.

Acto continuo, tirou do bolso uma carteira, e della pequeno cartão de visita, e dobrando-lhe uma das pontas, entregou-o ao guarda civil.

Este, pouco indiscreto, levou-o ao dr. Ferreira de Almeida, que nessa occasião se achava rodeado da reportagem, e, ao ler o bilhete de visita, vendo o nome Luiz Augusto dos Santos, mandou que o fizesse entrar para o cartorio.

A physionomia do dr. Ferreira de Almeida denunciou alguma coisa importante e a reportagem não mais o abandonou.

Elle, procurando habeis "trucs", para evitar a perturbação que tivera e fugir á indiscreção dos reporters, não evitou.

Em dado momento, s. s. levantou-se e pretextou urgencia em falar ao escrivão Macedo.

Os reporters mediram-n'o de alto a baixo, e deixaram-n'o sahir.

O cartão, porém, ficára sobre a mesa e nelle se lia o nome do falsario, que, segundo declarações de Albino Mendes, se encontrava em Guarujá, fazendo uso dos banhos de mar.

Ao voltar, foi o dr. Ferreira de Almeida interrogado, e confessou que ali se achava Luiz Santos, um dos cumplices de Albino Mendes.

Luiz Santos, que é um habil linotypista, ha pouco servia na "Folha do Dia", e ali occupava o primeiro posto.

Ficou logo incommunicavel, sendo mais tarde, inquerido em segredo de justiça.

A MULHER DE UM DOS QUADRILHEIROS TENTA CONTRA A EXISTENCIA

Em um dos cercos dados na casa de rua Senador Euzebio n. 57, a policia prendeu Carlos Lopes de Araujo e sua esposa Maria de Araujo, que foram logo levados para a policia central e postos incommunicaveis.

Maria de Araujo sabe de todo o segredo da quadrilha e foi interrogada insistentemente, nada dizendo á policia.

Hontem, pela manhã, com o fim de tirar proveito, Maria Araujo architectou o plano de se tornar doida e entrou a fingir.

O plano, porém, não surtiu effeito e como recompensa foi mandada levar para a 2ª delegacia auxiliar, onde foi interrogada e depois recolhida ao xadrez.

Ao passar por um dos corredores onde se acha um deposito de latas de creolina que são applicadas na desifecção dos W. C., ella teve logo a idéa de suicidio, e, depois de ser recolhida ao xadrez, pediu para ir ao W. C. e ao passar pelo compartimento onde estavam as latas de creolina, burlando a vigilancia do seu detentor, lançou mão de uma lata, que continha um litro de creolina e ingeriu grande parte do corrosivo.

Pouco depois o guarda foi encontral-a cahida ao solo tendo ao seu lado a lata de creolina.

Para soccorrel-a foi chamada a Assistencia, que promptamente compareceu, tendo o dr. Leclaire medicado a mulher de Carlos Lopes de Araujo, que ainda mesmo tendo vomitado grande parte do liquido, ficou em estado grave, sendo removida para a Santa Casa.

A POLICIA FAZ DILIGENCIAS EM S. PAULO

Tendo a nossa policia conseguido prender varios membros da quadrilha de moedeiros falsos, que seguiam a orientação de Albino Mendes pelas declarações dos presos, encontrou indicios de que a mesma tem ramificações pelos deversos Estados do Brasil, com especialidade no de S. Paulo.

Assim, a nossa policia enviou a esse Estado, varios agentes para effectuarem a prisão de Francisco Augusto Real, dono do café da rua Santo Antonio 59, em Santos, e bem assim de uma artista hespanhola, que se acha naquella cidade.

NA PRAÇA SECCA — O DINHEIRO FALSO

Ha muito que na praça Secca, vinha apparecendo grande quantidade de dinheiro falso, tanto assim que os negociantes daquella localidade antes de receberem qualquer importancia, examinavam as cedulas meticulosamente.

Ante o apparecimento de tanto dinheiro falso naquella redondeza, os negociantes e moradores desconfiavam de um sapateiro ali estabelecido, em poder de quem algumas vezes foram encontrados varias cedulas falsas.

Logo depois da policia ter dado a busca na casa da rua Barão n. 90, varios boatos fervilharam contra o referido sapateiro, que até agora continúa em liberdade.

OS INTERROGATORIOS DE HONTEM

Durante o dia de hontem, o dr. Ferreira de Almeida conservou-se em custo dia, interrogando todos os falsarios presos.

Emquanto isso se passava, o dr. Reynaldo de Carvalho, 3º delegado auxiliar, procedia as diligencias, que o caso requer de accôrdo com as provas que vae arrancando das confissões dos accusados.

Ao que se presume, a policia já tem em seus dominios indicios bastantes para em pouco ter sab a guarda os principaes passadores de dinheiro falso, que trabalham junto a firma Albino Mendes.

A MULHER DE ALBINO MENDES TAMBEM PASSA DINHEIRO FALSO

Não só Albino Mendes trabalha na passagem do dinheiro por elle fabricado.

Sua esposa, que se encontra actualmente na cidade de Porto, em Portugal, trabalha na passagem das cedulas falsas, e ao que consta á policia, naquella cidade está tambem installada uma fabrica, que é succursal da descoberta na rua Barão.

AS DILIGENCIAS

Durante a noite de hontem e madrugada de hoje, a policia emprehendeu varias diligencias, das quaes espera resultados satisfactorios, para apprehensão de grande quantidade de dinheiro prompto para a circulação.

UMA RUMA DE CARTAS

A policia tem em seu poder para mais de mil cartas, todas ellas correspondencia para compra e venda de dinheiro falso.

Nestas cartas estão envolvidos varios nomes de destaque na sociedade.

Estas missivas estão sendo separadas para em breve serem intimados os subscriptores das mesmas.

O «Workman»... navio fantasma!

Encalhado, abalroado, incendiado, resiste e vae victimando pouco a pouco os seus heroicos marinheiros

Mais um que é encontrado morto em Guaratiba

Já muito tem dado que falar aos jornaes o tragico vapor cargueiro "Workman", que ha tempos encalhou em frente á barra da Tijuca, nas proximidades de Guaratiba, ficando bastante avariado e perdendo grande parte da carga.

Dias depois de encalhado, quando o commandante com a respectiva guarnição trabalhava, empregando todos os meios para fazer safar o fatidico vapor, foi presa das chammas, que destruiram o convéz na parte da pròa e perecendo um marinheiro.

A dolorosa historia do "Workman" não terminou ahi, sendo ainda, por occasião da ultima resaca, atirado de encontro ás rochas, e ficando com o casco em pedaços, sendo dois homens da guarnição tragados pelas ondas, como já tivemos occasião de noticiar.

Restos da náo ainda fluctuam na praia de Guaratiba, e, de vez em quando, os cadaveres dão á costa, quasi devorados pelos corvos.

Ante-hontem, lá appareceu o cadaver de uma das duas infelizes victimas da ultima resaca.

O delegado do 26º districto, dr. Olavo Continentino, partirá hoje, ás 4 horas da madrugada, acompanhado de um medico legista e outro da hygiene, escrivão, reporters e uma turma de empregados da Saude Publica, afim de procederem á autopsia do cadaver que deu á costa, e ao seu enterramento.

A Policia Maritima fornecerá uma lancha para as diligencias.

O tufão em Santa Catharina

Um radio-telegramma dos passageiros do «Jupiter»

De bordo do paquete «Jupiter», navegando na altura de Lagoas, em Santa Catharina, recebemos hontem o seguinte radiogramma:

«Bordo do «Jupiter», 25, ás 9 horas e 40 minutos da noite — Passageiros do «Jupiter», navegando á feição do vento em rumo a Florianopolis e a 92 milhas do cabo de Santa Martha, ainda sob a vivissima emoção da colossal catastrophe a que mais de trezentas vidas estiveram expostas, levamos ao conhecimento do espirito catholico do povo brasileiro o grande milagre da nossa salvação.

Commandante Costa Mendes

Havia já vinte e quatro horas que o navio vinha enfrentando o mais violento pampeiro de que ha noticia na costa do sul.

A' altura de Tramandahy (Rio Grande do Sul), ás 1 horas da tarde de hontem, o valoroso commandante, capitão de mar e guerra Costa Mendes, tentava em vão, durante duas horas já, empregando herculeos esforços e a sua elevada competencia, com uma calma admiravel, retroceder deante do violento tufão que soprava com a velocidade de 65 metros por minuto e contra montanhas de ondas que se desencadeavam sob o navio, attingindo a casa do commando.

As machinas estavam avariadas e o leme não cedia a força nenhuma.

O panico dominava os passageiros, assim que a maioria delles já andava com os salva-vidas ajustados, e os seus gritos lamentosos confundiam-se em uma harmonia horrorosa com o estalar das juntas do navio e com a queda fragorosa dos utensilios de bordo.

Nessa hora sinistra de desespero e de dôr, os passageiros, com as suas familias reunidas no salão de refeições, implorando confiados a protecção de Maria Santissima e deante de uma pequena imagem do seu Sacratissimo Coração.

Depois de varias preces e no momento preciso em que um dos signaleiros acabava de communicar que todos ali reunidos haviam feito promessa de uma missa em acção de graças pela salvação de todos, de subito, com espanto geral, o navio para por momentos os seus torvelinhos violentissimos e o seu valoroso commandante consegue por uma manobra admiravel, com a admiração da propria officialidade, arrancar o navio da catastrophe imminente, volvendo ao rumo norte, ficando para traz o terrivel tufão.

Este estranho milagre do Sacratissimo Coração de Maria, nós o constatámos. Juramos, salvos e salvos, profundamente emocionados pela mysteriosa grandeza divina, ao grande commandante, ao marinheiro competentissimo, intrepido homem do mar e homem de fé inarredoura, gratidão nossa, das nossas familias.

A' sua nobre classe, a Marinha nacional e á direcção do Lloyd Brasileiro, nos apontamos o intrepido capitão de mar e guerra Costa Mendes como sendo a mais viva encarnação do merito profissional e de coragem, dignos de louvores dos poderes publicos da nação.

Viva o Sacratissimo Coração de Maria!—Os passageiros do «Jupiter».

APROPRIAÇÃO INDEBITA

Um individuo empenha uma joia que outro lhe dera para guardar

Prescripção da acção penal

Adriano Rodrigues Pinheiro tinha sido accusado de se ter indevidamente apropriado de um par de brichas do valor de 500$000, empenhando-o sem o consentimento do seu dono Lino Pires Vaz, que o havia entregue ao primeiro com obrigação de o restituir.

Pronunciado e offerecido o libello, allegou Adriano Pinheiro na contrariedade que de facto havia recebido de Lino Pires aquella joia, tendo-a empenhado na casa Luiz Leite & C. em 16 de novembro de 1910 e entregue depois a Lino a respectiva cautela e que este fôra o fim para que lhe dera Adriano a referida joia.

Tal não affirmaram, entretanto, as testemunhas arroladas pelo réo na contrariedade ao libello, sendo uma dellas aliás suspeita por ser empregado na casa de penhores onde fôra empenhada a joia.

Dessas testemunhas uma nada sabia dos factos allegados por Adriano na referida contrariedade e as outras duas nada disseram tambem sobre a cautela que o mesmo affirmara ter entregue ao dono da joia, tendo apenas uma unica dessas testemunhas affirmado ter Adriano recebido a joia de Lino, autorisando-o este a ficar com a importancia constante da cautela.

Além d'isso, as declarações dessas testemunhas da defesa não estavam corroboradas por nenhum outro elemento de prova valioso, não podendo assim demonstrarem por si sós os factos a que se referiam.

Pelos depoimentos das testemunhas de accusação, ao contrario, auto de apprehensão e outras peças do processo ficara apurado o crime por que respondia Adriano.

Militando em favor d'este a circumstancia attenuante do bom comportamento anterior e não havendo nenhuma aggravante, deveria o mesmo ser condemnado a 6 mezes de prisão, grão minimo do artigo 330, paragrapho 4, combinado com artigo 331 n. 2. (crime de furto sob a figura de apropriação indebita).

A infacção, porém, fôra commettida em novembro de 1910 e a pronuncia proferida em 8 de junho de 1912, isto é, mais de um anno depois de praticado o delicto.

Determinado o codigo penal que a acção criminal, em se tratando de delicto cuja pena não excede de 6 mezes, prescreve em um anno, só se podendo interromper pela pronuncia ou pela reincidencia, e attendendo o juiz da 4ª vara criminal, Dr. Cesario da Silva Pereira, pelo juizo da qual correra o processo, a que o nosso estatuto penal é omisso em relação á pena que se deve ter, em vista ao se ter de regular o prazo da prescripção da acção, não se sabendo assim si se refere ao maximo, ao medio, ao minimo, ao submedio ou ao subminimo; ponderando, porém, que, segundo a doutrina preferida, a pena em questão não deve ser a abstractamente considerada no Codigo, corerspondente á classificação do delicto, mas á pena concreta applicavel na especie ao delinquente, no caso vertente 6 mezes de prisão, e que o réo fôra pronunciado mais de um anno após o crime, julgou o juiz prescripta a acção penal, para ficar a mesma em perpetuo silencio.

O MARTYRIO DE UMA MENINA

A policia do 14º districto prende os accusados

No primeiro andar do predio n. 29 da rua Santa Anna, reside Frederico Caetano, em cuja companhia vivem sua irmã Filomena e mais uma menor de nome Hilda, filha do primeiro.

Hilda é uma franzina menina de 11 annos de edade que, não obstante ser filha de Caetano, é horrivelmente maltratada pela sua tia Filomena.

O seu aspecto faz pena. Extremamente magra, com o corpo cheio de ecchymoses, a infeliz menor, de tantas barbarias de que tem sido victima já se torna indifferente a tudo e a todos, parecendo mais uma demente que uma creatura normal.

Não só Filomena era a algoz da desgraçada Hilda. O proprio pae sendo malvada e constantemente por vezes sem a menor razão, espancava-a com brutalidade revoltante.

Os gritos da pequena martyr eram por isso ouvidos a toda hora pelos vizinhos.

Condoidos justamente pela sua sorte foi que os moradores da loja da mesma casa, Rosa del Giudice e Carlos del Giudice e os do predio contiguo, n. 27, Emilio Theodorico Rodrigues e Luiz Ventura Rodrigues resolveram conjuntamente dar queixa á policia daquillo que achavam constituir uma barbaridade inqualificavel.

Procuraram então o dr. Edgard Pahl, a quem relataram minuciosamente o que acima ficou dito.

Essa autoridade incontinente transportou-se á casa de Frederico Caetano, onde apprehendeu a menor mal tratada, intimando a compareceerem á delegacia para explicações, o pae e a tia carrascos.

Na delegacia constatou o delegado o estado lastimavel em que se encontrava a pobre Hilda — prova forte da accusação que pesava sobre os desalmados.

Ambos foram então recolhidos ao xadrez, estando a policia do 14º districto procedendo contra Caetano e Filomena.

Os intendentes da Argentina que visitam o Brasil são festivamente recebidos em S. Paulo

S. PAULO, 26 (A. A.)—Em carro special ligado ao nocturno de luxo de hoje, chegou a esta capital a delegação de intendentes argentinos.

Na estação da Luz achavam-se ás 9 horas da manhã os srs. Raymundo Duprat, prefeito municipal, Luiz Tavares, Plinio Ramos e Mello Franco, da commissão municipal muitos outros vereadores, os representantes do governo, da imprensa e da Agencia America a.

Uma enorme massa popular espalhava-se por todos os arredores da estação, difficultando o transito pelas ruas Mauá, Brigadeiro Tobias e Florencio de Abreu.

A' parada do comboio a banda da Força Policial executou o hymno argentino, que foi ouvido por todos, respeitosamente, de cabeça descoberta.

Os intendentes, acompanhados dos membros da commissão de recepção, e de muitas outras pessoas gradas, tomaram differentes automoveis e se dirigiram a Rotisserie Sportman.

Ao meio-dia realisou-se um almoço solemne no qual tomaram parte além dos vereadores, representantes do governo, da imprensa e da politica em geral.

Ao «dessert» o sr. Luiz Tavares pediu a palavra, brindando em termos opportunos, os seus collegas argentinos.

A's 2 horas da tarde, os illustres visitantes, em automoveis cedidos á sua disposição pel[a Municipalidade], dirigiram-se ao cemiterio da Consolação, onde foram depositar coroas sobre o tumulo do saudoso e pranteado general Campos Salles.

Em nome da familia do illustre extincto, agradeceu, em termos commovidos o senador Luiz Piza.

A's quatro horas da tarde dirigiu-se a commissão de intendentes argentinos á Camara Municipal, onde se realizou uma sessão solemne.

For essa occasião foram trocadas expressões amistosas e de agradecimento, por parte dos distinctos visitantes.

Devido a pouco tempo que dispõem os srs. intendentes argentinos, o programma das festas, que era longo, teve de ser modificado, não se realizando varias outras visitas que estavam marcadas.

Amanhã, pelo trem de 8 horas da manhã, devem os illustres hospedes seguir para Santos, de onde, depois de curta demora, se dirigirão á praia de Guarujá, devendo no mesmo dia, pelo trem de 5 1/2 da tarde, estar de volta a São Paulo.

A's 9 horas da noite deverão tomar o nocturno de luxo, com destino a essa capital.

S. PAULO, 26 (A.A.) — Uma commissão composta do presidente, secretario e commissão de redacção do Centro Academico «Onze de Agosto», esteve hoje na Rotisserie Sportman, onde foi convidar os srs. intendentes argentinos para visitarem a Faculdade de Direito.

E, porém, provavel que essa visita não se realize, devido á curta demora dos visitantes.

— No cemiterio da Consolação, no acto da collocação das coroas offerecidas pelos intendentes argentinos, no tumulo de ...

pos Salles, falaram o dr. Henrique Palacios, presidente da delegação argentina, vereador ... Junior e o senador Luiz Piza, agradecendo em nome da familia do pranteado finado.

Após essa cerimonia, os intendentes argentinos percorreram, em automoveis, varios arrabaldes da cidade, deixando cartões de visita na residencia da familia do ex-presidente da Republica.

— Na sessão solemne da Camara Municipal saudou os visitantes em nome da mesma corporação o vereador dr. Alcantara Machado, respondendo em agradecimento o dr. Henrique Palacios.

— A' noite realizou-se um jantar no "Bar" do theatro Municipal, que apresentava lindo aspecto, sendo trocados cordialissimos brindes.

Em seguida os nossos visitantes assistiram ao espectaculo do theatro Municipal, em sua homenagem, sendo representada a "Maison en ordre", de A. Pinero, pela Companhia dirigida por mme. Marthe Regnier.

— Amanhã, de volta do Guarujá, assistirão os nossos illustres hospedes a uma festa que lhes é offerecida no Jardim da Luz.

Hontem, no Senado, antes de ser posto em discussão o requerimento que, na sessão anterior, o sr. Muniz Freire enviára á Mesa, pedindo a nomeação de uma commissão de cinco senadores e seis deputados, para tratar da elaboração de um projecto de reforma eleitoral que seja a synthese dos projectos já approvados pelo Senado, em primeira discussão, o sr. Francisco Glycerio pediu a palavra, afim de apurar se este requerimento se referia apenas aos projectos de s. ex. e do illustre senador espirito-santense, apresentados, respectivamente, em 1909 e 1910, ou se permittia áquella commissão mixta reter, estudar, substituir e aproveitar as bases principaes de todos os projectos relativos ao assumpto.

Os srs. Pinheiro Machado e Muniz Freire informaram ao nobre orador que se tratava de uma autorização ampla.

O sr. Francisco Glycerio deu-se por satisfeito e o requerimento do sr. Muniz Freire foi approvado, unanimemente.

A Mesa do Senado vae envial-o á Camara e, depois de approvado por essa Casa do Congresso, nomeará a commissão de senadores, requerida pelo sr. Muniz Freire

Depois de levantada a sessão, o sr. Pinheiro Machado entreteve animada palestra com este senador, a respeito das idéas expendidas por s. ex. em seus dois vibrantes e ponderados discursos sobre a nossa situação politica e a reforma eleitoral, de que tanto carecemos.

Na opinião do chefe do P. R. C., o projecto do sr. Muniz Freire é moroso, contraditorio e anti-liberal. Contraditorio... porque, em principio, defende o processo da votação secreta e, secundariamente, tambem admitte que votem a descoberto os eleitores que indicarem os candidatos. Anti-liberal porque... prohibe que os outros eleitores, mesmo contra a sua vontade expressa, votem a descoberto.

Senado

A sessão de hontem foi presidida pelo sr. Pinheiro Machado, servindo de secretarios os srs. Ferreira Chaves, Araujo Góes e Pedro Borges.

O expediente careceu de importancia.

Passando-se á ordem do dia, além do requerimento do sr. Muniz Freire, conforme acima noticiamos, foram approvados, em segunda discussão, o parecer das commissões de Marinha e Guerra e de Finanças, opinando pelo indeferimento do requerimento em que o 1º tenente honorario da Armada Luiz Lemelle solicita reversão ao serviço activo, sem direito aos vencimentos atrazados; o parecer da commissão de Finanças, negando o credito de 10:000$ para occorrer ás despezas decorrentes dos serviços de immigração e colonização; a proposição autorizando a abertura ao ministerio da Guerra do credito especial de 2:000$, para pagamento a dd. Philomena Maria da Conceição e Francisca Maria de Siqueira, de accordo com o art. 50, paragrapho 2º, do regulamento da Fabrica de Polvora sem Fumaça; e o parecer da commissão de Finanças contrario á proposição que torna extensivas aos patrões dos escaleres das fortalezas do ministerio da Guerra as vantagens que tem o pessoal da mesma categoria ao serviço da administração da Guerra.

A politica do sr. Pinheiro Machado em S. Paulo

O sr. Pinheiro Machado aconselhou aos seus amigos, em S. Paulo, não concorrerem ás ultimas eleições que, ali, se realizaram.

Agora, temendo os odios do sr. Rodolpho de Miranda, acaba de dar cabal desmentido, como é de seu costume, a essa noticia que não mais aproveita aos seus manejos politicos.

Eis o que, a esse respeito, no dia 24 do corrente, publicou o *Jornal de Santos*:

"Tem sido muito commentado nas rodas politicas a affirmação de que o dr. Oliveira Machado escreveu a um chefe politico daqui, de grande prestigio, dizendo que o general Pinheiro Machado aconselhava abstenção no ultimo pleito eleitoral.

Podemos agora affirmar que, comquanto o sr. dr. Oliveira Machado seja secretario do general Pinheiro Machado, agiu em nome de sua ex., porém sem autorização."

As candidaturas Ruy-Ellis, em Minas Geraes

BELLO HORIZONTE, 27 — Os drs. Bernardino Lima, Vianna Romanelli, Alcides Baptista, Mario de Lima, coronel Joaquim Severiano e outros trabalham activamente para organização do Partido Republicano Liberal Mineiro.

Reina grande enthusiasmo em todo Estado pelas candidaturas Ruy-Ellis.

Wenceslão Braz será estrondosamente derrotado em todo Estado.

O sr. Francisco Salles, que se acha aqui, mostra-se contrariado com a candidatura Wenceslão. Os amigos daquelle deprimem a candidatura do solitario de Itapubá.

BELLO HORIZONTE, 27 — No proximo domingo haverá aqui um grande *meeting* em pról das candidaturas dos eminentes brasileiros Ruy Barbosa e Alfredo Ellis.

Na praça da Estação falará o dr. Campos do Amaral e na rua dos Caethés, em frente ao palacete do coronel José Benjamin, falará o dr. Francisco Luiz de Campos.

De uma das janellas do Grande Hotel falarão os drs. Aurelio Pires, Vianna Romanelli e Alcides Baptista.

BELLO HORIZONTE, 27 — Sabe-se aqui que o conselheiro Ruy Barbosa visitará Minas, acompanhado dos drs. Alfredo Ellis, Barbosa Lima, José Marcellino, Muniz Freire e Leopoldo de Bulhões.

Preparam-se grandes festas para recepção dos eminentes brasileiros. Vão ser preparados aposentos em um palacete de conhecido capitalista desta capital.

Uma grande commissão irá á Serraria, fronteira de Minas, ao encontro dos illustres hospedes.

Serão convidados civilistas de todos os municipios do Estado para tomar parte nos festejos.

Será offerecido um banquete de 200 talheres ao dr. Ruy Barbosa.

Haverá apenas tres brindes: um do dr. Duarte de Abreu, em nome de Minas, ao dr. Ruy Barbosa e deste agradecendo. O brinde de honra será levantado pelo dr. Bernardino Lima ao glorioso Estado da Bahia, berço de Ruy Barbosa.

Serão ornamentadas todas as ruas por onde deverá passar o prestito e em diversos pontos serão collocados escudos com os nomes de: Ruy Barbosa, Alfredo Ellis, Estados de S. Paulo, Josino de Araujo, Francisco Veiga e muitos outros.

Camara dos Deputados

Presidencia do sr. Sabino Barroso.

A' hora regimental, com a presença de 72 srs. deputados, abre-se a sessão e passa-se á leitura da acta, falando sobre ella o sr. Fonseca Hermes, que diz:

Ferido rudemente em seus sentimentos affectivos, só tarde poude comparecer á sessão da vespera, razão por que não teve ensejo de ouvir o discurso do illustre deputado fluminense sr. Mauricio de Lacerda, pedindo fosse publicado no "Diario Official" o manifesto do sr. d. Luiz de Bragança.

Se presente, teria negado o seu voto, porque entende que o orgão official não deve ser o vehiculo da propaganda monarchica no nosso paiz.

Não põe em duvida os sentimentos republicanos do nobre representante do Rio de Janeiro, estando certo de que s. ex. não teve o intuito de emprestar o fulgor do seu talento á propaganda monarchica.

Não pode, entretanto, descobrir o motivo por que s. ex. praticou tal gesto. Se o fez para despertar o sentimento de patriotismo contra as hostes monarchicas, ao orador não parece feliz a estrategia de que se serviu e que, sem duvida, fará acreditar que o parlamento se vae encarregando da propaganda dos ideaes monarchicos, em detrimento da Republica, que, aliás, tem feito a prosperidade do paiz.

Têm havido, é certo, erros e desvarios, pondo o regimen em situação embaraçosa. Mas qual o paiz que operado transformações politicas sem esses abalos naturaes?

Depois de mostrar o que se deu em outras republicas, diz que as lutas não devem trazer desanimo, representando, ao contrario, um estimulo para novas conquistas no terreno da democracia.

Demais, em confronto com os codigos politicos de outros paizes, o pacto de 24 de fevereiro é o mais liberal, assegurando todas as garantias, todas as liberdades.

Como dizia, não poude perceber bem quaes foram os intuitos do illustre deputado fluminense; mas não póde deixar sem um protesto, que levanta em seu nome, em nome da bancada do Rio Grande do Sul, em nome da maioria da Camara, contra o facto de ter servido o orgão official de vehiculo de propaganda monarchica.

Teve occasião de receber telegramma do coronel Joaquim Ignacio, illustre official do Exercito, lamentando que o orgão official tivesse dado publicidade a um documento daquella natureza e levantando um protesto contra esse facto.

Esse protesto é o echo dos protestos de todos os republicanos do paiz.

Conclue o sr. Fonseca Hermes, requerendo seja inserido no seu discurso o telegramma do sr. coronel Joaquim Ignacio, telegramma a cuja leitura o orador procedeu.

O expediente constou de:

officio do sr. ministro da Guerra, transmittindo o requerimento em que o 1º escripturario José Wenceslão de Souza e outros, funccionarios do hospital Militar de Manáos, pedem ao Congresso a reorganização do hospital e a revisão da tabella de vencimentos;

requerimentos dos importadores de gramophones, pedindo modificação na taxa que paga essa mercadoria na Alfandega;

requerimento de d. Rosa Eugenia Eduardo, pedindo augmento de pensões;

requerimento de Josephina Candida Vidigal Carneiro, pedindo relevação do debito de 6:227$715;

requerimento de Amazile Rosa de Magalhães, pedindo pagamento de quantia a que se julga com direito.

Depois do discurso do sr. Fonseca Hermes, foi enviada á mesa a seguinte declaração de voto:

— Declaramos não ter ouvido o requerimento do sr. deputado Mauricio de Lacerda para que fosse inserido na acta da sessão de hontem o manifesto dirigido ao povo brasileiro pelo sr. Luiz de Bragança e Orleans.

Como republicanos protestamos contra a publicação nos Annaes do Congresso de semelhante documento, que nenhum valor tem, a não ser o de pretender desmoralizar o vigente regimen em beneficio das pretenções pessoaes do autor do referido manifesto.

Sala das sessões—27—8—913.

Fonseca Hermes, Soares dos Santos, Vespucio de Abreu, Evaristo do Amaral, Simões Lopes, Lamenha Lins, Domingos Mascarenhas, Figueiredo Rocha, Alaor Prata, Victor de Brito, Dunshee de Abrantes, Gentil Falcão, Nabuco de Gouvêa, Antonio Nogueira, João Simplicio, Dias de Barros, Felisbello Freire, Moreira Guimarães, Nicanor do Nascimento, Flores da Cunha, Aurelio Amorim, Marçal Escobar, Euzebio de Andrade, Floriano Brito, Cunha Machado, Joaquim Osorio, Arthur Moreira, Gumercindo Ribas, Eloy de Souza, Agapito dos Santos, Seraphico da Nobrega, N. Camboim, Henrique Valga, Gustavo Richard, Pereira de Oliveira, Caetano de Albuquerque, Souza e Silva, Marcello Silza, Christiano Brasil, Marcolino Barreto, João Benicio da Silva, Thomaz Delphino, Pereira Braga, Elysio de Araujo, Theotonio de Brito, Firmo Braga, Luciano Pereira, Bento Borges da Fonseca, Lourenço de Sá, Cunha Vasconcellos.

O sr. Ferreira Braga manda á mesa a seguinte declaração:

"Declaro que, se estivesse presente á sessão de hontem, teria votado a favor do parecer da maioria da Commissão, sobre as eleições do Estado de Alagoas".

Na hora do expediente falou o sr. Mauricio de Lacerda: Diz que não nos convencemos ainda de que a porta que dá para o caminho do acerto é a da liberdade, onde em cima se leia bem ampla esta inscripção — tolerancia.

Assustam-nos os corpos inanimados de imperantes exilados.

O orador diz que o manifesto de D. Luiz não póde trazer, com a sua publicação no *Diario do Congresso*, nenhum mal, ainda mais ao lado do discurso do senador Muniz Freire.

Justifica o seu procedimento dizendo que acreditava, pondo-o assim deante dos olhos dos republicanos, fazer despertar o seu exame ponderado, obrigando-os a meditar sobre os erros apontados para que a Republica pudesse dar um remedio aos erros commettidos.

Coteja os termos do manifesto com a linguagem de muitos republicanos, para concluir que essa é a mesma linguagem dos civilistas, atacando a candidatura do marechal, como essa é a linguagem dos *salvadores*, atacando as oligarchias como a destes atacando aquelles.

E' emfim a linguagem de todos os que se queixam.

Fala longamente sobre as democracias, recebendo muitos cumprimentos ao acabar a sua oração.

Annunciada a ordem do dia, o sr. presidente submette á deliberação da Camara o requerimento do sr. Candido Motta, renunciando o logar na commissão de Poderes.

A Camara rejeita unanimemente, mas o deputado paulista declara que a sua resolução é irrevogavel.

Submettido novamente ao voto da Camara, é o requerimento approvado, declarando o sr. presidente que designará opportunamente o substituto para aquella commissão.

Em seguida o sr. presidente submette á deliberação o requerimento do sr. Moreira Guimarães, hontem publicado.

O sr. Flôres da Cunha pede ao sr. presidente o elucide sobre a materia desse requerimento.

O sr. Sabino Barroso explica então o objecto da petição e submette-a á votação.

A Camara rejeita o requerimento, o sr. Moreira Guimarães pede verificação, confirmando-se a rejeição.

O sr. Felisbello pede ao presidente o oriente a respeito de um artigo do requerimento, — pedido que é satisfeito, tendo o sr. presidente o artigo invocado pelo deputado sergipano.

Posta a votos as materias constantes da ordem do dia, são ellas approvadas.

Em seguida o sr. presidente põe em discussão o projecto de fixação das forças armadas.

Pede a palavra o deputado Vespucio de Abreu para defender o seu parecer criticado pelo deputado Calogeras.

O sr. Moreira Guimarães acha que esta questão de organização do Exercito compete ao Estado Maior e não á Camara.

Os srs. Calogeras e Pedro Moacyr falaram sobre um credito de 1.800 contos para o Arsenal de Marinha.

Em seguida foram encerradas as materias da ordem do dia, que é a seguinte:

3ª discussão do projecto n. 23, de 1913, autorizando a abrir, pelo ministerio do Interior, o credito extraordinario de 39:147$080, para pagamento da lancha a vapor destinada ao serviço da Inspectoria de Saude dos Portos no Estado da Bahia;

Complicam-se as relações entre o Mexico e os Estados Unidos

MEXICO, 27 — O sr. John Lind, consultor juridico da legação norte-americana nesta capital, apesar de já estar em viagem para os Estados Unidos, conti nua a trocar notas com o sr. Gamboa, ministro dos negocios estrangeiros, a respeito da pendencia existente entre os dois paizes.

Acredita-se geralmente que o facto obedece ao proposito de retardar a leitura da mensagem do presidente Wilson sobre a questão mexicana e permittir ao governo do general Huerta preparar os documentos relativos ao conflicto.

Entrevistado por alguns jornalistas, o sr. Gamboa declarou que a situação não é desesperadora e, se alguma gravidade apresenta, é unicamente para os estrangeiros, que não escondem a sua inquietação e levam o desanimo aos proprios naturaes retirando-se em massa para Vera Cruz, com receio de complicações que certamente não chegarão a dar-se.

LONDRES, 27 — «O Times» publica um telegramma do seu correspondente no Mexico informando que a situação do paiz é verdadeiramente critica, já pela falta de recursos em que se encontra, já pela tensão de espiritos resultante da luta intestina e do conflicto suscitado com os Estados Unidos.

A imprensa, a opinião publica, e as proprias colonias estrangeiras, diz mais o telegramma, approvam a attitude do general Huerta, visto considerarem inaceitaveis as propostas do governo norte-americano.

LONDRES, 27 — O «Daily Mail» informa, em telegramma do seu correspondente no Mexico, que o presidente Huerta não concorda com a proposta dos Estados Unidos que estabelece a sua renuncia do cargo, constando como certo que a recusará.

Queixa á policia

Esteve hontem na policia, central procurando o dr. Silva Marques, 1º delegado auxiliar, a infeliz companheira de Adolpho Freire, d. Maria Antonia, que foi levar aquella autoridade uma importante queixa.

Disse d. Maria Antonia que no dia em que foi a casa da rua Fluminense n. 23, em companhia das autoridades do 12º districto, de seu advogado sr. Evaristo de Moraes e um «reporter» e tambem o sr. Joaquim Freire, para retirar de lá o que lhe pertencia, conseguira arrumar todos os seus objectos e suas roupas numa mala grande, que fechara a chave e que mandaria buscar no dia seguinte.

Collocara tambem entre as suas roupas um canudo de folha onde se continham alguns documentos seus importantes, entre os quaes o que lhe entregara Adolpho Freire, doando-lhe a casa da rua D. Luiza n. 31.

D. Maria Antonia affirma que todos os que a acompanharam, inclusive o sr. Joaquim Freire, viram o referido documento.

Mandando buscar depois a mala para a sua casa, conservou-a fechada até agora, por não sentir-se com coragem de abril-a, tão impressionada ficara com a tragedia de que fôra victima o seu companheiro e na qual tambem quasi succumbira á sanha sanguinaria de Augusto Henriques.

Resolvendo um dia destes abrir a mala, ficou bastante surprehendida notando a falta do canudo em que estavam os seus documentos, entre os quaes o de que fallamos acima.

Foi, julgando tratar-se de um furto, pois o documento de doação da casa da rua D. Luiza interessa aos herdeiros de Adolpho Freire, que aquella senhora queixou-se ao dr. Silva Marques, a quem pediu providencias.

Foi aberto inquerito a respeito desse grave facto.

BOLETIM NAVAL

Reorganização para traz

O "Correio da Manhã" alludiu ante-hontem ao facto relevante que é a reorganização da Marinha.

Muitas vezes tem sido tentada a resolução patriotica do problema, e, neste periodo de governo, governo militar e infeliz, pela terceira vez se vae tentar o caso.

Em promessas successivas, desde a administração do illustre almirante Julio de Noronha, devia ter-se já chegado á melhor das soluções.

Construcções custosas, escolas, pareceres luminosos, brilhantes relatorios, desembarques, exercicios fantasticos, tudo se passou aos olhos do paiz, encantado das descobertas sem interrupção e exhibidas pelos dignos ministros reorganizadores.

Um dia, porem, sobre todas as maravilhas accumuladas, surge a apotheose de João Candido, pintado de almirante nas gazetas, com o sangue ainda quente dos heroicos officiaes assassinados nos navios, fumegantes os canhões virados contra a pacifica população, que o não podia esperar nem prever.

O honrado sr. Alexandrino deseja repôr a Marinha no pé em que a deixara.

Não é demais reflectir na vontade de s. ex.

Nos governos de Affonso Penna e Nilo Peçanha aquelle almirante conservou a pasta com a mesma dedicação, actividade e lealdade, com que ora serve ao Marechal.

S. ex. não foi um ministro vulgar a muitos respeitos; activo e com carta branca, tendo á mão todos os serviços com os respectivos chefes inclusive, o sr. Alexandrino fez totalmente o seu melhor: movimentou, ampliou, dirigiu, governou a seu talante.

Só uma autoridade, só uma vontade agiu na fórmula do rumo que imprimia a todas as coisas e, por fim, a sua não espatifou-se pela subversão da disciplina.

Desejando acertar, como convictamente o queremos acreditar, o almirante, depois de observar as organizações navaes européas, está na convicção de que nada existe além do que já antes produzira; e quer retroceder.

O Congresso pensará com s. ex., pela mesma razão pela qual concorda sempre com o ultimo que chega. O governo, que classificou a passada administração do almirante *uma miragem enganadora*, encamparà agora a sua vontade, mais por commodidade de que por qualquer outro interesse.

E vamos ter o que?

Não é facil responder.

O que não é justo, entretanto, é que, para satisfazer á nova vontade, seja necessario falsear a verdade, e negar, notadamente, ao sr. Marques de Leão, se não um bello resultado no mesmo actual empenho do seu collega Alexandrino, ao menos o merito de ter fálado como nenhum outro ao coração de sua classe, em seu memoravel relatorio.

O que queria o sr. Leão e o que elle solicitou aos poderes não tem representação, neste momento, nem no que legou de sua obra — é exacto.

Mas, o sr. Leão queria e pediu:

A remodelação administrativa.

A grande missão.

A 2ª classe.

O sorteio.

Só lhe foi concedida a primeira das quatro providencias enumeradas, que valem, em synthese: — serviço facil e economico, instrucção e efficiencia, selecção, effectivo, reservas e voluntariado.

Na sua reorganização administrativa, por fim, o objectivo desejado ficou em prejuizo pelas alterações impostas á regulamentação prevista; Houve quebras e falhas que alteraram o conjunto regulamentado.

O almirantado do ministro Leão, sem o direito de voto conferido ao director da secretaria de Marinha e ao director da Contabilidade; constituido por superintendentes de facto, ligados entre si e ao ministro pela secretaria de Marinha; corpo administrativo immediato e completo, que seria livre das peias burocraticas, teria sido uma novidade salutar entre todas as utopias de nossas reorganizações.

Aquelle Almirantado falliu porque:

Os regulamentos foram alterados ao serem postos em execução, com a suppressão até de uma superintendencia indispensavel, a de Fazenda e Fiscalização.

A distribuição das superintendencias se fez sem a comprehensão dos regulamentos, que exigiriam a reunião de todas ellas e do proprio gabinete em um só edificio ou estabelecimento.

E, principalmente, porque, depois de decretados não houve sequer uma tentativa de execução dos regulamentos.

Ao contrario, deu-se a successão Leão-Belfort, e a remodelação recente foi logo condemnada, ao nascer.

Na melhor hypothese, não obstante, os seus bons fructos seriam tardios, pela falta de iniciativa dos proprios chefes, que só apparecerá quando se cuidar de os preparar, ou haja quem queira e possa fazel-o.

Ora, não ha de ser reduzindo a administração á autoridade exclusiva do ministro que se conseguirá aquelle resultado indispensavel, parece claro; sim, subdividindo sufficiente e intelligentemente a autoridade e traçando-lhe as responsabilidades.

Aliás, essa é a regra em todos os ramos de actividade e de trabalho — no commercio, na industria, em toda a parte.

Dado o caso excepcional das qualidades tambem excepcionaes do sr. Alexandrino, quando s. ex. voltando atraz a toda a força, conseguisse a perfectibilidade, é licito duvidar que haja muitos Alexandrinos com egual capacidade para substituirem-se.

E como o actual ministro não tem fóros de divindade, isto é, não pode eternizar-se para a completa perfeição de nossa Marinha, a volta atraz é um perigo, e não será nunca definitiva.

Não sendo definitiva, e sendo *para traz*, é uma inconveniencia.

Por outro lado, observando as providencias já em andamento no curto espaço de tempo em que s. ex. administra, enfraquece a vontade de crer em seus desejos de acertar.

Um bom numero de injustiças e vinganças, entre muitas e boas providencias, vae, é visivel, enfeiando esta sua passagem pela pasta.

Ahi estão as excepções que fez sobre o tempo de embarque, e as nomeações para cargos pouco appetecidos, em que os sentimentos de s. ex. mostram uma *justiça de grandes olhos — bem abertos*.

Julgamos a proposito estas nossas observações, que s. ex. e os poderosos tomarão na consideração que melhor lhes parecer, certos de que queremos prestar-lhes um serviço sincero e desinteressado, que muitos classificarão, não importa — como de opposição.

O tempo, opportunamente, dirá quem errou.

Decidiu hontem o Supremo Tribunal varios casos mais ou menos destituidos de importancia. Daremos delles, entretanto, noticia, ainda que ligeira.

Tendo a junta eleitoral de Taquaretinga, no Estado de S. Paulo, declarado sem valor o alistamento ali procedido, por não haver na commissão revisora numero legal de vereadores, recorreu esta para o Supremo Tribunal.

Relatado ahi o feito pelo sr. ministro Pedro Lessa, opinou s. ex. por que se negasse provimento ao recurso, visto que da commissão revisora haviam feito parte apenas tres vereadores em vez de 5, pelo menos, que era a maioria, sendo de 8 o numero dos vereadores que compõem a Camara Municipal de Taquaretinga.

Explicava então que a lei não determinando o numero de vereadores com que a Camara podia funccionar, devia se seguir a regra geral, e assim só se podendo considerar valida a decisão, se tivesse havido maioria; não se devendo crer que a eleição, julgada como foi pela minoria daquella Camara, representasse a vontade do municipio.

Tendo a palavra depois o sr. ministro procurador geral da Republica, Edmundo Muniz Barreto, levanta s. ex. uma preliminar: deve-se tomar conhecimento do recurso, tendo sido como foi na hypothese interposto pela junta revisora, em face da lei eleitoral de 1904, que no seu artigo 36, combinado com o artigo 37, estabelece que dentro de 30 dias é permittido a "qualquer cidadão" recorrer da decisão da junta?

E' preciso decidir-se assim preliminarmente se a junta de revisão pode ser abrangida naquella expressão — qualquer cidadão.

Refere-se então a um caso já decidido pelo tribunal em que opinara porque se tomasse conhecimento do recurso, visto que, embora á primeira vista se inferia dos autos que era a commissão que tinha recorrido, a um exame attento se verificava que eram os respectivos membros individualmente considerados que haviam interposto o recurso. No caso, porém, constava dos autos expressamente que a commissão revisora é que recorria.

Recolhidos os votos decidiu o tribunal, preliminarmente, não tomar conhecimento do recurso, contra os votos dos srs. ministros Sebastião de Lacerda e Guimarães Natal.

Um individuo proprietario de dois sitios tinha vendido um destes, o denominado "Sitio do Corrego Fundo", por 70 contos de réis, ao governo federal, para ahi se construir uma fabrica de polvora para o Exercito.

Tendo esse terreno uma servidão de caminho, em virtude de uma deliberação da Camara Municipal de Piquete, no municipio de Lorena, foi esse caminho fechado, abrindo-se um outro, restabelecendo-se uma antiga servidão, que por muitos annos existira ali.

O vendedor, julgando-se prejudicado em seu commercio com esse facto, propôz uma acção no juizo federal contra a fazenda publica, pedindo a indemnização dos prejuizos que soffrera com aquella mudança de servidões.

Julgada procedente a acção em 1ª instancia, appellou a fazenda nacional para o Supremo Tribunal.

Relatado ahi o feito pelo sr. ministro Amaro Cavalcanti, faz ver s. ex. que na escriptura de compra e venda não havendo referencia a servidão alguma, e o autor tendo vendido aquella fazenda para ahi se construir uma fabrica de polvora para o Exercito, nada tinha que reclamar.

E' principio de direito, disse s. ex., que o prédio serviente pode mudar de servidão.

Observa que toda a fabrica de polvora é clausurada e que o autor ao vender o terreno para nelle se construir um estabelecimento daquella natureza, sabia perfeitamente ou devia saber que a servidão de caminho desappareceria.

O sr. ministro Pedro Lessa faz ver do mesmo modo que nos estabelecimentos militares não é permittido o transito a particulares e que o autor devia ser julgado carecedor de acção.

E assim de facto decidiu o tribunal.

Em favor do professor René Barreto, accusado de ter provocado criminosamente aborto numa sua discipula, foi impetrado, ao Tribunal de Justiça do Estado de S. Paulo, um *habeas-corpus*, afim de evitar a prisão preventiva de que se achava ameaçado.

A' vista das informações do juiz de direito da 1ª vara e do chefe de policia da capital do Estado, foi a ordem denegada, recorrendo o referido professor para o Supremo Tribunal Federal.

Allegava o paciente que, do corpo de delicto, não constava nenhum signal do crime e não se havia procedido ao corpo de delicto indirecto, por meio de duas ou mais testemunhas, que depuzessem sobre os vestigios do delicto; e, bem assim, não existia no processo nada que seriamente o compromettesse, a não ser as declarações da co-ré, sua discipula, que não podiam ser acceitas por si mesmas, senão no que prejudicava a ella propria.

O tribunal decidiu, unanimemente, não dar provimento ao recurso, denegando o *habeas-corpus*.

— Antonio Pinto de Oliveira, condemnado pelo crime de uso de estampilhas falsas, pediu ao Supremo Tribunal a revisão do seu processo.

Discutido ahi o feito e tendo a palavra o sr. ministro Enéas Galvão, observa s. ex. que o réo teve justos motivos para pedir a revisão do processo.

Do exame pericial resultou que as estampilhas não eram falsas; a sentença condemnatoria se baseára exclusivamente nas declarações de um preposto de Antonio Pinto de Oliveira, o accusado, co-réo no crime, que affirmára que este vendia estampilhas falsas por seu intermedio.

Mas, quando mesmo se considerasse isso provado, o facto de que fôra accusado, segundo se via do processo, não reunia todos os elementos constitutivos do crime por que fôra condemnado.

O art. 250 do Codigo Penal, relativo ao facto, apenas se refere ao *uso* sciente de papel ou documento falso. Assim, para que se tivesse dado o crime, era necessario que o réo se *utilizasse* das estampilhas falsas, admittida essa falsidade, e não sómente que as houvesse vendido ou exposto á venda.

Este uso não se póde presumir, deve ser provado; trata-se de materia de direito penal, não se podendo, assim, acceitar méras illações.

Tendo a palavra o sr. ministro procurador geral da Republica, diz s. ex. que se, effectivamente, é omisso o dispositivo do nosso Codigo Penal, que acabava de citar o seu collega, a nova lei sobre os crimes de falsidade viera supprir essa falta, ampliando-lhes o conceito, de modo a abranger as hypotheses como a actual.

Explicava que se tinham feito tres exames periciaes, sendo que o ultimo favoravel ao réo, fôra effectuado depois de haverem sido criminosamente substituidas no processo as estampilhas falsas por verdadeiras.

Voltando a ter a palavra o sr. ministro Enéas Galvão, mostra s. ex. que, embora se devesse punir um individuo que vende ou tem em seu poder estampilhas falsas, o certo é, todavia, que a nossa lei penal não previu esse caso; senão o teria dito expressamente; como succede em relação á infracção penal por uso de armas ou instrumentos prohibidos, dispondo constituir contravenção usar alguem dessas armas ou instrumentos, *tel-os* ou *trazel-os* comsigo.

A nova lei sobre moeda falsa considera crime, além da fabricação, a introducção na circulação de moeda falsa, a circumstancia de tel-a o individuo em seu poder para fim criminoso. E' preciso, pois, commenta, que o individuo, que tem em seu poder moedas falsas, tenha-as *scientemente*, sabendo-as falsas, para que possa ser condemnado.

A interpretação em direito penal é restricta e tem que se cingir rigorosamente ás palavras da lei, ás hypotheses nella indicadas, de modo nenhum se permittindo a inducção.

Em direito penal só se póde acceitar a interpretação que decorre clara e directamente da lei, sendo os crimes definidos de um modo preciso e claro, de modo que toda a gente saiba que actos são criminosos, do contrario a liberdade individual ficaria sem garantia.

O dr. Luiz Alves Pereira, medico do Internato do Gymnasio Nacional, tendo sido demittido intentou uma acção summaria especial na justiça federal, contra o governo, afim de ser reintegrado e receber as vantagens inherentes ao cargo de que se vira privado, desde a sua demissão.

Julgada procedente a acção houve na execução duvidas em relação ás custas e aos juros da mora, tendo a União apresentado embargos, allegando que se deviam contar os juros só até o dia da sentença e entendeu o autor que estes deviam ser contados até o dia do pagamento.

Desprezados os embargos por ter julgado o juiz que as custas e juros da mora são consequencias da lide, interpoz a União aggravo para o Supremo Tribunal Federal, tendo sido ao mesmo negado provimento.

Domingos Antonio Vairo effectuára um seguro de vida na New York Insurance Life Company em 20 de maio de 1893.

Mais tarde, em fevereiro de 1903, precisando de dinheiro, pediu emprestado a um senhor, Eugenio Labanca, dando em garantia do emprestimo a apolice do seguro, e passando-lhe procuração para recebel-o.

Morrendo Labanca, Vairo interpôz em juizo um protesto, afim de evitar que a Companhia pagasse o seguro.

A viuva de Labanca, por sua vez, propôz, para obtel-o, na 1ª 2ªvara civel, uma acção de notificação contra a companhia.

Foi citada esta, que allegou não poder fazer o pagamento em virtude do protesto feito em juizo.

Vairo propôz então na 2ª vara federal uma acção para receber da companhia o seguro, sem entretanto exhibir a apolice, que estava em poder da viuva.

Julgando-se o juiz da 2ª vara incompetente, visto já o da 2ª vara civel haver tomado conhecimento do caso, aggravou Vairo para o Supremo Tribunal, que negou provimento ao aggravo.

O dr. Mario Augusto Brandão de Amorim, tendo em seu favor uma sentença do Supremo Tribunal, pela qual se lhe assegurava o logar de juiz em disponibilidade, no Estado do Rio, mas não mandando a mesma que o seu nome fosse incluido na lista nem na folha de pagamento, embargou esse accordão.

Relatado o feito pelo sr. ministro Oliveira Ribeiro, disse s. ex. que reconhecia o seu erro e emendava a opinião que emittira ao relatar da primeira vez o feito, votando agora porque se recebessem os embargos para ser reformado o accordão, julgando-se o tribunal competente para mandar incluir na lista e na folha de pagamento o nome daquelle juiz, não devendo isso ser considerado como uma usurpação por parte do poder judiciario das attribuições do executivo.

Contra o voto do sr. ministro Sebastião de Lacerda, foram os embargos recebidos pelo tribunal.

D. Maria Ursulina Queima do Monte, possuidora de um terreno de marinha no Estado do Rio, tendo sido citada no juizo do Estado para o pagamento do fôro, oppôz a excepção de incompetencia, allegando que, residindo ella nesta capital, só aqui podia ser citada.

Rejeitada a excepção, aggravou aquella senhora para o Supremo Tribunal, que negou, unanimemente, provimento ao aggravo, decidindo que em se tratando de dividas fiscaes é competente o fôro do logar onde as mesmas são contrahidas.

DINHEIRO FALSO

Continuaram hontem as diligencias para captura dos demais membros da quadrilha de falsarios

Proseguiram hontem as diligencias encetadas pela policia para effectuar a prisão de varios membros da quadrilha de moedeiros falsos que obedecem a orientação de Albino Mendes.

Ainda mesmo que a nossa policia, durante todo o dia de hontem, effectuasse diligencias importantissima, nada conseguiu digno de nota.

FOI SOLTO O LINOTYPISTA LUIZ SANTOS

O linotypista Luiz Santos, primo de Albino Mendes que, segundo declarações deste, se achava envolvido no caso do dinheiro falso, antehontem, apresentara-se á policia, ficando detido incommunicavel na 2ª delegacia auxiliar.

Luiz Santos, á noite foi habilmente interrogado e depois das suas deliberações a policia resolveu pol-o em liberdade.

Assim, ás 3 horas da manhã, foi o linotypista posto em liberdade.

A POLICIA DE S. PAULO PRENDE UM CUMPLICE DE ALBINO MENDES

O dr. Ferreira de Almeida, 2º delegado auxiliar, hontem, recebeu um telegramma da policia paulista, communicando a prisão na cidade de Santos, de Luiz Real, um dos cumplices de Albino Mendes.

Luiz Real deve chegar hoje pela manhã ao Rio, devendo logo em seguida ser transportado á policia central, onde será interrogado.

EM MONTEVIDEO OS FALSARIOS TÊM AGENTES

Na nossa edição de hontem, noticiámos que em poder da policia se achava uma ruma de cartas, elevando-se a numero superior a mil.

Na leitura de diversas dessas missivas a nossa policia encontrou provas de que em Montevidéo os falsarios têm varios agentes, sendo mesmo de suppor que esteja ali installada uma fabrica, sucursal da que foi surprehendida aqui á rua Barão n. 90, em Jacarépaguá.

FOI PRESO UM ITALIANO CUMPLICE DOS FALSARIOS

Pouco a pouco as autoridades policiaes vão conseguindo arrancar dos falsarios presos a denuncia de todos os seus cumplices. De um delles a policia teve sciencia de que o italiano Vicente Crocano tambem tomava parte saliente na passagem de dinheiro falso.

Desta forma varios agentes postos no encalço de Crocano o prenderam no Jardim Botanico, levando-o a 2ª delegacia auxiliar, onde ficou incommunicavel.

O ESTADO DA ESPOSA DO FALSARIO CARVALHO LOPES

Maria de Araujo, esposa do falsario Carvalho Lopes de Araujo, que fôra recolhida presa ao xadrez da policia central e que para não confessar o crime de seu marido, conseguira burlar a vigilancia dos seus detentores e ingerir grande dóse de creolina, foi removida para o hospital da Santa Casa, sendo internada na 20ª enfermaria.

Maria durante o dia de hontem experimentára melhoras, sendo o seu estado lisonjeiro.

A PRISÃO DE UM OUTRO CUMPLICE

A policia, á medida que vae apanhando provas contra individuos apontados como cumplices no presente caso do dinheiro falso, combina diligencias e estas têm sido tão acertadas que a maioria dos individuos apontados pelos principaes chefes da quadrilha têm sido detidos.

Assim, ainda hontem, a policia prendeu á rua Torres Homem n. 238, Germano Pinto, cujo nome havia sido declarado pelo chefe falsario Albino Mendes, em um dos seus depoimentos.

Germano foi conduzido á 2ª delegacia auxiliar, onde ficou detido incommunicavel.

COMO SÃO DECIFRADAS AS DUAS CARTAS DE ALBINO MENDES, PUBLICADAS HONTEM POR UM VESPERTINO

Assim nos foi explicado o conteudo da seguinte carta publicada hontem por um vespertino:

"Luiz

Estimo que não tenha *morrido afogado*. 15 — quarta-feira, recebi o seu *testamento* e logo lhe respondi. Mandei lhe pedir uns sellos de 100 réis e estampilhas federaes de 300. Sobre o assumpto daquella carta falada não vae mais, eu lhe explicarei porque. Foi *basofia* do outro. Eu vou escrever ao Silva Lima da rua dos Invalidos mandando *guardar lá umas caixas. O palacio* fica *chic* com os vidros. Saudades do

Albino."

Esta carta fôra escripta a Luiz Santos por Albino Mendes, quando Luiz Santos entretinha namoro com a senhora com a qual hoje está casado.

Os vocabulos *morrido afogado, testamento, sellos de 100 réis, guardar lá uma caixa, o palacio chic*, assim nos explicou: Luiz Santos estando de nomoro com a senhora que hoje é sua esposa foi victima da grande enchente que honve naquella epocha e dahi ter Albino Mendes se expressado para com o seu primo de tal forma; *testamento* — quer dizer carta longa.

Guardar umas caixas. Era pedindo varias caixas de charutos vasias para trabalhar com pequenas serras mecanicas.

Palacio fica chic. Foi um pequeno palacio feito com caixas de charutos, o qual foi offerecido ao dr. Esmeraldino Bandeira, que então era ministro da Justiça.

Continuando, o amigo de Luiz Santos, nos disse que as iniciaes E. B. do segundo topico.

"Podendo ser, rogo a fineza de ir á casa do sr. Maciel, no dia 19 á noite, buscar uma carta para o dr. E. B. Não vae pelo Correio, porque não ha caixa que a comporte. — *Albino.*"

trata-se da pessoa do dr. Esmeraldino Bandeira, o qual sendo naquella epocha ministro da Justiça, Albino Mendes procurava agradar para ver se obtinha commutação de pena, conforme de facto, mais tarde obteve.

O nome Maciel que ali tambem figura é o de um antigo mestre de obras da Casa de Detenção, o qual era o portador das cartas de Albino Mendes a Luiz Santos e vice-versa.

MAIS DINHEIRO FALSO APPREHENDIDO PELA POLICIA

Os 2º e 3º delegados auxiliares, respectivamente, os drs. Ferreira de Almeida e Reynaldo de Carvalho, souberam que em uma casa de commodos da rua das Laranjeiras havia certo individuo que comprara a Manoel Barbosa de Oliveira uma partida de notas falsas.

Aquellas autoridades, indo á casa de commodos da rua das Laranjeiras n. 15, encontraram, no quarto de Manoel da Costa Fraga, 48 notas de 10$ e 3 de 50$, todas falsas.

Fraga, que tem como companheiro de quarto seu irmão Luiz Costa Fraga, foi procurado pela policia, que o prendeu em umas obras da rua Carvalho de Sá, tendo sido encontrada, tambem, em poder deste uma cedula falsa de 10$000.

COMO OS IRMÃOS FRAGA EXPLICAM A PROCEDENCIA DO DINHEIRO

Levados os irmãos Fraga á Policia Central, e inquiridos, elles declararam que, certo dia, conheceram Manoel Barbosa de Oliveira por intermedio de outrem e que, dias depois dessa apresentação, Barbosa combinára com Manoel a venda de 50 cedulas de 10$, falsas, pela quantia de 200$; que Manoel, achando a offerta vantajosa, acceitára.

Os irmãos Fraga foram detidos.

A PRISÃO DE MAIS UM MOEDEIRO EM S. PAULO

A' noite, o dr. Ferreira de Almeida, 2º delegado auxiliar, recebeu um despacho telegraphico, communicando a prisão de Luiz Antonio Areias, em poder do qual a policia paulista apprehendeu 13 notas de 50$, falsas.

Esse individuo deverá ser enviado para o Rio.

AS CEDULAS DE 50$000, FALSAS

Ainda mesmo que Albino Mendes tenha declarado, em seu depoimento, que a sua fabrica de notas falsas sómente fabricava cedulas de 5$ e 10$, a policia, desde o inicio da presente campanha, vem apprehendendo grande numero de cedulas de 50$000.

Recenseamento na Argentina

BUENOS AIRES, 27 (A. A.)—O governo decretou o recenseamento da população e da riqueza movel e immovel, em toda a Republica.

ro nome que figurava em taes casos era o de Angelo Evangelista e o seu cumplice Germano Pinto, este ha pouco tempo envolvido no grande escandalo do agente Miguel Cardoso.

Ha muito tempo já está desapparecido do scenario policial o falsario Angelo Evangelista. Onde anda? Terá morrido? Estará viajando por conta da fabrica ora descoberta? E' o que a nossa policia está apurando.

O dr. Edwiges de Queiroz felicitou hontem os drs. Silva Marques, Ferreira de Almeida e Reynaldo de Carvalho, delegados auxiliares, pelo brilhante successo das diligencias.

A' tarde s. ex. esteve no palacio do Cattete, onde mostrou ao sr. presidente da Republica algumas notas das apprehendidas na fabrica da Praça Secca.

* * *

A policia está perfeitamente informada de que a fabrica descoberta aqui tem representantes em S. Paulo e Santos, para onde seguiram em diligencias varios agentes.

* * *

Albino Mendes, o "literato" falsario, tinha uma bibliotheca interessante. Ahi vae a relação dos livros encontrados na fabrica:

Manoel de Photographie et de calcographie, de Roux; Traité pratique de Photographie, de Manelin; La Phototypie pour tous, de Laynaud; Traité pratique de gravure et de impression sur zinc, de Geymet; Gravure beliographique et Galvanoplastie, de Geymet; Traité de Photolithographie, de L. Vidar; Manuel d'Eclio gravure et de photogravure en relief de Bonnet; Traité de Impressions photographiques, de Portevin; Manuel d'Heliogravure et taille-dorée, de Schiltz; La photographie sur plaque séche, de Fapre; Manuel de autographie sur zinc; Manuel de phototypie, de Vovin; Reproduction des gravures, dessens, plans, manusonts, de Courréges; Photographie cisochromatique, de Roux; Photographie vure a demi-teintes, de Courrin; Transformature des negatifs en pantures, de Roux.

Albino Mendes diz-se tambem inventor de um processo de photographia. E' intelligente e habil.

* * *

A casa da Praça Secca, onde foi installada a fabrica foi alugada por Abilio Mendes, que raspou o bigode.

A policia ouviu ainda hontem uma criada deste, de nome Izabel, que se disse apavorada com tudo aquillo. Declarou ella que ignorava por completo a existencia ali da fabrica e que, diariamente, encontrava no fogão, grande quantidade de cinza, naturalmente das aparas das notas.

A policia prosegue nas suas diligencias.

Até tarde da noite agentes trabalhavam neste caso.

DE S. PAULO

OS BOATOS DA RENUNCIA DO SR. JULIO MESQUITA

S. Paulo, 22—8—913. — (*Do nosso correspondente*). — Quando chegou a S. Paulo a noticia, dada pelo *Correio da Manhã*, de que o illustre chefe republicano Julio Mesquita mandára da Europa a renuncia do seu mandato de senador, trataram, os mais interessados em saber si era exacta a nova, si realmente viera a renuncia. E tão avaccalhada está a politica, que uma figura de relativo destaque no partido republicano e presentemente um dos mais enthusiastas applaudidores da attitude do officialismo paulista, disse quasi insensivelmente:

— E' mais uma vaga; o partido precisa de vagas no Senado...

Como se vê, esse cavalheiro, que deve a Julio Mesquita as maiores attenções, sendo mesmo possivel que lhe deva alguns favores politicos, não teve uma phrase delicada, sinão grata, para lamentar que o antigo chefe dissidente se retirasse da actividade politica, abrindo um grande claro nas fileiras de um partido que anda a fazer irreflectidamente, os funeraes do seu glorioso passado. A phrase que elle teve foi aquella, ao considerar a hypothese da renuncia do sr. Julio Mesquita. Que lhes importa, aos que transigiram com a propria dignidade que o sr. Mesquita se afaste, sacudindo dos pés a poeira da terra em que se firmava?

Nas rodas officiaes nada constava, até agora, a respeito da renuncia do senador Mesquita. Todavia, publicou um matutino que, de feito, um membro da commissão directora estava de posse da renuncia do chefe da antiga dissidencia, mas nada constava na secretaria do Senado. O sr. Julio Mesquita, com o embarque de S. Paulo na canôa furada do P. R. C., soffreu a mais negra ingratidão que é possivel estar nas previsões dos que patinam neste atascadeiro da politica. Trairam-n'o aquelles que elle mais amorosamente levantou, guindando-os a posições que ficam muito ao de cima de certos merecimentos relativos.

Renunciando, porém, ao seu mandato de senador, o sr. Mesquita satisfaz o desejo de muitos que ha muito tempo o querem ver pelas costas. Além de que, o chefe da antiga dissidencia conta, no Estado, com uma forte corrente de sympathia, prestigiadora da sua nobre attitude. A renuncia do sr. Mesquita, como o afastamento de quem quer que lhes possa prejudicar a ultimação do negocio, é o mais ardente anhelo dos actuaes superintendentes da politica paulista. Dahi a sem-cerimonia, o quasi desbrio com que o individuo de que falámos pronunciou aquellas palavras:

— E' mais uma vaga; o partido precisa de vagas no Senado..

Tal é a moral que preside, nestes tristes e envergonhados dias, á existencia do partido republicano, cujos grandes vultos se vão apagando gradual e proporcionalmente ao descorar rapido do quadro em que se encaixam. Ainda bem que Prudente de Moraes, Rangel Pestana, Americo Brasiliense e mais alguns saudosos democratas, morreram sem tamanha quéda. — *C.*

ENCONTRO COM S. EX.

"Quando hoje, pela manhã, encontrámos o dr. Edwiges de Queiroz, interrogámol-o:

— Doutor, a ordem de v. ex. prohibindo que os guardas civis entrem em botequins e casas congeneres...

— Está direita. Fardado, guarda civil algum deve entrar em taes casas. E isso a bem da moralidade da propria corporação.

— Mas doutor, objectámos, essa ordem vae dar margem a injustiças. Um rondante que tira o seu quarto em 8 horas consecutivas, tendo sêde e indo a um botequim, terá contra si uma parte do fiscal, que poderá até testemunhar como o guarda esteve no botequim. De outro modo, o guarda que, numa noite fria, está de ronda, entra num botequim para tomar um copo de leite quente. Succede-lhe o mesmo.

— A minha ordem, porém, deve ser cumprida com criterio. O que desejo é moralizar a corporação; o que quero é impedir que guardas civis, fardados andem pelos botequins a tomar bebidas alcoolicas ou em badernas. E porque não podemos nós fazer isso? Em S. Paulo, até os officiaes da Força Publica se cohibem disso.

Deante das razões apresentadas pelo illustre chefe de policia e da honesta intenção do seu acto, não insistimos. Entretanto esperamos ainda que s. ex., consultando com mais calma a situação dos guardas civis, chegue a concilial-a com os intuitos moralizadores de que se acha possuido e que são dignos de todo o apoio."

A EXPOSIÇÃO DA BORRACHA

"Está marcada para o dia 12 de outubro a abertura da exposição de borracha, promovida pela Superintendencia de defesa desse producto. A exposição occupará, além do palacio Monroe, o pavilhão que está sendo expressamente construido na Avenida para esse fim. Esse certamen não vae ser, como os precedentes autorizariam a suppôr, um vasto armazem de borracha de diversas qualidades. Conterá mostruarios methodicamente organizados e classificados desse producto, com todas as informações de caracter commercial e economico, que possam interessar aos visitantes. Todos os Estados do Brasil serão representados, e sobre todos os assumptos economicos serão organizados e expostos aos visitantes dados interessantes, de modo que sirva como um verdadeiro *bureau* de informações, não só para os nacionaes, como para os estrangeiros, que não deixarão de affluir, quer por interesse directo no negocio da borracha, quer attrahidos pelo estudo de outros aspectos economicos do paiz.

No pavilhão fronteiro ao Monroe será installada uma usina de beneficiamento de borracha, onde esse producto passará por todas as manipulações, á vista do publico.

Dois mil kilos de sernamby já foram encommendados para esse fim. Será installada uma sala de projecções cinematographicas, onde serão exhibidos "films" sobre a industria da borracha, entremeados, para não fatigar os assistentes, de outros "films" sobre assumptos scientificos ou simplesmente instructivos.

Commissarios dos diversos Estados se encontrarão diariamente, das oito ás dez da noite, nos pavilhões, para fornecerem informações aos visitantes, em sala apropriada, a conferencias diarias.

Com a feição que lhe pretende imprimir o dr. Pereira da Silva, a Exposição de Borracha será um certamen util á industria da borracha, e ao mesmo tempo um balanço geral da situação economica do paiz."

COMO SE FALSIFICA O DINHEIRO

A policia prende uma numerosa quadrilha de falsarios e apprehende cerca de 10 contos em notas de 10 e 5.000 rs.

Um tiroteio renhido entre os falsificadores do dinheiro e as autoridades policiaes

A CASA N. 72 DA RUA D. AFFONSO; EM BAIXO, MANOEL JOSE' DE OLIVEIRA, VULGO "CABOCLO"; AO ALTO, ALGUMAS ESTAMPILHAS

Toda a gente pensou, até bem pouco tempo, que o mundo de dinheiro falso esparramado no commercio era fabricado em Buenos Aires e Montevidéo, onde, por duas vezes, a administração policial passada fez diligencias, gastando rios de dinheiro, facto que foi bastante ridicularizado pela imorensa portenha. Era de prever que com o resultado do Skerlokismo dos autores de taes pesquizas nós ficassemos, de vez, livres do dinheiro falso e a policia pudesse apregoar pelos canaes competentes: no Brasil não se falsifica o dinheiro. Ouro é o que o ouro vale.

E a gente ficaria satisfeita toda vez que revirasse uma nota de 10$000 réis, na certeza de que era dinheiro garantido.

Tal não se deu. Os nossos Scherloks voltaram, e, —coisa extraordinaria! — com o seu regresso cresceu o derrame do dinheiro falso! De onde viria? Quem o introduzia aqui? A policia não sabia, ou, si sabia, fingia ignorar.

Passam-se tempos. S. ex. de então passa de grande policial a notario publico e vae para a rua da Relação gente [illegible] trabalhar, remodelando aquillo tudo, a fazendo em dois mezes o que o sr. Bezerra Favora não conseguiu em dois annos.

A policia descobriu uma fabrica de notas falsas. Não foi preciso tomar nenhum paquete da Mala Real para ir buscal-a em Buenos Aires ou Montevidéo. Tomou um automovel, foi ali aos suburbios e de lá trouxe 10 pacotes de notas falsas e todos os petrechos proprios para o fabrico.

Os precedentes dessa diligencia são interessantes e vamos narral-os aqui com todos os detalhes precisos, colhidos pela nossa reportagem.

* * *

Ha dias a policia foi informada de que havia no Rio de Janeiro uma grande fabrica de notas falsas. De posse de dados muito precisos sobre os membros da quadrilha que a exploravam o sr. Edwiges de Queiroz entregou as diligencias aos 2º e 3º delegados auxiliares, recommendando-lhes o maximo sigillo sobre o caso, para o completo exito das pesquisas.

Andou bem a policia guardando segredo e agindo em mysterio, e a este seu acto se deve o completo exito das suas diligencias.

Como principal membro da quadrilha apparecia um individuo que dava pelo nome Mario Medeiros, typo completamente estranho á policia e sobre quem nada constava no gabinete de identificação. Encarregados de descobril-os, dois agentes souberam ser esse individuo Albino Mendes, falsario famoso, ha pouco posto em liberdade por ter cumprido pena pelo crime de moeda falsa. Este individuo, logo no começo da administração policial Alfredo Pinto, foi preso em flagrante, no interior de uma fabrica, em Santa Thereza. Processado e preso elle, no seu cubiculo da casa de Detenção lamentava a sua sorte, dizendo-se um perseguido, uma victima da sua má estrella. E fez-se literato. Escrevia novellas que offertava a ministros e sonetos dedicados ás autoridades superiores.

Era um artista. Nas costas de um sello elle teve a habilidade de escrever os quatorze versos de um soneto que dedicou ao ministro Esmeraldino Bandeira, no governo Nilo Peçanha!

Por protecção ou por meio de alguma chicana forense, Albino Mendes foi solto.

Em liberdade, ao envés de procurar um meio de vida honesto, continuou na faina do commercio do dinheiro falso. Era arriscado mas rendoso.

Alliou-se ao falsario Manoel Barbosa e a outros e resolveram todos montar aqui uma fabrica. Barbosa era o viajante do "importante estabelecimento fabril".

A fabrica foi montada com todo o capricho, em logar afastado da cidade, na rua Barão n. 90, dando fundos para o 61 da rua Baroneza, na praça Secca, em Jacarépaguá.

*

Montada a fabrica a primeira remessa agradou aos melliantes que vivem desse commercio.

Eram perfeitas as notas. A elles se alliaram então os falsarios Manoel José de Oliveira, vulgo *Cabocio;* Carlos Lopes de Araujo, Luiz dos Santos e outros, que se encarregaram de esparramar o dinheiro no commercio. Facilitou-lhes a perfeição do dinheiro, fabricando de preferencia notas de 10$ e 5$, da ultima estampa.

Quando a fabrica ia em franca prosperidade, a policia prendeu Albino Mendes e o falsario Mario Medeiros. Sujeitou-o a um interrogatorio rigoroso, guardando rigoroso sigillo sobre as suas declarações. Perdido, elle contou tudo: quaes os seus cumplices, onde fabricavam o dinheiro e o ponto onde, de preferencia, a quadrilha se reunia.

Foram logo iniciadas diligencias e a policia se cercou de agentes completamente estranhos.

Hontem, pela madrugada, a policia deu um cerco na casa n. 72, da rua José Hygino. Ahi foi ella recebida a bala, estabelecendo-se forte tiroteio.

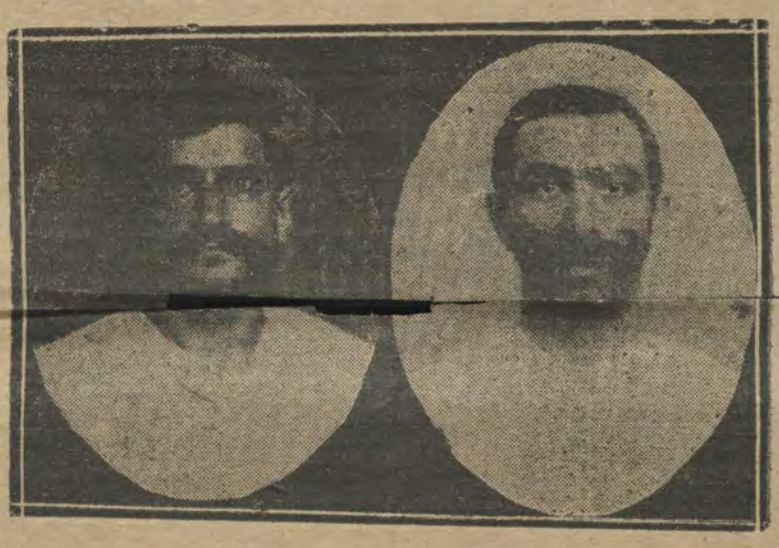

Cessado este, o chefe de policia em pessoa, acompanhado pelos 1º, 2º e 3º delegados auxiliares, penetraram na casa, deserta já, prendendo ali sómente, Joaquim Pereira da Silveira, membro proeminente da quadrilha.

Nada se encontrou, além de cartas procedentes de S. Paulo, fazendo encommendas de dinheiro, no interior da casa.

Silveira foi levado para a Central e submettido a interrogatorio.

O dr. Edwiges de Queiroz regressou á policia e os delegados auxiliares, proseguiram nas diligencias.

Na Tijuca, onde fôra, de automovel, fazer a entrega de uma partida de notas, a policia prendeu Manoel Barbosa, que, perseguido, reagiu a tiros, jogando fóra o volume que levava. Eram notas de 10$000, da ultima estampa.

ANGELO EVANGELISTA E GERMANO PINTO

Estava assim em meio o serviço. Pela madrugada, os 2º e 3º delegados auxiliares, deram uma busca na casa de Barbosa, á rua Senador Euzebio n. 72, nada encontrando. De lá seguiram para a praça Secca. Vinha rompendo o dia. Cercada a casa, o 2º delegado auxiliar bateu á porta. Abriu-a um creoulo baixo, cheio de corpo, carrancudo.

— Quem móra, aqui?

Elle desconfiou.

— Responda, homem.

— Eu.

— Deixa passar.

— Quem é o senhor?

— Depressa.

O creoulo comprehendeu e quiz fugir. Dois agentes o seguraram e a policia entrou.

E' um chalet de construcção tosca.

O mobiliario da sala da frente é simples: um sophá e 5 cadeiras austriacas, muito velhas.

Numa sala dos fundos estava installada a fabrica. Sobre uma mesa matrizes, pedras litographicas, formas, machinas photographicas e matrizes para sellos e estampilhas.

Num pacote bem acondicionado a policia encontrou cerca de 10 contos em notas de 10$ e 5$ da ultima estampa e alguns sellos.

A policia arrecadou tudo e levou para a Central.

O creoulo, que se chama Manoel de Oliveira e tem o vulgo de "Caboclo", foi recolhido ao xadrez, em rigorosa incommunicabilidade.

O DENTE DO COELHO...

"O Partido Republicano Conservador, ou por outra, o sr. Pinheiro Machado, está empenhado na elaboração de uma reforma eleitoral!

Sabbado, como se lembrarão os leitores, o senador João Luiz Alves, secretario do P. R. C. e *leader* interino na ausencia do sr. Azeredo, disse da tribuna do Senado uma porção de palavras, dessas que voam ao vento, terminando por asseverar que uma boa reforma eleitoral seria a panacéa para todos os nossos males e até para a falta de prestigio em que se debate e se afoga uma grande parte dos nossos homens publicos.

Aquillo, como se diz, trazia agua no bico.

Hontem, logo ao serem abertos os trabalhos do Senado, o sr. Pinheiro chamou junto a si o sr. Muniz Freire.

E, dando um tapazinho no rosto do senador liberal, o chefe dos conservadores confiou-lhe que tinha um pedidinho a lhe fazer:

"Que lhe concedesse dez minutos antes de co[illegible] o seu discurso. S. ex. queria c[illegible]der a palavra ao sr. João Luiz Alves para uma indicação."

— Mas indicação de que? — perguntou-lhe o sr. Muniz Freire.

— Para que se nomeie uma commissão encarregada de estudar o projecto de reforma eleitoral.

E' facil de se imaginar o pasmo do senador pelo Espirito Santo, sabendo-se que s. ex., em seu discurso, fundamentava exactamente o seu projecto de reforma eleitoral de 1900.

A' objecção feita nesse sentido ao sr. Pinheiro pelo senador Muniz, o chefe do P. R. C. fez-se surprehendido e teve palavras de elogio para os intuitos do seu interlocutor. "Tambem elle, Pinheiro, achava imprescindivel uma reforma do processo eleitoral, principalmente si ella se baseasse nos modelos da reforma Borges de Medeiros."

Eis ahi onde está o *dente do coelho*: s. ex. o sr. Pinheiro Machado quer-nos impingir o borgismo eleitoral."

BRASILEIROS

Em seu manifesto de 12 de janeiro de 1896, os venerandos chefes do partido monarchista dirigiam á Nação as seguintes palavras:

"A subversão do nosso regimen politico a 15 de novembro, rapida e instantanea como o effeito de um cataclysmo, não permittiu que se lhe oppuzesse immediata resistencia activa... Supprimidas desde logo as li-

des sob as quaes nasceu e vivia o Imperio Brasileiro, e mais tarde destruida ou reduzida ao silencio a imprensa que se aventurou a moderadas censuras, era de facto inutil qualquer esforço para que a vontade nacional saisse de urnas eleitoraes, cavillosamente preparadas, para as mais ousadas burlas por uma regulamentação *ad hoc*.

Nestas circumstancias, só restava aos monarchistas esperar pelas promessas da republica, ruidosamente affirmadas na mesma occasião em que se fazia retumbar por toda a parte a infamação da monarchia.

Si aquella, apezar do vicio original, entregue a si mesma, sem cooperação suspeita, nem o menor entrave dos adversarios naturaes, conseguisse mostrar-se mais benefica, não haveria, a começar pela Familia Imperial, um só obstinado que recuzasse e deixasse de agradecer a melhoria.

Mas, decorridos quasi seis annos, a consciencia publica, o fôro intimo dos proprios republicanos de boa fé compara os factos e só registra decepções e desastres."

Essas palavras de justiça e de patriotismo, escriptas em 1896, poderiamos repetil-as hoje, com a autoridade que lhes conferem mais d zoito annos de desvarios e de desmandos, dezoito annos de uma experiencia desastrosa para as instituições implantadas no Brasil pelo acto inconsciente de alguns revoltosos.

Pacientes e resignados, esperámos até agora a realização das seductoras promessas e, embora com o coração a sangrar, assistimos, espectadores silenciosos, aos vexames sem conta infligidos á nossa Patria estremecida.

Hoje, porém, faz-se repentinamente sentir um sôpro de reação contra tantas miserias, o povo, farto de ser explorado pelos proceres do actual regimen, volve saudoso as vistas para os tempos felizes do Imperio; acudindo ao appello dos seus chefes legitimos, os monarchistas erguem a cabeça.

Chegou a hora de pedirmos contas á republica, pondo nas conchas da balança os serviços que ella tem podido prestar ao paiz e os sacrificios que ella lhe tem imposto.

O movimento de 15 de novembro encontrou o Brasil em um periodo de inexcedivel progresso material.

Extincta a chaga secular da escravidão, já se organizava o trabalho livre; repletos os cofres publicos, graças á excellente administração dos ultimos governos, as financas nacionaes attingiram, no anno que precedeu á queda do regimen, a uma prosperidade nunca vista no Brasil: as invenções technicas que caracterizaram o fim do seculo XIX, vinham dar o novo incremento a todas as industrias; a electricidade, a grande productora de energia nos paizes dotados, como o nosso, de inexgotaveis forças hydraulicas, entrava então no dominio da utilização pratica, attraidos pela maravilhosa "opportunidade", os capitaes estrangeiros começavam a affluir.

Debaixo de tão favoraveis auspicios, qualquer paiz — e mórmente o Brasil, que, póde-se dizer, saia então da adolescencia — tinha forçosamente de progredir a passos de gigante...

Ora, em que se resumem os progressos tão gabados destes ultimos 2[illegible] annos de Republica? Uma simples phrase o dirá: menos parcimonioso do que a Monarchia, o novo regimen não tem hesitado em gastar ás largas milhares de contos para dourar a fachada do paiz.

Fieis ás nossas tradições de imparcialidade e de justiça, não hesitaremos em reconhecer o valor da grande obra realizada pelo governo republicano — ou antes, por alguns dos seus representantes — na Capital Federal e em outros pontos mais em vista do nosso territorio.

Rodrigues Alves, Lauro Müller, Passos e Oswaldo Cruz fizeram do Rio a mais bella e uma das mais saudaveis cidades do mundo e por isso muito mereceram do Brasil.

Mas, bastará isso para legitimar o enorme augmento das despesas publicas?

O estrangeiro que passa poderá deixar-se illudir. O Brasileiro através do apparato architectonico do Rio, vê a miseria do valle do Parahyba (outr'ora tão opulento), o descalabro do interior tão em contraposição com o luxo das grandes cidades, a agonia do Norte sob o jugo ferreo dos régulos que o dominam.

Digam-nos os nossos adversarios que progressos as nossas principaes industrias têm realizado, apezar do protecccionismo desmedido que a republica nos impoz.

Mostrem-nos o incremento da vida economica dos nossos innumeros sertões, ainda mais desertos hoje do que no tempo do Imperio. Mostrem-nos de que modo foram aproveitadas as extensas terras devolutas de que dispõem os Estados e que tanta importancia têm para o desenvolvimento da immigração estrangeira, indispensavel para a valorização rapida do nosso immenso territorio.

Si, apezar de tudo, alguns Estados do Sul prosperam, essa prosperidade não é devida á acção dos respectivos governos, mas ao impulso incoercivel das proprias energias do paiz, e não raro á collaboração intelligente do estrangeiro.

Que nos tem dado a famosa constituição de 1891, cópia servil e ininteligente de um systema politico contrario á nossa indole e aos nossos costumes?

A propria federação — boa em si e aliás já delineada nos programmas dos ultimos ministerios do Imperio — não trouxe sinão desillusões. Em vez da autonomia e da liberdade esperadas, a sua consequencia immediata foi a constituição de um feudalismo medieval, indigno da nossa civilização. Nem parece que a luta contra as oligarchias, iniciada pelo actual governo, tenha dado melhores resultados. As revoltas sangrentas, fomentadas nos Estados, os bombardeios criminosos de cidades sem defesas, as intervenções brutaes do poder central têm podido, em certos pontos, derribar as dynastias locaes; não mudaram o regimen de tyrannia e de oppressão de fraude, de crime e de violencia que continúa a lavrar por todo o paiz.

A justiça, tão indispensavel como a liberdade e talvez mais, outr'ora administrada por magistrados inamoviveis e independentes, educados no difficil e nobre officio de julgar, passou mercê de sua descentralização, para as mãos de juizes na maior parte improvisados, verdadeiros juizes de commissão, ás ordens dos governos que os nomêam e cuja sorte têm de acompanhar, no vae-vem dos movimentos

Os maiores crimes ficam impunes; não ha responsabilidade para quem tem amigos no governo.

Assim é que não devemos estranhar a decadencia do caracter nacional nestes ultimos annos. Já se foram os tempos em que o homem probo, encanecido no labor honesto ou no serviço publico, era geralmente acatado.

Hoje, só o homem rico goza do respeito dos seus concidadãos. O utilitarismo propagou-se de tal modo na

altruista tem a coragem de um gesto nobre e desinteressado, todos o contemplam com espanto, para lastimal-o ou mesmo escarnecel-o pela falta de espirito pratico.

Que diremos das nossas finanças, outrora tão prosperas?

Apezar do augmento prodigioso das receitas, devido ás riquezas inexgotaveis do paiz, o equilibrio dos orçamentos vae-se tornando cada vez mais precario. A despeza cresce loucamente e mal se conhece a sua importancia real, por falta de balanços claros. Esvae-se o producto de impostos exorbitantes, esvaem-se os emprestimos continuos, difficilmente negociados, sem cobrir os *deficits* e sem deixar vestigios de melhoramentos uteis e remuneradores. Ameaça-nos, como acabam de bradar os jornaes de maior prestigio da capital, a bancarrota imminente.

Nunca foi mais necessario, nem mais urgente uma severa economia, e entretanto avultam as sinecuras, as accumulações escandalosas, as missões inuteis ou mesmo contraproducentes, as encommendas estravagantes e mil outros desperdicios. Os unicos que poderiam exercer uma fiscalização benefica sobre o esbanjamento dos dinheiros publicos, os membros do parlamento — o nosso parlamento outrora tão glorioso! — só cogitam em combinações politicas e em outras favoraveis aos seus interesses pessoaes.

Devido a esta situação lastimavel, o mal-estar augmenta no paiz inteiro. A carestia da vida, problema sério cuja solução é inadiavel, subleva com razão as classes populares; immensos são os alvitres lembrados para a debellação dessa crise, mas o governo não tem tempo para estudal-os. Os poderes publicos limitam-se a gastar convencidos de que a desvairada politica de melhoramentos artificiaes bastará para fazer a riqueza do paiz.

A definição ideal da Republica sempre foi o governo de todos, por todos e para todos. A Republica Brasileira tem sido o governo de poucos contra todos e para poucos. Em um paiz essencialmente democratico como o nosso, a condição do povo não tem merecido a minima attenção. O problema operario, em parte resolvido, desde muitos annos, pelas principaes monarchias européas, nem foi ainda encarnado no Brasil. Imprevidente e cego, o governo espera de braços cruzados que, tornando-se intoleravel a situação do trabalhador, appareça ameacador, como na republica visinha, o espectro do socialismo anarchista.

O mesmo poderemos dizer da instrucção publica, que deveria ser uma das primeiras preoccupações de um governo que se diz progressista.

Emquanto na peripheria do paiz se esbanjam os recursos nacionaes, o analphabetismo o mais crasso continúa a lavrar nas zonas immensas de todo o interior.

Acabamos de dizer que para a nossa vida politica o povo virtualmente não existe. E não existe porque não tem instrucção, porque não sabe ler nem escrever e consequentemente não enxerga, não pensa e não vota. E' uma quantidade negativa de que os politicos só se servem para augmentar pela fraude, a bico de penna, o numero de suas hostes politicas.

Emquanto mesmo na Argentina de Sarmiento o ensino publico tem tomado prodigioso incremento, contribuido em grande parte para a prosperidade de que dá mostra a grande republica do Prata os nossos poderes publicos esperam placidamente que se realize, sem o seu concurso, o milagre da desalphabetização. E ficamos com o quociente humilhante de 80 % que representa o elemento analphabeto da nossa população!

Filha de um pronunciamento militar, podia-se esperar pelo menos que a republica dedicasse especial carinho á organização e ao aperfeiçoamento das nossas forças de terra e mar.

O antigo regimen, digamol-o francamente, não prestou a esse grave problema toda a attenção que elle merecia. Depois da campanha do Paraguay luta gloriosa que patenteou ao mundo inteiro as qualidades guerreiras da nossa raça, teria sido natural que se aproveitassem os esforços realizados para dar ao nosso exercito a organização definitiva de que precisava.

As forças armadas ter-se-iam desse modo tornado, desde 1870, não só a garantia essencial da integridade e de cohesão nacionaes, como tambem o sustentaculo o mais solido das instituições monarchicas.

Não faltou quem vislumbrasse essa verdade. Apenas concluida a guerra meu Pae, o Marechal Conde d'Eu fez-se o advogado das valentes hostes á testa das quaes acabava de colher os laureis de Peribebuy e Campo Grande. Os governos civis que presidiam aos destinos do paiz não compartilharam o seu modo de ver.

Nem foi concedida ao heroico exercito a volta triumphal ao Rio de Janeiro, que teria sido a consagração merecida das suas proezas.

Dissolvidos os quadros, a pretexto de economia, os seus effectivos foram restituidos á vida civil, sem brilho, sem honras.

Meu Pae desanimou. Apezar da m[illegible] vontade que o cercava, continuou [illegible] estudar os graves problemas da nossa defesa terrestre e naval.

O programma que elle apresentou em avultado relatorio, teria dotado a nossa Patria de efficiencia militar que a todo o bom patriota se afigura hoje indispensavel.

A revolução interrompeu a sua obra.

A republica prometteu maravilhas. Que vemos depois de decorridos 2[illegible] annos? Militarmente falando, a nação está desarmada, como nunca estev[illegible] nos tempos do Imperio. Não temos exercito, nem marinha dignos desse nome. Não temos soldados, não temos instrucção technica, não temos quarteis, nem mesmo hospitaes.

Temos, é verdade, orçamentos. O exercito consome inutilmente 85 [illegible] contos annuaes. Mas uma anarchia profunda reina nas coisas da guerra. Aos ministros, escolhidos com fins meramente politicos, não sobra tempo para se occuparem das mais urgentes reformas. As leis votadas — pro fórma — não são executadas. O famoso serviço militar obrigatorio, tão decantado pelos proceres do regimen ainda é um mytho. Afóra a guarnição do Rio, indispensavel para as paradas da republica, não existem unidades tacticas organizadas, mesmo nas zonas fronteiras, tão importantes para a defesa nacional.

Materialmente falando, é possivel que se tenha melhorado a condição dos officiaes. Não creio, porém, que

COMO SE FALSIFICA O DINHEIRO

O falsario Albino Mendes tenta evadir-se do Corpo de Segurança, descendo por uma corda para a rua dos Invalidos

GEANETTI QUE SE SUPÕE SER O DENUNCIANTE DA QUADRILHA

Albino Mendes, o falsario chefe da quadrilha que a policia prendeu, tentou evadir-se hontem da prisão. Esta não é primeira vez que elle procura escapar á acção da justiça.

Em 1904, quando 2º delegado auxiliar o dr. Mariano de Medeiros, a policia do 13º districto descobriu uma fabrica de moeda falsa, na ladeira do Meirelles n. 8, prendendo ali, quando fabricavam notas de 20$, 10$ e 5$ da Caixa de Conversão, os falsarios Albino Mendes, Antonio Roças e Manoel Teixeira de Magalhães, que tinham uma succursal á rua Santa Christina n. 42, onde trabalhavam Abilio Silva Ribeiro e outros, que a policia não logrou descobrir.

Terminado o inquerito pelo delegado Fructuoso de Aragão, o 2º delegado avocou-o a si e iniciou outras diligencias que produziram resultado, mostrando já naquella época que, para se fabricar o dinheiro não precisavam os falsarios recorrer á argucia dos collegas do Prata.

Albino Mendes e os seus cumplices foram removidos para a casa de Detenção. No momento em que elle saltava do carro, aproveitando o descuido da guarda elle fugiu, refugiando-se no interior de uma casa da avenida Salvador de Sá, onde a policia, de novo, o prendeu.

Agóra, preso novamente e em flagrante, quasi que consegue escapar. Desta, como da outra foi infeliz.

Recolhido á sala dos agentes, sob a fiscalização immediata de um guarda civil da 2ª auxiliar, o falsario aproveitou a madrugada, hora em que todos dormiam para executar o seu plano de fuga. Cortou as cordas de uma veneziana, amarrou-as fortemente ao peitoril da janella e cautelosamente desceu. Quando elle attingia uma das janellas do 1º andar, cartorio da 1ª auxiliar, a corda rebentou e elle caiu á rua. O baque do corpo despertou um guarda civil, que deu o alarma. Albino Mendes embora ferido, correu até a esquina da travessa Didimo com a rua do Senado, onde o encontrou a gemer o rondante n. 109.

— Que tem?

— Nada... fui saltar do bonde e luxei o pé, como vê...

— Quer que chame a Assistencia?

— Não é preciso...

E ia elle correr de novo em direcção a um automovel que passava quando gritos de *Pégal Pégal* surprehenderam o 109. Este alcançou Albino e prendeu-o de novo.

Albino Mendes foi medicado no gabinete medico e desta vez recolhido ao xadrez.

Desta, como da outra, falhou o seu plano de fuga.

* * *

Quem teria denunciado a existencia da fabrica de moedas falsas á policia?

Tanto o dr. Ferreira de Almeida, 2º delegado auxiliar, como o dr. Reynaldo de Carvalho, 3º delegado, guardam rigoroso sigillo sobre o caso.

Nós, porém, tratamos de syndicar.

Encontrámos, casualmente, pela madrugada de hontem, nas immediações da rua do Nuncio um velho policial, ora afastado do meio e que se occupa de vendas de artigos de armarinho.

— O intuito dos falsarios daqui, illudindo o actual inspector do Corpo de Segurança Publica com uma fabrica de notas falsas em Buenos Aires não foi outro sinão applicar um plano em regra tanto no sr. Arthur Rodrigues, como no sr. Camara Campos, este sempre bem intencionado, é certo, mas pouco conhecedor do assumpto.

Elles queriam desviar a attenção da policia para agirem com mais resultado. Tanto é assim que o Angelo Evangelista desappareceu com a sua troupe e ao que ouvi tanto elle como os seus companheiros estão cheios de dinheiro. Quem denunciou a existencia de taes fabricas foi Geanetti ou o Antonio Lopes Machado.

— Este quem é?

— Cumplice de Evangelista e amigo de Geanetti.

— Mas com que interesse ia este denunciar os falsarios?

— Com que interesse? Claro, que pôr espirito de vingança.

E o ex-policial arrematou:

— Causa surpresa a toda gente o facto de não haver o chefe de policia lançado mão do sr. Arthur Rodrigues e da sua gente para taes diligencias. E' symptomatico...

* * *

Na madrugada de domingo, os tres delegados auxiliares proseguiram nas diligencias iniciadas, afim de ficarem de posse de todos os pormenores da vida dessa quadrilha de falsarios, para que possam punil-os convenientemente.

Como se sabe, Albino Mendes tinha cumplices na fabricação da moeda falsa, e esses cumplices apontados são Manoel Barbosa e Carlos Lopes de Araujo, residentes em Santos, no Estado de São Paulo.

Além destes, fazem parte da quadrilha, como introductores da moeda falsa na circulação, Francisco Augusto Real, proprietario do botequim da rua de Santo Antonio n. 59, na alludida cidade de Santos, e uma artista de *cabaret*, de nacionalidade hespanhola, que era quem recebia as cedulas, daqui enviadas dentro de livros de musica, programmas de theatro, etc., e ali agia de accôrdo com Real e Barbosa.

Está apurado que Manoel Barbosa era quem fazia aqui todas as transacções.

Ha tempos, esteve elle com um individuo de nome Salvador Pinto, com o qual ajustou a introducção na circulação de uma certa quantia.

Para Salvador sózinho passal-a, era grande a quantia. Então, resolveu este entrar em accôrdo com dois negociantes na Gavea, que de bonmente se filiaram á quadrilha e entraram a operar.

Parece, pelo que até agora apurou a policia, que esta quadrilha já ha muito que opera nesta capital.

Emquanto os agentes da policia carioca iam passear em Buenos Aires, procurando por lá os fabricantes de dinheiro brasileiro, elles aqui, com a maior tranquillidade, mettiam-se no *atelier* varejado domingo de madrugada, fabricavam moeda falsa, e depois iam remettendo, aos poucos, para varios logares desta cidade, do interior, e do Estado de S. Paulo, grande quantidade de cedulas, que inundaram dentro em pouco as gavetas das casas commerciaes dessas localidades!

Essa circumstancia apavorou a policia, pois as autoridades ficaram convencidas de que, fechada a fabrica de dinheiro brasileiro em Buenos Aires, estava extincto o fóco de onde surgiam as cedulas falsas descobertas aqui.

Mas, a poucos kilometros da cidade, lá estava o *atelier* do Albino Mendes, agora ás voltas com a policia.

Preso Albino Mendes, nas circumstancias que já descrevemos, as autoridades policiaes voltaram a sua attenção para os cumplices do celebre falsario. Assim, o dr. Ferreira de Almeida, 2º delegado auxiliar, telegraphou para o Estado de S. Paulo, requisitando a prisão de Francisco Augusto Real e da artista hespanhola.

Emquanto isso, as diligencias aqui continuavam, sendo presos Salvador Pinto e os dois negociantes da Gavea, que foram postos incommunicaveis no cartorio da 2ª delegacia auxiliar.

Além desses, tambem foi preso Luiz Cardoso dos Santos, primo e conniventé de Albino na passagem de notas falsas, e um companheiro.

Todos esses individuos foram recolhidos ao Corpo de Agentes.

Após haver ouvido ligeiramente os presos, o dr. Ferreira de Almeida, 2º delegado auxiliar, partiu para a Casa de Detenção onde foi tambem ouvir Albino Mendes, que se acha recolhido á enfermaria daquelle estabelecimento, por ter luxado um pé, na queda que dera quando procurava evadir-se da 3ª delegacia auxiliar onde estava detido.

Voltando á Central de Policia, ali o dr. Ferreira de Almeida, 2º delegado

ANTONIO LOPES MACHADO, CUMPLICE DE ANGELO EVANGELISTA

ANTONIO LOPES MACHADO, CUMPLICE DE ANGELO EVANGELISTA

auxiliar, combinou com o dr. Reynaldo de Carvalho, 3º delegado auxiliar, e com o inspector do Corpo de Segurança, varias diligencias que deviam ser effectuadas para a captura dos membros da quadrilha de falsarios.

Para effectuar uma dessas diligencias, partiu á tarde, da Repartição Central de Policia, acompanhado de agentes do Corpo de Segurança, o dr. Reynaldo de Carvalho, 3º delegado auxiliar.

O dr. Reynaldo foi á estação de Ramos, onde lhe constou havia uma succursal da fabrica da praça Secca.

* * *

Tal como succedeu aos falsarios, foi tambem presa e conduzida para a Central de Policia, Maria de Araujo, mulher de Carlos Lopes de Araujo.

Inquirida, Maria declarou ignorar tudo quanto se passava com o marido e cumplices, dos quaes nem siquer quiz dizer os nomes.

Depois de haver passado a noite presa de grande agitação, no xadrez, onde estava recolhida, pela manhã foi ella conduzida á 2ª delegacia auxiliar.

O dr. Ferreira de Almeida procurou interrogal-a.

Maria, sempre se obstinando em negar a pé firme conhecer os cumplices de Albino, acabou fingindo-se louca.

Assediada pelas perguntas insistentes que lhe fazia a autoridade, Maria teve uma crise nervosa e passou a responder com improperios.

De novo recolhida ao xadrez, tentou ella contra a existencia.

Com effeito, havia já alguns minutos que Maria estava dentro do xadrez quando chamou um policial, a quem pediu a deixasse ir ao W. C., que não existia no local em que ella se achava.

O policial abriu a porta do xadrez continguo e Maria entrou para o W. C.

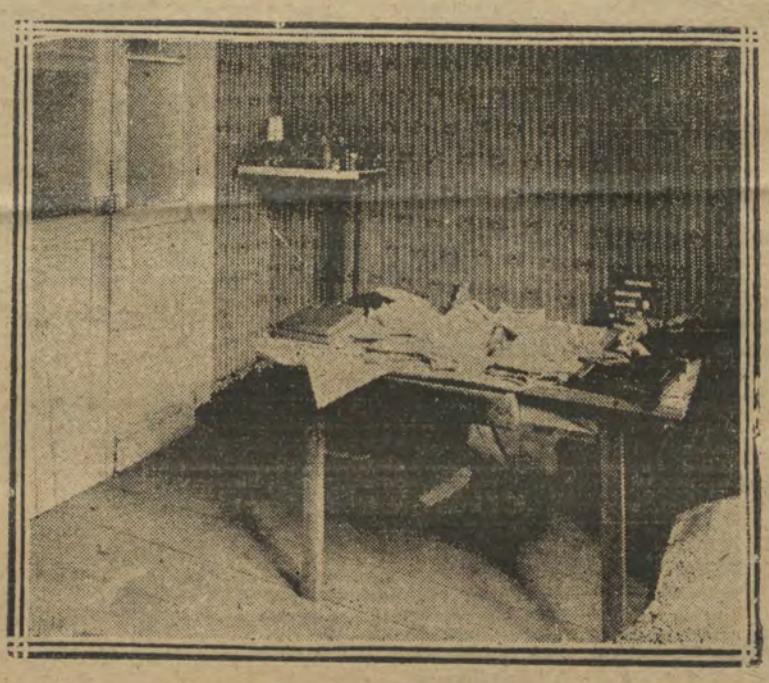

Ali havia, arrumadas, varias latas de creolina, e a mulher no auge do desespero, tomou uma dessas latas, que continha mais de um litro de desinfectante e levando-a á boca, ingeriu grande quantidade.

Pouco depois, presa dos effeitos causados pela creolina, Maria caiu ao chão, contorcendo-se em dores.

Como estivesse demorando, os policiaes abriram a porta do w. c., indo encontrar Maria caida.

Dado o alarma, foram requisitados os soccorros da Assistencia, que enviou ao local um auto-ambulancia com um medico, o dr. Leclerc.

O facultativo conseguiu fazer Maria vomitar regular quantidade de creolina que ingerira, mas, como o seu estado fosse grave, opinou para a sua remoção para a Santa Casa de Misericordia, onde ella foi recolhida

A faca e a páo

Na Caixa d'Agua do Estacio de Sá, brigaram hontem á noite, os trabalhadores Alfredo Mendes de Oliveira e Henrique José de Almeida, ambos portuguezes.

Acabaram por chegar ás dé cabo, estabelecendo luta corporal.

O Almeida defendeu-se com um páo emquanto o Oliveira o aggredia a faca.

A intervenção de companheiros evitou que o caso tomasse grande vulto, mas mesmo assim, a faca feriu o Almeida no cotovello esquerdo e o madeiro por elle manejado apanhou a região parietal esquerda do outro, produzindo-lhe larga brécha.

Os dois foram levados ao Posto Central de Assistencia onde receberam curativos, sendo depois autoados no 9º districto policial.

I enclose copies of my letters of Oct.13 & 16 to the Dhefe da Secção de Papel-Moeda, from which you will see that I have quoted for the same quality as we are furnishing to the Correio.....Rs.1$950 per kilo As they desired a somewhat better quality I asked the Correio to give me samples of some of those we had given them. They did so, and I then gave the Caixa a sample of the Bankers' Specie, Nº1 and Nº 2 (Red) and quoted them 4$400 and 4$200 respectively. All of the above prices are f.o.b. Rio. In regard to the kind furnished to the Correio, I figured as follows,---Your quotation (for 100 kilos) as per your letter of Sept. 19th. at 2s/3d. per kilo, say,.....54 cents.
Freight and expenses, 5%..... 2.7 "
56.7 "
10 % to cover differences in exchange..... 5.67"
62.37"

at Rs.3$100 per dollar, Rs.1$933 and I added a little more to make the round figure 1$950.

The other two qualities I calculated at 40% more than I had quoted the Post Office for the same qualities. After all my trouble I found out that they will not want more than 50 kilos, which will be enough to last a year. I also took the liberty of quoting the prices for 50 instead of 100 kilos. We are bound to be friendly to the Caixa and I suppose it will be satisfactory any way. I discovered that they have been paying 25$ a kilo for wax no better than the quality we are giving them for 4$400 and 4$200. Of course the high price includes duty (about 2$ a kilo) and our price is only placed in the Custom House, despatch to be made by the Caixa. Even so there is some question about accepting our offer, as the law requires that the supplies shall be by public tender and it may be some time before they accept our offer. If we do any business with them do not forget that the wax should not be marked as in the case of the Post Office ("Correio do Brazil"). For such a small quantity they will have to take it plain.

I will apprise you in good time if they decide to do anything with us. Yours very truly,

SUBJECT 10$ Notes.

FROM RIO DE JANEIRO TO NEW YORK DATE Oct.18,1913.

I confirm that part of my cable of the 16th.inst.which refers to this subject.

The Junta da Caixa de Amortização, at their meeting last Saturday, decided to let you ship the balance of the order, but they say that they will give a new order at the opportune moment. They are well supplied at the present time in all denominations, but I will look after further supplies in good time to keep them from running out.

They never gave us a written order to suspend shipment and it is therefore unnecessary to get an order for re-commencing the shipment.

I confirmed to them in writing having suspended shipment in accordance with their verbal request and I have also confirmed in writing what was determined about going on with the order as per copy of my letter herewith.

When Mr. Claudet arrives I will take up with him the question of new orders. By then it is to be hoped that our collections will be in better shape and we shall see our way clearly. There is no use of forcing new business upon them if there is any chance of carrying out what was intimated in one of your letters about suspending supplies until payments were put upon a more satisfactory footing.

We are in receipt of a letter from Mr. Irvine in Rio dated September 26th, and which reads as follows:-

> "I neglected to mention to you that the Caixa de Amortização had complained that the gum on the slips binding the notes is of poor quality. They say the packages do not hold together well in consequence and they have some trouble as a result. The complaint is certainly not very important but it is well to treat it seriously and try to please them."

I simply send this to you for your information.

10$ NOTES - BRAZIL

We are in receipt of a letter from our Agent in Brazil dated September 24th, part of which reads as follows:-

> "At the Caixa they showed me some of the 10$ notes which are not all cut of the same length. The difference does not amount to more than 1/16 of an inch in any one case, I should say, and I do not think they have any good cause for complaint. However, it is well to please them if we can. The notes are all of the same width and they cannot understand why the same should not be the case when it comes to the length. "

SUBJECT Counterfeit Notes.

FROM RIO DE JANEIRO TO NEW YORK

DATE Nov. 5th., 1913.

A telegram published in the 'Jornal do Commercio' of the 23d.ulto. said that various counterfeit notes had been apprehended by the police in Buenos Aires. They were of 50 and 100 pesos and had come from Chile and Brazil.

The 'Correio da Manhã' of Oct.30 contained the information that the police in Buenos Aires had discovered a counterfeit note factory which was making 10$ Brazilian notes and the Brazilian Legation had forwarded information concerning the matter to the Govt.

The 'Jornal do Commercio' of the 3d.inst.contained a telegram from Paraguay saying that the police in Assumpção had been trying to catch some passers of 10$ notes which had appeared in that capital. It was the belief there that these notes had been made in Montevideo

The Brazilian police have been more active of late in these matters and if they will do ggod and steady work the nuisance will probably assume much smaller proportions.

I note with interest what you say in your letter of Sept.22 under the heading "Government Plant" about ~~xxxxxxxxxxx~~ the difficulties of protecting notes against counterfeiting and also what you say in your letter (Ten Milreis Notes) of Oct.3d. about the good prospects for a new sensitive ink. If you could hit upon any device which would make your work more difficult to counterfeit you would strengthen your connection very much in Brazil I can assure you.

Ink for the Caixa de Amortização.

Nov.14,1913.

In L.L. Jenkins Files 573. Replying to that part of your "Miscellaneous" letter of October 10th, with reference to the above, we are sorry to read that there has been a complaint about this ink not flowing freely enough.

Of course, this Permaneo ink of ours has been especially made for its lasting qualities and the ingredients in it no doubt prevent it from flowing as freely as an ordinary writing ink, but we have never before received any complaints on this account and have always felt that its enduring quality and imperviousness to acid have discounted the slight thickness of the ink.

This ink is used by a number of New York banking houses on their documents of security and also by the International Banking Corporation for signing their notes, which circulate all over the world, and we have never before received any complaint with regard to the same. It has been put to every conceivable test and has always remained fixed and unmovable.

We are afraid that we cannot suggest adding anything which would make it flow more freely without destroying its other qualities, and therefore can only suggest that they put it in small bottles and shake it thoroughly before using.

For your own information we would say that we are experimenting on a new ink for signing these notes and will write you at some length regarding the same shortly.

Yours very truly,

Miscellaneous.

Dec.13,1913.

I have received your favours of Nov.7,11(2),12(from Mr. Coudert,14(7), & 15th.(2).

Calendars. Those advised have not yet come to hand.

Notes of Molson's Bank (specimens of ours & Waterlow's).Those advised in your letter of Nov.14th.have been duly received and will be kept in this office for use.

Ink for the Caixa de Amortização. I take due note of your remarks as contained in your letter of Nov.14. The objection made by the Caixa is not of a kind which we can consider a reflection upon the quality of the ink. It is only a case of the employees there not wishing to go to extra trouble. They are paid so much for each note they sign and naturally anything which impedes quick signing does not meet with their approbation as it yields them less return. The efficiency of the service is quite a secondary consideration with them.I should like them to adopt the ink,for anything making the notes better will help our business but we are powerless in this case I am afraid.

Ink for the Post Office. The new sample which you advised you were sending has not yet turned up. I suppose it will come by the steamer arriving on the 16th.inst.

Visitors to New York. I note with pleasure the remarks of Mr. Coudert in his letter of Nov.12th. and will not fail to present any Brazilians known to me going your way provided they are in a position to take an interest in the work of the Factory.

Yours very truly,

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

No employee of the Company is authorized to vary the foregoing.
